

JAPANESE TROOPS LANDED IN CHINA

Move of Mikado Taken as Attempt to Prevent Rivals From Getting Foothold.

Peking.—Japanese troops have landed at Che Foo. Following so closely on the mikado's request that his government be deputized to act for the other powers in China, this landing on Chinese soil is regarded as the most startling development since the rebellious outbreak. The Japanese request that the powers place their Chinese interests in the mikado's hands was interpreted in Peking as a diplomatic expression, of Japan's unwillingness to see another nation secure a too firm foothold on what it considers its special field of influence.

The Che Foo landing is taken as a definite attempt to forestall its rivals by acting before they have time to decline the Tokyo government's offer. Japan, having forced their hands, it seems certain that landings by other powers will speedily follow.

United States Minister Calhoun has ordered all Americans in the interior to the treaty ports.

Washington Defeats Oregon.

TAFT HAS BAD COLD

Illness Contracted Soon After Trip Through Country.

Washington.—President Taft is suffering from a severe cold which has confined him to the White House. His condition, although not at all alarming, is such that his physician has ordered him to take care of himself.

The President contracted a bad cold soon after his return from his trip through the country. There were rumors that he was threatened with pneumonia, but these were emphatically denied at the White House. "A bad cold and nothing more," was the way the report was disposed of.

Sugar is Termed Foe to Laziness.

Cambridge, Mass.—If one would be good looking and at the same time well nourished, he has but to follow the rules laid down by Dr. Alpheus G. Woodman, assistant professor of food analysis at the Massachusetts Institute of Technology, and eat sugar. "It is the food of civilization," says Dr. Woodman. "Persons who have enough sugar in their food are better nourished and better looking as well as more energetic than those who neglect carbohydrates in their dietary."

UNCLE SAM ARRESTS REYES

Mexican General and Followers Accused of Violating Neutrality.

San Antonio, Texas.—General Bernardo Reyes, of Mexico, who is alleged to have been leading a movement for the overthrow of President Madero, was arrested here by United States officers on an indictment returned at Laredo, charging him with violation of the neutrality laws.

Following the arrest of General Reyes 19 others were arrested on the Mexican side of the border. Four cases of ammunition were seized.

There is evidence of a well-defined revolutionary plot, which appears to have its base in the northern part of Mexico, and the American troops along the border have been ordered to watch closely for and prevent any violation of the neutrality laws.

TEXAS DRIVES OUT MEXICAN REBELS

Governor Gives Revolutionists Two Days in Which to Depart From Laredo.

Austin, Tex.—"All revolutionists in the vicinity of Laredo must leave within 48 hours," reads a specific order from Governor Colquitt, of Texas, to Adjutant-General Hutchinson, who is at Laredo trying to cope with the situation there.

Federal authorities seized a quantity of ammunition and arms said to be a part of a store provided by persons who hoped to lead a revolt against the Madero government in Mexico.

Governor Colquitt has received a telegram from President Taft saying he had instructed Secretary Stimson to co-operate with the Texas governor in every way to stop the movement within this state.

This telegram came in response to a message to the President from Governor Colquitt in which he said he had information that there were 500 revolutionists in the vicinity of Laredo planning to divide into two attacking parties and begin the new Mexican revolution at Nuevo Laredo.

Governor Colquitt notified the President that he did not intend to have a repetition of the incident at El Paso, where Texas citizens were killed by flying bullets from the Mexican battles at Jaurez.

Parcels Post is Opposed.

Kansas City.—After selecting Salt Lake City as the meeting place for 1912 and Kansas City, Mo., as official headquarters, the 22d annual session of the Trans-Mississippi Commercial Congress adjourned. The resolution declaring that the congress was against the parcels post, which was adopted, provoked acrimonious discussion. The vote was 96 for to 18 against the resolution. A vigorous verbal scuffle followed.

KAISER FACES CRISIS

Movement Afoot to Curtail Constitutional Power.

Berlin.—Changes of profound significance are coming in the German constitutional system. William II finds himself confronted by an empire-wide movement for the limitation of imperial prerogative in certain vital functions of administration. It is a matter of far greater moment than investiture of the Bundesrath and the Reichstag with a share of treaty-making power in cases of acquisition or cessation of colonial territory. It strikes at the very base of the Kaiser's personal regime.

German statesmen of all parties in parliament are fast reaching an agreement that the ministers of the Emperor should be responsible not to him in the last resort, but to the Reichstag.

Hard to Secure McNamara Jury.

Los Angeles.—The trial of James B. McNamara for murder in connection with the destruction of the Los Angeles Times October 1, 1910, encounters more and more obstacles as time passes.

Since October 11 the attorneys for both sides have been endeavoring to qualify 12 men to try the case. There are five sworn jurors and two men passed for cause.

SUPERINTENDENT IS AMBUSHED AT SALEM

Salem.—Shot at from the side of the road by an unidentified person, Dr. Frank E. Smith, superintendent of the State School of Feeble-Minded, had a narrow escape Sunday night as he started from the institution in his automobile for the city. The attack followed receipt of several threatening letters by the superintendent "from an anonymous source."

Since receiving the threatening letters, Dr. Smith has been in the habit of carrying a revolver, and had his weapon on the seat beside him. He fired three shots in the direction of the flash.

Hurrying to town he secured assistance. A .32-caliber revolver was found lying on the ground, where it had evidently been shot out of the hand of Dr. Smith's assailant. The night was so dark that further search for the fugitive was abandoned.

Great Britain Plans Annexation.

London.—All Europe is sitting up waiting for the next big grab, for poor old Turkey is nearly due to be plucked again. Despite vigorous denials given out by the foreign office, diplomats generally believe that Great Britain is going right ahead with her plans for the annexation of Egypt, diplomatically, if possible — forcibly if necessary.
