Street Grading Ordinance Passed
—Street Improvements
to be Made.

A special meeting of the City Council was called last night to consider an ordinance regulating the liquor traffic and for the grading of streets. Present:—Mayor Stewart, Councilmen Shipp, Noble, Rosenberg, Lafollette, and Yancey, Recorder Breese and Marshal Kelso.

Street grading ordinance No. 179 covering the grading of Third street for its entire length was passed unanimously. It will be used as a model from which other ordinances may be drawn, grading all streets of the city. Civil Engineer Brewster was chosen to take the matter in charge, and complete the work of preparations for grading the different streets. He is to report within thirty days.

A liquor ordinance was next considered. After a good deal of discussion, the amount of the license was fixed at \$800 annually, payable in advance. Every applicant must be passed upon by the council and the entire amount of the license paid to the city treasurer before a license can be issued. Several restrictions are placed on the issuance of a license. All saloons shall close promptly at midnight every day in the week, and shall not open before 5 a. m. and shall be closed on Sunday. The closing hour was a bone of contention and some asked for 1 o'clock, but a majority vote decided on 12 o'clock. All obstructions of any sort must be removed from the building in such a manner that anyone can see through the building when it is closed, excepting that a screen be maintained to a height of not more than five feet from the sidewalk.

No drug store or pharmacy shall sell liquors of any kind except on a doctor's prescription, unless such store or pharmacy pay the regulation license of \$500.

No gambling, gaming, music, singing or anything of the sort will be permitted in the place holding a license.

Any violation of the provisions of the ordinance, except that governing the Sunday closing, is punishable by a fine of not less than \$25 or more than \$100, and the third offense revokes the license after which another cannot be issued to the offending party. In the Sunday closing clause, the second offense is sufficient to cause the revocation of the license and in the event of a license being revoked, the fine imposed by the recorder must be paid, which may also carry a jail sentence and the entire license fee is held by the city.

The fine for selling liquor without a license shall be not less than \$25 and not more than \$100 and imprisonment.

Gardner Perry was present from the Fire Department and said that some of the firemen had been required by the marshal to pay poll tax. It was ordered by the council that this money be refunded.

L. C. Morgan asked for permission to construct a fire escape in the alley leading from his new location for the pictorium, which was granted by the council.

People cannot arrest the flight of time, yet they are often asked to stop a minute.

His Advertisement.
Prentice—Was Preacher's sale of woman's shoes a success? Hespenbeldt—No; it was a flat failure. His advertisement spoiled everything. Prentice—How was that? Hespenbeldt—He advertised "big bargains."—Life.

Why He Quit.
Willie—What's quit yer job fer? Weary—Well, I figured it like this: If I did make good they'd fire me; if I did make good they'd expect me to keep on makin' good. That's too much work, so I quit.—Cleveland Leader.

The Jelly.
Sometimes we interpret too literally. "I want to learn to make jelly," said the newly installed housewife. "Is it hard?"
"Oh, Lord, no, mum!" replied the cook, with supreme pity. "It's soft."
