The Right Kind of Neighbors

The people of Powell Butte are loyal neighbors. The ladies of that section meet at different homes to sew carpet rags and otherwise help to make comfortable the family of Logan McPherson that was burned out recently. The men have not been idle, either. Four teams left for Bend the other day to get lumber for the new home. Everybody helps a neighbor in trouble. We are requested to announce that the ladies are to meet at the home of Frank Bain a week from today (October 19.) to push along the good work.

Special Meeting City Council

There was a special meeting of the city council Tuesday evening. Present—Mayor Edwards, Councilmen Ward, Yancy, Shipp and Winnek.

The first matter taken up was the appointment of a city marshal. The name of Ed Smith was placed in nomination and he was unanimously chosen to serve the balance of the year. His salary was placed at \$75 a month flat.

The truck ordinance was passed to third reading and signed by the mayor. You can now run your truck on the sidewalk without fear of molestation. The ordinance, or that section of it relating to running trucks on sidewalks, woked a hardship on business men, especially in wet weather. A petition was presented to the council requesting that East F street, between First and Third, be graded. The petition was signed by Dr. H. P. Belknap and T. H. LaFollette for School District No. 1, J. N. Williamson, R. A. Ford, Wade Huston, R. L. Jordan, O. C. Hyde, and R. W. Zevely. The petition was granted and the marshal instructed to grade intersecting streets.

The ordinance vacating a ten-foot strip on First street was read a third time and passed.

Mrs. Glaze given permission to repair the roof of her building on Main street under certain conditions.

The question of bridging the Ochoco was taken up for discussion. City Engineer Brewster had maps and drawings of the property involved but it was thought advisable by the council to look into the matter a little further before ordering work to begin.

Potato Show

at Redmond

Redmond, Or., Oct. 10.—Redmond is to have a potato show. All the older settlers have known for some time that the district will always be able to excel in the production of Solanum Tuberosum, but the time has now come to proclaim the fact to those who contemplate making this their future home.

The commercial club has taken the matter up and will supervise the giving and distribution of prizes, and the question of giving the matter publicity. There will probably be prizes for the biggest and most freakish potatoes as well as the best ones which will of course be the main point.

Redmond does not feel competent yet to supply the world with potatoes, but we can do our share toward it. Several of our farmers have put in from five to ten acres each and many others nearly as much. As an instance Mr. Eby will harvest about 1000 bushels from three acres and the quality is excellent.

Now that we have transportation facilities with the outer world there is an incentive that there never has been before to raise products in excess of that needed for domestic or local consumption, and for that reason we are paying more attention than formerly to the question as to what crop can be produced and marketed most economically. The writer feels certain that highest among these will be cream and potatoes—potatoes most certainly if there is to be any scarcity of water.

The writer feels that a butter exhibit would be quite in place to go along with the potato exhibit. More and more cows are being milked each month, the growth being slow but steady. We do not hear of any one who is going out of dairying, but almost every one building up and grading up their herds by raising their best heifers, selling off poorer ones and occasionally buying a superior animal.

Butter and potatoes does not exactly emphasize "Hens, Hogs and Hominy" but it emphasizes that for which Redmond is bound to be noted and for that reason they are pushed to the front at this time.
