Railroad Laborers Causing Trouble

Sheriff Elkins has been having a busy time with the laborers on the railroad construction work in the Hillman-Bend district this week. War broke out about 3 o'clock Sunday afternoon when a bunch of laborers attacked P. E. Morrow, who has been conducting a drink "joint" in Hillman. The cause of the trouble has not been given out by the laborers or the man assaulted, but after a free-for-all scrap in the building, Morrow broke through the back door and started for the postoffice some three blocks distant.

Before half the distance was covered, Morrow turned on the foreigners who were following him closely and showed fight when one of them knocked him down with a rock, the blow bursting the left eyeball and disfiguring the left side of the face generally.

Morrow's partner, who witnessed the fracas, went to the postoffice and telephoned to Redmond for Deputy Sheriff McClay and Dr. Hosh, who found Morrow bleeding badly from a number of knife cuts in the head and face. Parties who saw the fight say that bottles, rocks and knives were used in disfiguring Morrow after he was down.

Dr. Hosh took Morrow to Redmond and some fifty stitches were necessary to close the wounds.

Sheriff Elkins was in the country at the time the trouble happened and did not arrive on the scene until Monday. Morrow refused to swear to a complaint against any of the offenders, apparently satisfied not to have the case aired further.

Trouble started sometime ago at Bend where Bryan & Youngstrom let a subcontract for some station work to a party of five laborers. The work was not being done up to standard and parts of the contract were ignored. It became necessary for the original subcontractors to take the work back, and in doing so the emnity of two of the laborers was incurred.

Prineville

It became difficult to get laborers to go onto the works and none of them would sleep on the premises. Some thirty of them quit work Tuesday night Gabriel Balanty came to Prineville and swore out a warrant for the arrest of Rossi.

The protected valleys near Prineville. One of the orchards near Powell Butte has given a never failing crop for the past 29 years. More commonly the orchards—none of which have been carefully selected, cared for or protected by the use of smudge pot—return large yields of fruit two years out of three. The large crops of alfalfa from five to seven tons to the acre being not uncommon from three crops—make the Prineville section especially promising for dairying, and stock feeding. Alfalfa fed beef from near Prineville have more than once topped the Portland market in competition with corn fed beef. In contrast with nearly all parts of Central Oregon, the crops are this year exceptionally good in the Prineville section. Some of the newly plowed bench lands north of town are this year producing crops of wheat that is estimated will thresh between 25 and 30 bushels to the acre.

The estimated population of Prineville is between 1600 and 2000. The town is well located and has had electric lights and a city water system for a number of years. Property values in and near Prineville are conservative. A total of about 40 automobiles owned by Prineville residents further indicate the substantial wealth of the town and section.

WHY SALVES FAIL TO CURE ECZEMA

Scientists are now agreed that the eczema germs are lodged not in the outer skin or epidermis, but in the inner skin. Hence, a penetrating liquid is required, not an outward salve that clogs the pores.

We recommend for all eczema patients the standard prescription Oil of Wintergreen as compounded in liquid form known as D. D. D. Prescription. A trial bottle of this D. D. D. Prescription, at only 25 cents, will instantly relieve the itch. We have sold and recommended this remedy for years, and know of wonderful cures from its use. We recommend it to our patrons.

Summons.

In the Circuit Court of the State of Oregon, for Crook County.

Geo. W. Noble, Plaintiff.

James A. Ragcor, Ragcor, and all others interested, Defendants.

To James A. Ragcor and Ragcor, the above named defendants, and to all others interested:

In the name of the State of Oregon you and each of you are hereby summoned to appear and answer the complaint filed against you in the above entitled suit, on or before the 18th day of October, 1910, and if you fail so to answer, for want thereof the Plaintiff will take a decree and judgment against you for the relief prayed for in the complaint, to-wit: For a decree of this court that plaintiff is the owner in fee simple of the southwest quarter of the southwest quarter of section thirty-three of township fifteen north, of range twenty-five east of Willamette Meridian, and the west half of the northwest quarter and the southeast quarter of the northwest quarter of section four, in township sixteen south, of range twenty-five east of the Willamette Meridian, all in Crook County, State of Oregon, free from all incumbrances; that the defendant, James A. Ragcor and Ragcor, and all others interested, and to all persons claiming by, through or under them or either of them, be forever barred and estopped from denying or claiming any right, title or interest in or to said premises or any part thereof, and that the said premises be sold to satisfy said judgment and that the proceeds of said sale be divided among said James A. Ragcor and Ragcor, as they may seem just and proper.

This summons is published in the Crook County Journal, at Prineville, Oregon, for six full weeks in seven consecutive issues of October 13th, 1910, and ending with the issue of October 13th, 1910, by order of the Hon. H. C. BRIDGES, Judge of Crook County, State of Oregon, made and entered on the 25th day of August, 1910. Dated and published first time September 1st, 1910.

M. E. BRINK,
Attorney for Plaintiff.

Drives away Flies, Mosquitoes and Gnats.

It protects horses and cattle from attacks of insects, enabling them to feed and sleep in peace. It prevents loss of weight and strength from worry caused by attacks of insects, and from the irritation of their bites and stings. There is a satisfaction in the relief it affords domestic animals from the scourge of maddening parasites and flies, besides the profit in returns. Horses do more work on less feed and cows yield more and better milk when relieved from the frenzy incited by constantly fighting a swarm of voracious, insatiable insects.

Four sizes, 25c, 50c, 75c and \$1.25. Ask your merchant for it.
