They expect to build and make their home there where they will have the benefit of the graded streets, sidewalks and building restrictions. A place where their property will not depreciate and their homes will not be made unpleasant by the erection of shacks on the adjoining lots.

MR. HOMEBUILDER OR INVESTOR

Where street improvements and sidewalks are already in; where your property values are secure; where it would be a pleasure to go and live yourself; where you have the protection of building restrictions. Noble's Addition is the only subdivision now on sale that has these modern necessities for a high class residence section. It is the only restricted district in Prineville. Prices are low. Terms to suit the purchaser. We will help you build your home. For particulars call on

Why We Are Offering the HULL UMBRELLA With Detachable and Interchangeable Handle in Place of the Old Style.

FIRST:—Because the HULL detachable idea is so intensely practical that every one realizes without being told that it is the only vital improvement that has been made on umbrellas since they were first conceived.

SECOND:—Because our customers are progressive and quick to adopt a progressive principle like the HULL handle, and resent an attempt to offer any article which has outlived its usefulness.

THIRD:—Because in place of just offering an umbrella without a name, record or reputation, the people are delighted with the idea that they can come to our store and get a trade-marked, advertised "HULL," and that no matter what price they may pay for it, they will get the longest lived and best umbrella that brains and money can make to sell at that price.

When purchasing an umbrella for yourself or for gift purposes, without one additional cent expenditure, you can procure from us this HULL UMBRELLA the worth of which is naturally known.
