

## HAY

We handle McCormick mowers and rakes. If you need a new haying machine, you can do no better than get a McCormick. McCormick mowers are light running; they are durable, and they are built in various sizes to meet the most varied requirements—3½, 4½, 5, 6 and 7-foot cut. McCormick rakes are made in various widths in either hand or self dump styles. If you are undecided as to what machine you want, call and let us explain the many meritorious features found in the McCormick mower and rake construction. Learn why McCormick mowers and rakes are money savers. If you are not ready to buy, call anyway and get a catalogue. It's filled with valuable information, and it will explain exactly why McCormick rakes and mowers excel.

During her three-years' stay in Prineville Miss Parrott has made many warm friends. While they regret to lose her yet they are pleased to have her ability as a teacher recognized by a state institution.

When at the courthouse if you hear loud noises like something snapping or popping don't be afraid. Its only Henry Clow's new-fangled lawn mower. Nor is it one of the sort that any old scrub can push around. No, sir. Henry has fixed up a gas engine and with some bicycle gearing has a contraption that will mow the grass like a house afire. Just at present it takes two men to navigate it but as soon as a couple of wheels arrive it will propel itself. Patent applied for.
