

Cookery Points

A Queen's Pantry.

Queen Mary's pantry at Windsor is said to contain the most valuable collection of tableware in the world. Every reign since Queen Elizabeth's has contributed to the collection, which is stored in two rooms. The walls are lined with cases made of glass and mahogany, with similar cases occupying the center of each room. The most imposing thing in these two rooms is the dinner service of solid gold used only for dinners of the highest state. There is a table of solid silver three feet in length. A rose water fountain of silver has a dome supported on columns around which are grouped horses and hounds. A silver gilt gavel almost a yard high is said to have been saved from the armada. A pair of bellows mounted in silver and gold was once the property of Neil Gwyn. There is a massive pair of firelogs in solid silver made for Charles II., and a huge punchbowl was contributed by George IV.

Properties of Buttermilk.

Some doctors go so far as to say that there is no case of indigestion that cannot be cured by plain buttermilk. Perhaps this accounts for the present fad for it.

At any rate, it is a hearty food, and two glasses a day are enough for any one. It is said to take over an hour for it to digest thoroughly, and if more food is put into the stomach before it has disposed of what is already there, with a little time besides for rest, more harm is done than good.

So the best time to drink buttermilk is with the meals, and its mild acid acts beneficially on all the juices of the stomach. It is this acid which has such an excellent effect upon tanned, freckled and sunburned skins, and it bleaches as well as cools and heals.

Nut Bread Sandwiches.

These are always popular and decidedly "filling." To make the bread scald a half cupful of milk, add a half cupful of boiling water and when cooled to lukewarm stir into it three-fourth cake compressed yeast dissolved in three tablespoonfuls lukewarm water. Add a half teaspoonful each butter and lard, two tablespoonfuls molasses, a cupful chopped pecans or English walnut meats, a half cupful white flour, a half teaspoonful salt and enough whole wheat flour to make a dough that can be kneaded. Knead, raise and bake like ordinary bread. Butter and currant jelly make a delectable filling for nut bread.

Chicken Mould.

Boil a large chicken till all the bones can be easily removed; separate the dark meat from the light and chop each separately—not too fine; season each part with pepper, salt, sage and chopped celery; add some browning to the liquor that the chicken was boiled in; beat one egg well and add half to the dark meat and half to the light meat; mix well, then arrange in mold, first a layer of dark, then a layer of light meat, and so on till all is used. Pour the liquor over the whole, cover with a plate with a weight on top. When cold serve cut in slices garnished with celery tops and slices of lemon.

A Fresh Egg Dish.

For eggs as a French chef prepares them fry half a small onion sliced in butter until it is golden brown. Then turn in a cupful of tomatoes, seasoned with butter, salt and pepper, and cook for ten minutes. Turn the mixture into a wide bottom saucepan and drop into it eggs that have not had the yolks broken. Cook them slowly, lifting them from the bottom of the dish with a fork, not stirring them as in scrambling.

Peach Meringue.

Peel a half dozen ripe peaches, stew and press through a colander. Line a deep pie dish with pie paste, sweeten the peaches, pour the dish even full and bake in a hot oven a scant half hour. Beat the whites of three eggs to a froth, add three teaspoonfuls of sugar and a half teaspoonful of vanilla. Heap the beaten white over the pie after the latter has cooled slightly, replace in the oven and brown.

Green Corn Pudding.

Take one quart of corn, either candied or green, though fresh cut from the cob is preferred; beat four eggs, the whites and yolks separately. To the beaten yolks add a tablespoonful of sugar, two of butter and one quart of milk. Season to taste with salt and white pepper, stir in the corn and, lastly, the stiffly beaten whites. Pour the mixture in a buttered pudding dish, bake an hour in a moderate oven and serve with roast meat or fowl.

Eggplant With Onions.

Run a good sized onion through the food chopper and fry it a delicate brown in one tablespoonful of butter. Then add the magged eggplant pulp, stir the two thoroughly so that the ingredients are well mixed, season with cayenne pepper, black pepper and salt to suit the taste. Cook until the mass sticks to the bottom of the pan.

TREES ARE ADORNMENTS AND MUST BE PROTECTED.

Beware of the "Top Slasher"—He Will Ruin Them All.

Many owners of shade trees are thinking of "trimming them a little." Let it be hoped that they will study the matter carefully before they apply the saw and then go easy. Too many trees are "doctored" and butchered and "headed down."

Of course some of your trees may be crowding each other to such an ex-

WORK OF TREE BUTCHER.

tent that here and there one should be taken out entirely to avoid deforming the others. The shade may be too dense for the good of the lawn, the shrubs and the annuals. Perhaps a fine view is being obstructed by the spreading of tree branches, or some tree may be pushing out certain ungainly branches which are making the tree awkward and unpleasing. But be careful.

In this day, when the public is beginning to awaken to the fact that the diseases of their crops must be attended to just as intelligently as the diseases of their horses and cattle, it is not strange that the tree doctor finds ready employment, says the Cornell Countryman.

The ever present "tree butcher" or "top slasher" is by no means included in this profession. His is a destructive, mercenary business, sanctioned by the ignorant public. Yet such men succeed in inducing large numbers of shade tree owners each season to top their trees, so they will branch out and make better shade trees. If the topping were done at the proper age and the wounds cared for a better formed tree might have been induced than would be produced naturally, but to slash out the top of an almost mature tree, leaving the cut end of the branches exposed to the entrance of decay, is nonsensical. It is, moreover, a matter of some doubt if pruning for shape is ever necessary for shade trees. The most of them produce a very pleasing and desirable top if simply left to their natural growth.

BOOSTING THEMSELVES.

Cities and Towns Spend Thousands Each Year In Advertising.

Spokane, Wash., laid out more than \$100,000 last year holding herself up to the public gaze; Memphis expects to spend \$25,000 this year for the same purpose; St. Paul, \$18,000; Chicago, with a booster club of 3,000 hustlers, pays an advertising manager a salary of \$10,000 a year and does not consider that she really needs much boosting either.

The advertising bills of the city of New York during the last six years aggregated a trifle under \$5,000,000, says Business. Denver, Des Moines, Detroit, Kansas City, Mo.; St. Louis, Toledo, Minneapolis, Montgomery, Ala.; Buffalo, Oklahoma City, Topeka and Wichita, Kan.; Indianapolis, New Orleans, Rochester, Cleveland—one might fill a page with a list of the cities that are boosting and booming themselves systematically and resolutely and laying out their good hard coin to do it.

The Greater Georgia association, with a membership of nearly 20,000, is at work raising \$200,000 to be used in exploiting the state and expects to establish permanent advertising headquarters in many cities throughout the country. Mississippi is getting busy with a somewhat similar plan; eighty Nebraska newspapers have pledged themselves to methodically exploit their commonwealths and to raise \$25,000 within the coming year with which to do the work; the Northern Pacific Railway company has just put a force of thirty writers and publicity men at work on a campaign of advertising for Oregon.

Getting Folks Interested.

Dr. H. Grace, who took a prominent part in a recent six day carnival held in Camden, N. J., said: "It is a great thing to get all the business establishments interested. It creates a greater civic pride. It brings people from the outlying districts, and while in the place it is natural for them to look around, not only at the crowds, but at the goods displayed."

Names Imbedded In Streets.

The system of marking the streets with brass letters is on trial in Lexington, Ky. Mayor Skain ordered a number of the brass letters, about an inch and a half high, imbedded in the sidewalk at the street corners. The system will be used only on limestone to begin with, but if the letters prove satisfactory they probably will be used on all the streets.

Consideration.

You may never know what harm an indifference may work, what despair a rebuff may brew. Your pulse of irritation under pressure of obligations might be the last feather weight to flame an oppressed soul into desperation.

Getting Out of Debt.

"What was it your husband wanted to see me about?" inquired Mrs. Newlsted's papa.

"I think he wanted to borrow a couple of hundred dollars from you," she said. "He's so anxious to get out of debt."—Philadelphia Ledger.

Once Was Enough.

"Did you ever," said one preacher to another, "stand at the door after your sermon and listen to what people said about it as they passed out?"

Replied he: "I did once—a pause and a sigh—but I'll never do it again."

Resaped.

"Do you shave yourself very close?" said the barber.

"Not very," said the victim. "I usually leave enough skin to fasten the coat plaster on, but of course you didn't know that before you began."—Exchange.

For Sale at a Bargain.

9-room brick house, 2 stories high, 2 lots, barn, cow shed, city water, electric lights, telephone, etc. Hot and cold water, and bath. Address P. O. Box 461, Prineville, Oregon. 10-29

Quality Supreme

Every ounce of material that goes into a Studebaker wagon or buggy has the Studebaker Reputation behind it.

Nearly sixty years' experience has taught us how to make vehicles that last. Every axle—every spoke—every hub—every tire—every bolt is made just right.

The result:

The finest wagons possible to produce and the largest vehicle factory in the world.

The absolute reliability of the Studebaker line appeals to all careful buyers—those who appreciate honest value.

The first time you have a chance, come in and let us tell you more about

NOTICE OF RESTORATION OF

Public Lands to Settlement and Entry. Department of the Interior, General Land Office, Washington, D. C., October 11, 1911. Notice is hereby given that the unappropriated public lands in the following described areas, which were excluded from the DeWolutes National Forest, Oregon, and withdrawn for classification under the act of June 25, 1910 (36 Stat., 847), by proclamation of the President, effective July 1, 1911, will by authority of the Secretary of the Interior be restored to the public domain and become subject to settlement on and after 9 o'clock a. m. January 2, 1912, but not to entry, filing, or selection until on and after February 1, 1912, at the U. S. land office at The Dalles, Oregon, except that on the same date that such lands become subject to settlement, the State of Oregon may, if the lands are subject to such selection, select as indemnity in the satisfaction of its common school grant, not to exceed one section in each fractional portion of a township where the restored area thereof exceeds 5,000 acres: In T. 14 S., R. 18 E., Secs. 1, 2, 3, 4, in T. 14 S., R. 19 E., Secs. 4 to 9, inclusive, N. 1/2 W. 1/2 SW. 1/4, SE. 1/4 Sec. 24, Secs. 35 and 36, in T. 15 S., R. 19 E., Secs. 1 to 24, inclusive, N. 1/2 of Secs. 25 and 26. Warning is hereby expressly given that no person will be permitted to gain or exercise any right whatever under any settlement of occupation begun after withdrawal and prior to 9 o'clock a. m. January 2, 1912, and all such settlement or occupancy is forbidden, and those settling in violation hereof are liable to be ejected. J. M. McPHAIL, Acting Assistant Commissioner of the General Land Office. Approved October 11, 1911. C. M. A. Thompson, Acting Secretary of the Interior. 10-26-11

Imported Wines and Liquors.

"QUICK MEAL" STEEL RANGES

have led all others for years, because they give such universal satisfaction. Users of "Quick Meal" Steel Ranges are our very best advertisers.

"QUICK MEAL" STEEL RANGES are constructed on scientific principles and their materials are distributed in such a way as to do the most good.

"QUICK MEAL" STEEL RANGES are just heavy enough to be good, durable and lasting. The parts strengthened are the parts where the most wear is. The walls are so well lined with Asbestos that no heat is lost, it being radiated just where needed.

"QUICK MEAL" STEEL RANGES are made almost entirely of steel, consequently cannot crack and are stronger.
