

The Circus Drew Big Crowd

Barnum and Bailey of the C. C. H. S. assisted by the entire student body, have demonstrated again that they are good entertainers. The large debt that has been hanging over the athletic association has caused the minds of the students to be active for some time. The fact of a Barnum and a Bailey among the students naturally suggested the thing that made the former bearers of the name illustrious. Accordingly a few weeks ago it was decided to duplicate the performances of the original showmen. The country was searched for miles around and expeditions were sent to foreign countries with the instructions to bring home every strange animal obtainable. The result was the most fearful and wonderful collection ever brought together.

In the parade which extended a quarter of a mile, each group came in for its share of attention. Barnum & Bailey, in a lavishly decorated automobile, headed the procession of horsemen, acrobats, Eskimo, Japs, Chinese, rubes, incarnated Mother Goose, elephants, tigers, hyenas and clowns without number.

The masterful manner in which Roscoe and James handled the savage bull-terrier and the efficient method that Warren, Birch and Roy adopted to keep "Old Bill" up with the procession deserves special mention. Van Brink, Maude Potter and Wannie Ralston carried out their make-up unusually well. The Reuben Band made up in volume what it lacked in harmony.

Long before the hour set for the program to begin in the evening the hall was comfortably filled and before the curtain went up on the first part every seat was taken. It is deeply regretted that through some mistake the hall was not properly seated and some who held reserved seat tickets found their seats occupied when they arrived.

The students felt the error keenly and did all they could to relieve the situation by bringing in chairs from various places and most of the crowd was comfortably seated.

Every number on the program was well rendered. The Nightingales sang unusually well. Then Miss Gitchel sprang something new in the shape of a pantomime. It was certainly very cleverly done and the audience enjoyed it immensely. Miss Lela Geyer read, in her usually finished manner, and the well rendered play, "My Lord in Livery," finished the program.

The circus sideshows then claimed the attention of the people. Feats of giant strength were witnessed, palms read and freaks of nature presented. The wildman was especially good and his booth was kept well filled.

The combination booth—the fat lady and the double-faced lady—took in the largest amount of money.

At the finish the voting for the most popular literary society of the high school was fast, and decided by a small margin in favor of the Alphas. In the contest of selling tickets by the two societies, the Alphas won and will be entertained by the Ochoconians in the near future.

The students are very grateful to all who assisted by kindly interest and loosened purse strings toward making the circus a success. Especial mention should be made to the band who volunteered their services and did such excellent work in the parade. The net proceeds amounted to nearly \$150.

Vanderpool Goes Back to Asylum

John Vanderpool was adjudged insane Tuesday by Dr. Edwards. This will not be his first visit to Salem. While there before his homestead was sold by his mother but after his release he got it into his head that the land belonged to him so pitched his tent and announced his intention of defending his rights. The authorities were notified and Straud Price and Dr. Edwards went out to bring him in. Straud was an old acquaintance and thought that the old ties would be strong enough to induce Vanderpool to come to town without trouble. But they were not and when Price told him he must come anyway the crazy man made a break to get his gun in the tent. He was overpowered and brought in. An attendant from the asylum is expected to today to come and get him.

Timber Cruising Stirs Opposition

Nothing was done by the county court Monday regarding the order made for cruising timber. A number of bids were filed but a strong protest was also filed against Crook county in any manner becoming a party to such a contract. The petition called for an opportunity to be heard further before any cruising contract to be paid for from the public funds be entered into or approved by the county court. The court granted an extension of time—until Wednesday, April 3—before any action would be taken.

McGrath Liked His Quarters

Douglas McGrath was turned loose yesterday by Sheriff Balfour, having served his time. He was sentenced to pay a fine of \$25 or serve it out in jail at the rate of \$2 per day for assault and battery committed near Youngs, this county. Dug was loath to quit his comfortable quarters and three squares furnished by the county for the uncertainty of rations on the outside. The sheriff had to use some forcible language in order to make him depart.

Have Your Eyes Tested

The number of persons who stumble through the world with defective eyesight is appalling. Are you aware that eye troubles, if neglected, may lead to total blindness? Many need glasses and do not know it. You may be wearing glasses improperly fitted, or they may need changing. Eye strain is the result in either case. I examine your eyes by modern and scientific methods, free of charge, and if you do not need glasses I will tell you so frankly. Take the benefit of the doubt. Come and see me.

Investigate Page Fencing

We Have a Full Car Load of Page Wire Fencing

Made up of Field, Hog, Rabbit and Poultry Styles.

No. 1028—10 wires—28 inches high, and No. 1134—11 wires—34 inches high. These are especially adapted for Hogs.

No. 1736—17 wires—36 inches high. For Poultry and Rabbits.

No. 2048—20 wires—48 inches high. For Poultry and Rabbits.

No. 942—9 wires—42 inches high. For Hog and Field.

No. 1345—13 wires—45 inches high. For Hog and Field.

No. 1741—13 wires—41 inches high. For general use.

No. 1148—11 wires—48 inches high. For heavy field use.

PAGE fence is only one of the hundred or more styles that are now on the market.

PAGE fence is the one generally in use in Eastern states, in the Willamette Valley, Southern Oregon and Klickitat Valley where fences have been tried out during the last twenty years.

To the man who does not know, one fence is as good as another—that's why in a new country you find all kinds of fence.

Ask the man who knows and he will always recommend the PAGE.

There is a reason. PAGE is an independent maker. PAGE makes his own wire, galvanizes his own wire, weaves his own fence. WE BUY DIRECT FROM PAGE—no jobber—no middle men—JUST PAGE AND US.

Now take that No. 1028 10 inch hog fence. Small wires but it stands more than 11,000 pounds strain. No. 1347 will stand up against more than 25,000 pounds, while the heavier fences will likewise stand more than any other fence of their weight.

PAGE is the only fence we know of that is made of Basic O. H. process—that's why it stands one third more than other fences.

Other fences must have six inch stays for hogs because it will not stand the strain, and must have posts eight to 16 feet apart.

PAGE says: "do not put posts closer than 24 feet." In field fencing he recommends post not closer than 50 feet with stays between.

Don't think you are getting a bargain if you get a fence at a "cheap" figure. Page fence stands. Will not sag, can and should be stretched tighter than other fence.

We make delivery at the railroad. Write to us or phone and we will tell you more about PAGE.
