

DO YOU WANT YOUR TAXES INCREASED?

One of the Results of County Division Would Be to Make Assessments Larger.

Many people in Oregon own property in different parts of the state. Nearly every property owner, in one way and another, would be affected if the county division scheme is not voted down. One of the results of the scheme would be to increase the people's taxes, in some cases, taxes would be doubled. But the people will be guided by sane judgment and will vote "No" to all these measures which, declares the Eugene Register, were foisted upon the public by professional politicians and ambitious little towns. That paper says editorially:

"Nine county division schemes are bidding for enactment under the initiative, in imitation of Hood River county's success two years ago, and the end is not yet. Here is direct legislation gone to seed and disseminating trouble through the fair expanse of Oregon, says the Oregonian.

"The latest is Deschutes county, presenting a petition to the secretary of state and asking to be carved out of the northwest part of Crook county. Umpqua, Williams and Nesmith, with overlapping boundaries, seek independence from Lane and Douglas counties. Umatilla county is wrestling with the ambitious schemes of Orchard and Hudson. Clark desires separation from Grant, Olin from Malheur and Harney. A strip of Clackamas seeks annexation to Multnomah.

"Politicians, office seekers and ambitious little towns are putting up these county partition schemes. More counties will provide additional official places and other patronage. They will also make higher taxes and more trouble for property owners.

"It is reaching a point in Oregon where the electorate will feel obliged to vote uniformly against all these new counties. The voters cannot inform themselves on the many local details involved, in order to legislate, therefore they are likely to take the view that their safest action will be that of voting "No" on the "whole bunch."

"The Oregonian's position on this matter is correct. It should add, however, that it is important for those who oppose this wholesale formation of new counties to be sure and vote as they feel about it, and put a "No" in front of each one or every proposed new county will carry. The people can put it up to the legislature to frame a fair and just division law that will leave formation of new counties to the territory thus affected and relieve the whole state of responsibility for county formations. This is what the people want and they will get it if they vote "No" on all proposed county schemes at the November election."

SELFISH MOTIVES BEHIND IT.

Office Seekers Promoting County Division Schemes.

Avowed office seekers seem to be among those who are promoting the cause of county partitioning in Oregon, according to the Grants Pass Observer in its issue of July 29. Furthermore, the people generally have no conception of local situations as affecting counties where the cry for division is heard. Only about one in ten voters would know what they were voting for. Therefore, the best way is to vote "No" to all of the measures, urges the Observer:

"Two years ago the people voted to form the new county of Hood River out of a section of Wasco county. It is safe to say that 90 voters out of a hundred had no acquaintance with the conditions or geography of the county they divided. The voters will be asked next November to do a good deal more of this kind of county partitioning. People who are not at all acquainted with the various territories, will be asked to slice Crook county and make a new county to be called Deschutes. It is proposed to carve up Lane and Douglas counties, and constitute the three new counties, Umpqua, Williams and Nesmith. Umatilla is prey for two proposed new counties, Orchard and Hudson. A piece of Grant county is to be asked to make Clara county, while Harney and Malheur may be clipped off a little to make room for Olin. It is really scandalous and only possible under the initiative. The trouble is that the performance is just commencing and it is not easy to see where it will end. The best way, the only right way, is to vote "No" to all these local measures, of which the people as a whole have no information. The Observer has no idea of the rights in any of these cases, but believes they are just selfish schemes to make little towns county capitals and supply several good county offices for the promoters."

A Fundamental Difference

One of the fundamental differences between the suffragists and Anti-suffragists as I see it, is that the former clings to the belief that the ballot in itself is a panacea for all existing evils and all powerful as a remedial agent of government, while the latter recognizes, in these opening years of the 20th Century, the development of a power more potent than the ballot—a power which at present we call education or enlightened public opinion. The ballot hasn't solved the negro trouble, it has tended rather to complicate it, but an awakened public opinion has decreed that these problems and others akin to them shall be taken out of the realm of politics and be considered and dealt with from an economic and humanitarian point of view, and this is being done through the conferences and congresses on child labor, the care of dependant children, tuberculosis and other questions, which are being held throughout this country to-day. And in these conferences the women's voice is heard equally with the man's. She isn't excluded from participation in such work because she hasn't a vote, neither is her influence lessened as a member of these committees for that reason. Here is a great field of activity and usefulness for woman, a real chance to serve the state.

I do not hesitate to say that those of us who are opposing the extension of suffrage to our sex, entirely eliminate the personal element in our consideration of this subject, it is not a question of whether we want to vote or do not want to vote.

We have the welfare and development of our country at heart and after a studious contemplation of the governmental principles involved, we are firmly convinced that such "a revolutionary change" as Mr. Gladstone called woman suffrage, would be against the best interest of the state, its women and the home, and would be a step backward rather than one in advance.

A man in public life when interviewed this winter on the subject of woman suffrage said "Somewhere within the borders of this country today there are mothers who are bringing up four Presidents, one hundred cabinet officers, three hundred Senators and five thousand representatives who between the years of 1930 and 1950 will be making the history of this country and measurably the history of the world."

Woman can have her share in politics if she will. The ballot isn't all. The mere ballot she is so eager to clutch doesn't in the balance of politics count for more than an ounce in a ton.
