

Genasco Smooth Surface Roofing

Retains its life for years, being pliable in cold weather and not affected by rain, cold or heat. It is made in four weights, half-ply, one-ply, two-ply, three-ply. Two-ply is used for all ordinary roofs. Inside of every roll are packed nails and liquid cement for laying, together with full directions so that any handy man can lay the roof. Don't buy until you see a Genasco Sample.

Good Road Work.

The road work being done under the supervision of R. H. Bayley in the canyon near David Elliott's place up Ochoco is a triumph of excellence. The grade around the hill is almost as true as a railroad grade, and the rains of the past few days have done much toward turning it into a boulevard. This piece of road is about finished, and the next scene of Commissioner Bayley's labors in the road-making line will be near Paulina.

Do you think their judgment is worth anything? Do you think that they are in a position to know and appreciate land values in the City of Prineville? These are a few of the people who have secured ideal home sites in the high class NOBLE ADDITION. They expect to build and make their home there where they will have the benefit of the graded streets, sidewalks and building restrictions. A place where their property will not depreciate and their homes will not be made unpleasant by the erection of shacks on the adjoining lots.

MR. HOMEBUILDER OR INVESTOR
Buy your lots where ideal conditions for home sites are guaranteed. Where street improvements and sidewalks are already in; where your property values are secure; where it would be a pleasure to go and live yourself; where you have the protection of building restrictions. Noble's Addition is the only subdivision now on sale that has these modern necessities for a high class residence section. It is the only restricted district in Prineville. Prices are low. Terms to suit the purchaser. We will help you build your home. For particulars call on

Binds More Sheaves with Less Twine

Plymouth Binder Twine is made right. It works smoothly, ties properly, and the last of the ball feeds as freely as the first. No knots or breaks. Fifty per cent stronger than the strain of any machine actually requires.

PLYMOUTH Binder Twine

Is used more than any other twine because it is known to be the best. Made by the oldest cordage establishment in the United States, where quality and honesty are spun into every ball of twine. Farmers who insist on seeing the wheat-sheaf tag on every ball of twine save money and avoid harvest delays.
