

## TAFT SAYS FUTURE WILL JUSTIFY HIM

Aid of Democrats Acknowledged and Refusal to "Play Politics" Commended.

Beverly, Mass.—In the first statement made since the passage of the reciprocity bill by the Senate, President Taft at the summer White House freely acknowledged that his long campaign in behalf of that measure would have proved unavailing if the Democrats had not helped him.

"The Democrats did not play politics in the colloquial sense in which those words are used," said the President, "but they followed the dictate of a higher policy."

Those Republicans, he said, who fought for reciprocity, "and some of those votes were necessary to the passage of the bill properly, may enjoy mutual felicitations on a work well done."

In his own judgment, the President said the agreement would mark an epoch in the relations between the United States and Canada, and those who opposed the bill in Congress would find their prophecies disproved and their fears allayed by its actual operation.

### Many Disorders in Mexico.

Mexico City.—That the period of reconstruction soon may be succeeded by another revolution is the fear expressed frankly in many quarters of the capital. Reports of disorders assuming in a few cases the magnitude of battles are not uncommon and almost daily the authorities are informed of the frustration of plans against Madero or the constituted government.

### TARIFF CAUSED HIGH SUGAR

Claus A. Spreckels Says Trust Aided in Advancing Prices.

New York.—Testifying before the House committee investigating the sugar trust, Claus A. Spreckels, son of the late Claus Spreckels, of California, and president of the Federal Sugar Refining Company of Yonkers, declared himself of the opinion that the removal of or a big reduction in the tariff on sugar would decrease the price of refined sugar in this country two cents a pound.

Mr. Spreckels read into the record official statistics showing that since the sugar trust was formed the price of refined sugar had materially increased.

### Canada Wants Our Coal.

Winnipeg.—The Dominion government has been asked by the Board of Trade in Alberta to suspend duties for a period of six months on coal entering Canada from the United States. ### WOMAN'S LEAGUE EXEMPT

Property Not Included in Court Order Against Lewis.

St. Louis.—Supplementary orders, placed on the records of the United States circuit court, require E. G. Lewis, whose properties were placed in receivership, and his wife to deed to the receiver all their property which has connection with the Lewis enterprises, capitalized at more than \$5,000,000.

According to attorneys for the creditors the orders include the Lewis home in University City, the suburb in which most of the Lewis concerns are located. It has been definitely decided the property of the American Woman's League, which has chapter houses scattered from Ohio to Colorado, is not included in the court's orders.

### German Aggression Not Tolerated.

London.—France on the one side and Germany and Spain on the other, is believed here to be not far from impossible as a result of the Moroccan imbroglio. The statement of Chancellor of the Exchequer Lloyd George at the lord mayor's banquet is pointed to as a sign of alarm. He practically served a notice of "hands off" on Germany.
