### Music Lovers' Club Organized

Some of Prineville's lovers of music conceived the idea of organizing a music club and accordingly met at the home of Mrs. Charles S. Edwards on October 19th to perfect their plans. Mrs. E. L. Coe was chosen president and Mrs. Edwards, secretary. This club met again on October 31, and further perfected their organization.

The president appointed a committee to draw up a constitution and bylaws. "Music Lovers' Club," was the name adopted. It was decided to meet on the second and fourth Tuesdays of each month. The year's work will be planned as soon as the books, which have been sent for, arrive.

The aim of this club is self-improvement along musical lines. Each member is expected to do good active work throughout the year and in this way furnish his quota of pleasure and profit to the club.

### Sunday School Convention

Rev. Charles A. Phipps will hold a Union Sunday School Convention in Prineville on November 8th and 9th. Representatives from all the Sunday Schools in Crook County are urged to attend this convention and all persons interested in Sunday School work are cordially invited to be present.

On Wednesday evening there will be a reception at the Methodist church to which the public is cordially invited. The committee in charge has arranged a good program and invite the public to attend all the sessions.

### Sheriff Balfour Replies to Detractors

EDITOR JOURNAL: In reference to a letter published in last week's Crook County Journal it behooves me to make the following remarks:

In the first place, I do not think that a person (man or woman) is competent to pass judgment on law enforcement in Crook county or elsewhere who does not even know the names of the county officers of whom she speaks; I wonder if she knows that there is no such man in Crook county as Sheriff Brown? It appears to me that Mrs. W. A. Ellis of Madras would have kept the lady informed in a better manner than this. There are certain radically inclined people who jump at conclusions without sufficient investigation of the facts, and these women belong to such a set. They remind me of the Pharisee mentioned in the Bible who cast his eyes toward heaven, folded his hands and exclaimed "Lord, I thank thee that I am not like other men."

In making any statement to the public through the medium of the press one should inform themselves of the facts, delve into the depths for correct information and not take a cursory glance at, nor a superficial view of the situation; a good many people are very prone to believe reports and do not take the trouble to substantiate such reports. They are always ready to discover a mote in their neighbor's eye, whereas if they want to cast the beam out of their own eyes they want to see more clearly to cast out the aforesaid mote. The letter mentioned at the beginning of this communication, attacks District Attorney Fred W. Wilson of The Dalles, saying that repeated appeals were made to him without avail, which statement is absolutely false, while the sheriff of Crook county would not give aid, which is another false statement.

Another accusation on which I will touch is that Sheriff (Brown?) as she calls that officer, is in sympathy with the disreputable element. I know that statement is untrue for the reason that I am the man referred to, although my name is not Brown. I have lived in this county 29 years, and taking them on an average they are, as a rule, the most wholesouled, friend-

ly and intelligent set of people I ever associated with and I am proud of being the sheriff of such a county, notwithstanding the slurring remarks made by outside interlopers. She says that Governor West addressed a letter to the sheriff instructing him to take the necessary steps to investigate conditions. This statement makes me smile for I had attended to this "beam," and had forgotten about it long before I received Governor West's letter. They were not quick enough.

In regard to the law enforcement in incorporated towns, there has been three successive grand juries reported that they ought to take care of their own business where it is carried on inside of the incorporation, and justly so. What are our municipal officers for if they cannot clean up the filth which is bound to creep in, however careful they may be? I will add, in conclusion, that I have striven to do my duty in all things, that I have adopted a course which I consider is right, and in spite of the backbiters from the outside and the infatuated knockers from the inside, I will be indorsed by the reasonable people of the county, but if the reverse is the case, I will have the satisfaction of knowing, that according to my views I have done what is right. I do not write this as a personal defense, but as a duty which I am called on to perform to the county at large as well as to possible settlers who aim to make their future home here. I am not only in favor of law enforcement regarding the unlawful sale of liquor and also every other vice that comes under my jurisdiction, but I believe in the enforcement of the pure food law, including the adulteration of milk.

Yours respectfully,

T. N. BALFOUR,  
Sheriff of Crook County.

### Call Issued to Sheepmen

To members and all others in the wool and sheep industry:

Call is hereby made for the 14th Annual Convention of the Oregon Wool Growers' Association to be held at Baker City, Oregon, on Tuesday and Wednesday, November 14th and 15th, 1911.

The O.-W. R. & N. Co. have granted a 1 1-3 fare for ticket returning.

Never in the history of this association have we been confronted with more serious problems. The special session of Congress attempted to slaughter the tariff on wool. There is no question but a similar attempt will be made by Congress this coming winter to reduce the duty on wool to a minimum or place it on the free list. We must vigorously conduct the hardest fight ever made in order to educate and convince Congress and the American people that our industry is entitled to the same measure of protection as is given the product of any other kind of labor. We must insist before Congress that the wool grower is entitled to a tariff on wool that he may realize from his business the actual expense of operation, plus a reasonable profit, in order that he may live and not be forced into bankruptcy. President Taft vetoed all wool tariff legislation until the Tariff Board reports in December.

We must get ready for the soon coming struggle which will mean the prosperity or ruin of the sheep business.

Some of the questions before the Convention will be:

- Wool Tariff—Railroad Rates on Sheep and Wool—Railway Service on Live Stock—Quarantine and Control of Contagious Diseases—Forest Reserve Grievances—Scalp Bounty Law—Wool Sales and Wool Markets—Mutton Markets—Sheep Killing Outrages.

### Lake and Klamath Cattle Quarantine

Klamath Falls.—Dr. J. Morrell, State Veterinarian, of Portland, and Dr. H. E. Pinkerton, of the Federal Bureau of Animal Industry, with headquarters at Pendleton, were here to confer with County Judge Worden relative to the cattle quarantine of Lake and Klamath counties, which has been imposed owing to the prevalence of scab among the herds. They have been through Lake county, investigating conditions, and will tour this county before returning.

Judge Worden, realizing what an effect an order to dip all cattle would have on cattle men who have always fed their stock and procure their winter feed in this valley, took the matter up with the representatives of the state and government and their visit here was to give assurance that it was not intended to force feeders to dip beef cattle, save those infected with scab.

Beef cattle being fed for the market can be brought to the feeding grounds in the Klamath Basin for the winter feed and will not be subjected to dipping. But all stock allowed to run on the range with other herds will have to be dipped, and tanks for this purpose have been built at Paisley and Silver Lake, and one is being built at Ely. Dr. Morrell says the only effect of the quarantine will be to cause cattle to be inspected before being shipped out of Lake and Klamath counties.

This is a protection to cattle men and an assurance to purchasers that the cattle are not infected. Dr. Morrell says the raising of the quarantine rests with the cattle men, as if orders for dipping are properly observed and care taken to rid the animals of the troublesome affection the quarantine can be removed in the spring. Another inspection by the officials will be made between January and March.
