The Pioneer Cream Co.

The Pioneer Cream Company is now located in their new quarters on Main street. The building was fitted up especially for the company and under a long lease marks a new epoch for the small farmer in Crook county.

When the creamery business was opened two years ago the matter was one of debate whether it would pay so far from a railroad.

The growth of the business has been the best answer. During the two years the plant has been open or business all cream has been bought that has been offered in this part of the county. Checks have been issued regularly on the 15th of each month to the producers. The new quarters will enable the company to do a good retail business in cream, buttermilk, etc.

The ice cream made by this company is unexcelled anywhere. The special products in this line, including ice cream bricks, will be a feature during the coming year. Careful attention is given to special orders and the people are fortunate to get the best in this line at home.

The O. K. Meat Market

The O. K. Market which is now located in the new Maling building, commenced business in Prineville in August, 1905, when Tom and Fred Stroud bought the market then owned by Joe Crooks. Being cattle men of considerable experience, the Strouds have built up a substantial business until today, in their new location, which was built especially for their business, they are equipped to handle a large volume of business as easily as any shop in interior Oregon.

Many conveniences have been placed in the new building that will be appreciated by the public, as well as being a financial saving to the proprietors. A large refrigerator room that will store enough meat for several days' business is in commission, and the tight window, where the fruits and vegetables will be displayed, is another convenience.

Since the completion of the railroad to Metolius and the corresponding reduction in freight

rates, this firm will carry the best fruits and vegetables in the market. The low express rate will enable them to give the best at a reasonable price.
