

Hillman News.

The Oregon Trunk Ry. will have rails laid into Hillman within the next few days. The chief carpenter for the Hill system was in Hillman last week and established a water station at that place.

Many new buildings are going up, and the population has doubled within the last month.

O'Neil & Larson started moving their store from O'Neil to this place Monday.

W. A. Pickett of Kahlotus, Wash., is erecting several business buildings which are being rented as fast as completed. Mr. Pickett is also putting in a large general store at this writing.

W. E. Thielvoldt is building a handsome six room modern residence, which will be completed this week.

The Ladies' Hillman Pioneer Club, together with the Commercial Club are preparing to build club-rooms in the very near future.

The monarch Lumber Co. has established a lumber yard here, and is doing a big business.

Tom A. Nedder has closed negotiations with Portland lumber companies to also handle their product here.

A new road is now being built directly east from the depot which will make a saving of three miles between Hillman and Prineville, making the total distance 17 miles the closest point to Prineville on the Oregon Trunk R. R., with less than a one per cent grade.

Timbers are now being hauled by Mr. Winfield for the Townsite Company to erect a suitable frame to hold a 20,000 gallon water tank, which will supply this community with water for domestic purposes. The water system will be in within the next thirty days. Sidewalks and street lights will also be put in with the event of the railroad.

The outlook of the community was never better than at this time;

people are coming in and taking up land in this vicinity and improving it. Speculators buying land to hold until his neighbor improves it should be discouraged, as it retards the growth of any country.

Big crops have been produced in this vicinity this year, and all the farmers are happy.

Sheet Music 5 Cents

RUBEROID ROOFING

Has None of the Defects Common to Other Roofing Materials

RUBEROID is not affected by changes of temperature. It is weather-proof, water-proof and so highly fire-resistant that sparks or burning brands will not ignite it.

The Only Permanent Roofing With Permanent Colors

RUBEROID is made in red, brown, green and slate color. These colors are not painted on the roofing—they are part of it. They do not wear off or fade.

Railroad Day Celebration at REDMOND

Saturday, September 30th, 1911

A cordial invitation is extended to the whole country-side to join in with the people of Redmond and help celebrate the advent of the railroads to that city. There will be Speaking by Prominent State and Railroad Officials, Band Concerts, Base Ball, Broncho Busting, and a number of other sports. The citizens of Redmond have made ample provision to entertain the crowds that will attend that day. Bring the whole family and come prepared to spend the day and see the

Biggest Celebration Ever Held in Central Oregon
