

Evangelistic Meetings Closed Sunday

Rev. E. J. Bolgin, evangelist, with his associates, has just closed a very successful series of meetings in Prineville. Mr. Bolgin is a strong Biblical preacher and his style is "precept on precept," "fact on fact," with many well chosen illustrations. His power to move his hearers to tears or laughter at will was very marked and with it all he carried himself in a modest, unassuming, christian gentlemanly way that was remarked by all.

To say that Prineville has been moved along the lines of right Christian living is only stating facts. A higher standard of Christian living has been set up and all the churches have been greatly strengthened. In all there were about two hundred conversions. But the strength of the older Christians was one of the many splendid results. Mr. Bolgin is one of the few really safe and sane evangelists before the public today. The unanimous verdict was, "You can't get away from his logic."

The gospel singing by Mr. and Mrs. Rose was thoroughly enjoyed. They leave behind many loyal friends.

Can Now Irrigate

1000 Acres

R. L. DeCoursey, the bridge and dam builder, has finished the dam for Rice & Baldwin on Crooked river. He and a crew of men have been at work on it for several weeks. This dam is located about two miles above S. S. Stearns' house and is on the Stearns' ground. By its means at least one thousand acres of the Rice & Baldwin ranch can be irrigated. Mr. DeCoursey says that for practically three years he has built every county bridge.

How Prineville Treated Entertains in the Evangelists Honor of New Year

Prineville will always retain a warm spot in the memory of Dr. Bolgin, the evangelist. In closing his meetings here last Sunday the reverend gentleman said that this was the first town in all of his experience that overpaid him. Instead of cutting off the corners in every possible way Prineville not only paid everything in full but went a step farther. He said he was summoned to this field from Kansas City but instead of coming direct he made a detour to see his sick wife at Los Angeles. This side trip about doubled his expenses and when it was handed in to the committee to be audited he requested that it be cut in two. He thought that would be about right. The committee thought differently and paid the bill in full. Mr. Bolgin said that \$350 would cover his expenses here for his singers, printing, etc., but \$650 was raised. And finally, when it came to raising a purse for Dr. Bolgin's salary the matter was left to the people of Prineville. Whatever they thought it was worth was all they could get out of the evangelist. He usually gets about \$100 a week if he has good luck and a generous committee to deal with. He had both in Prineville. Five hundred dollars was raised and given with a hearty good will, accompanied by an earnest request to come again.

Mr. Stinson Home From Land Show

John R. Stinson returned the first of the week from the St. Paul Land Show filled with high hopes for Central Oregon. He said it was the biggest kind of a success. It opened December 12 and closed December 23. There were nearly 100,000 paid admissions. Special excursions were run from neighboring states that helped to swell the crowds. Great interest was shown in Oregon exhibits.

Prineville was represented in the Oregon & Western Colonization Co.'s exhibit, in the Oregon State exhibit and in the Great Northern exhibit.

The Prineville Commercial Club's alfalfa exhibit won the beautiful silver pitcher given by the Northern Pacific Railway.

"The show as a whole," said Mr. Stinson, "was a big eyeopener and educator for the Eastern farmer."

Next year's show will be held at Minneapolis and it is to be made bigger and better than ever. The Oregon & Western people are going in for a larger and finer exhibit of Crook County products and desire the co-operation of all farmers to this end. Mr. Stinson said that the feeling throughout the East indicated a bigger year and larger immigration to Central Oregon.

Burning Kerosene (Coal Oil) It Outshines Gas or Electricity

HERE is an oil-burning lamp which produces a flood of pure, white light—more brilliant than gas or electricity—yet wonderfully mellow and easy on the eyes. It is simple and safe, clean and noiseless, does not fill the room with obnoxious, unhealthy odors. To have a better lighted home, with an

Aladdin Mantle Lamp

will actually cost you nothing. It will pay for itself in the oil it saves. Turn the agent for the Mantle Lamp Company of America and ask him what I know to be absolute facts. Professor Rogers, of Lewis Institute, Chicago, made a comparative test of all the leading oil-burning lamps on the market—and the Aladdin was found to give the best light and the most economical to use. But you don't need to accept these strong statements on my word only. All I ask is the opportunity to prove them at my own risk. I will be glad to let you
