

COUNTY COURT PROCEEDINGS

Continued from page one.

petitioners, representatives and others, the court finds itself unable to suggest any further relief than that provided by statute and the decisions thereunder. The law provides that the board of Equalization shall meet on the third Monday in October in each year, for the equalization of the tax roll. The records show that due notice of the meeting of said board of Equalization was given by publication in the official newspaper of Crook county, that in pursuance of the law and of the notice aforesaid, said board met and held its session for the period of time provided by statute, and that all matters brought before said board were duly considered. That when the roll is finally finished and equalized, it stands as a judgment and is not subject to a review or a revision except in the manner provided by law. The statute further provides that, "Whenever the tax collector discovers that any property has been assessed more than once for the same year, he shall collect only the tax justly due thereon, and shall make return to the county court of the balance as double assessment, and shall be properly credited therefor; and whenever, at any stage in the collection of taxes, the officer having charge of the rolls shall discover errors or omissions of any kind therein he may properly correct the same to conform to the facts in whatever manner may be necessary to make such assessment, tax, or other proceeding whatsoever regular and valid, such correction to be made in red ink, or otherwise distinguished, and to be signed with the initials of the officer making the same and the date of such correction."

The court further states that it is always ready to afford any relief that it may give under the law or statutes.
