## Tailoring!!

I have received my new Spring line of Woolens. No old stock to work off and now have associated with me Mr. C. E. Thomas, an expert cutter and fitter from Portland. Have your suits made to your own measure here in Prineville by practical Tailors. Ladies' suits altered, cleaned and pressed

**GORMLEY, the Tailor.**

**PROVEN ECZEMA CURE**

By a special arrangement with the D. D. D. Laboratories of Chicago, we can at present offer the D. D. D. Prescription for eczema in a special trial size bottle at one-quarter of its usual price. This oil of wintergreen compound will surely convince the most skeptical. With the first application you will get instant relief from the itch and soon you will see signs of cure.

No matter how many salves and other so-called skin remedies have failed, this oil of wintergreen liquid (unlike salves) will penetrate to the inner skin, killing the eczema germs. Will you not—on our special recommendation—call at our store?—and get a 25 cent trial bottle of D. D. D. Prescription.

### SOCIAL PROGRESS.

#### What a Small City's Civic Club Has Accomplished.

All over the United States small towns are realizing that they, as well as the great cities, have social and civic conditions and problems which call for a rally of citizenship and community action. How much can be quickly accomplished in a small city is shown by the work of the Civic club of Cumberland, Allegany county, Md., which is only a year old.

The direct work has been done by the women, but the men have risen to the club's suggestions and are turning to it for help in a surprising number of cases, says the Survey. The major part of the men desired petitioned for the club's cooperation in doing away with insanitary conditions of sale from wagons. The city officials were interested to co-operate in removing weeds. The electric railway authorities have been brought to see the need of a new station and lavatory. The board of health is coming to realize the necessity of locating the slaughter houses more suitably and controlling their conditions.

A committee of merchants petitioned for an arc light where disorderly men and women congregated and for the requirement of screens over fruit, meats, etc., exposed for sale.

Unfortunate conditions after dark in a cemetery led to the appointment of a committee to look after the nuisance, composed of members of the church, controlling the cemetery. The school authorities have established an evening school this year, and a union of forces has brought about a very successful beginning of playgrounds. During the year a committee of men has put the Cumberland charities upon a business basis.

The Allegany county schools have made great progress during the last few years under the leadership of an efficient superintendent, and their service as social centers is being developed. All these social advances are likely to broaden into a comprehensive study of conditions and further progress in securing civic institutions and social legislation.

### PARIS KNOWS THEIR VALUE.

#### Smooth, Clean Highways and Beautiful Parks Are Profitable to the City.

Paris has accepted unflinchingly the doctrine that smooth and clean highways are a wise investment and that so long as the work is done in a thorough and scientific manner, with an honest and skillful application of means to ends, the result is worth having regardless of cost. The expense of maintaining, cleaning and sprinkling the streets is greater than in any other European city, but the sort of pre-eminence that such a street service helps to secure is profitable in a hundred indirect ways.

Paris has by far the richest park equipment of any city in the world. The area of parks within an afternoon's excursion is 20,000 acres, while farther away are more extensive public grounds, such as Versailles and Fontainebleau. It is impossible to estimate the profits which Paris derives annually from its parks, boulevards and public buildings. Bankers have estimated that Americans spend upward of \$500,000,000 annually in foreign countries, and it is safe to say that Paris receives at least one-fifth of this vast sum, the profits from which are as great as are the profits from pork to Chicago, shoes to St. Louis and beer to Milwaukee.

The experience of Paris ought to convince the most skeptical that there is no modern community of civilized men which cannot afford to provide the most perfect public appointments that technical and scientific knowledge have discovered—well made and clean streets, good water, proper drainage, convenient transit facilities, complete schools and thorough sanitary organizations. No city should think itself rich enough to prosper without them, and no city is so poor that it cannot afford them.—Harvey N. Sheppard in Outlook.

### For a Spotless Town.

The Kansas City chief of police has issued a rather drastic order, as follows, says the Twentieth Century Magazine: "Arrest on view any person throwing paper or other rubbish on the streets or in vacant lots, any person excavating without a permit, any person tacking or sticking cards or posters on sidewalks, fence poles or in other public places; any person scattering handbills or circulars on sidewalks, streets, porches, yards or private premises or distributing them to passersby; all teamsters who allow dirt or rubbish to fall from their wagons. Patrolmen are also instructed to notify all owners or agents of vacant property on their beats that weeds must be cut at once and all rubbish removed; to notify owners of abutting property where earth has washed down on to the street or sidewalk to remove the same immediately; cause the immediate removal of manure piles which may be in the alleys."

### Co-operative Street Work.

If you would have abutting property owners interested in having clean, beautiful streets to the extent of active co-operation municipalities must be progressive in street improvements. It is hardly to be expected that clean parkways and well cared for street trees will abound in districts where town officials do not do their full duty. It is hard enough to obtain full co-operation even where existing conditions are well high perfect, and every degree of negligence on the part of a town is fully reflected in the slovenly condition of those parts under care of the residents.

### WAT are you going to do with the young people of your town? Are you bringing them up in the belief that their town needs their assistance? Are you training them so that they can be of use to the community when they reach the age when they can do the most good? Are you protecting the beauties of your town from their youthful pranks and escapades? You are! Well and good. You are not! The more are you to be pitied. It is the town that has not taken the proper precautions in making the most of the boy that is to be pitied. As the mother can train her child, so can the town train its youths into using the virtues which we all are more or less endowed, instead of using their Mr. Hyde instinct to the detriment of the town. Property controlled a youth can be made to do wonders. When General Baden-Powell of the English army first broached the boy scout idea he was swamped with inquiries from all parts of the British empire soliciting information. Since then the boy scout has become an established thing in England. Thou-

### LIGHTING SYSTEM WHICH ANY TOWN MIGHT ADOPT.

Harrisburg's Suburb Park Lamp an Ideal Arrangement.

The beneficial effect of the lighting system adopted by the promoters of Belleus Park, near Harrisburg, a new suburban district, is well illustrated when the twenty-one tungsten burners surrounding the concrete standards are turned on.

The standard shown in the illustration stands nine and one-half feet

CONCRETE POLE LAMP.

high, or just half as high as are the so-called 2,000-candle power arc lamps in the city streets. Each standard is a tapering shaft of granite white resting on a square base. There are no edgewise that can be broken off, and there is no part of the standards that can wear out.

At the intersections of the streets the posts contain the names of the streets, the letters indicated, so that at nighttime there are no shadows cast by the lights. These street names can be as easily read at night as in the daytime.

The burners are covered with frosted glass globes, which diffuse the light in such a way that all the walks and streets are adequately illuminated. The burners are sixty watt power, and it is estimated that if this plan of lighting were adopted for a more extensive use four or five of the burners could be used in place of one arc lamp with no increase in the amount of electricity used and with greatly increased efficiency. The standards adopted are such as a municipality could purchase for general use. Their cost is slightly in advance of the cost of an iron trolley pole, they are much more ornamental than the wooden poles to which are attached the arc lamps, and there is nothing about them that needs repairing except the tungsten lamps.

The standards are admirably adapted for use in parks and parkways, and numerous towns have already placed similar standards in their parks. The placing of the light standards in a section laid out for residences, however, is a new one, and those who visited the place proclaim it a successful move.

### WEALTHY AT OUR EXPENSE.

#### Millions Acquired in Mail Order Trade Might Have Been Spent at Home.

The Humphrey (Neb.) Democrat printed the following item in a recent issue:

"An accumulation of \$25,000,000 in seventeen years is what the people of the country have done for a Chicago man in the catalogue business. Can anybody imagine how it is possible for a catalogue house to sell merchandise as cheaply as these houses claim and make such a vast amount of money? And remember the amount of money this man has accumulated represents only about one-third of the amount of money his firm has made in those years, as the other members of the firm share in the profits of the business to the same extent as he does.

"There is a 'nigger in the wood pile' somewhere or those vast profits could not be made, and it is not hard to see where the nigger is located. By extensive advertising they are able to work the people to pay a big price for an inferior article, and that is about all there is to it. It is time the people who are in the habit of patronizing these concerns take a tumble and keep their money at home."

### Beauty Destroyers.

The railway gardeners at the recent Boston meeting protested against the practice of owners of huge signboards who, when they secure a
