

## The Public School Gives Entertainment

Prineville citizens may well be proud of her schools for they rank second to none in the state as their records at Salem will show. But never was their pride more justified than at the entertainment given at the Club Hall last Friday evening, and those who failed to attend missed a rare treat. A well filled hall greeted the happy, smiling faces of the children and from first to last the different numbers followed each other with such rapidity that one had to sit up and keep their eyes open to take it all in.

The introductory address by Orville Yancey was good, but we missed a portion of it as the late comers and numerous performers had not yet settled themselves for the evening's enjoyment, but after the first number there was no unnecessary noise, no tedious wait, everything moved like well oiled machinery. Each number was good and showed such earnest effort that it is difficult to single out any particular one better than the other, but the music deserves special mention. One unique feature was the juvenile accompanist, Guessie O'Neil, who presided at the piano throughout the evening. We predict that some day Prineville will be very proud of her musical gifts.

The two concert songs by the first and second grades were exceptionally good for such wee bodies.

The song by twenty boys was indeed jolly and they sang with a right good will.

"The Skaters Song" by five girls and two boys would have done credit to much older pupils and they responded with the round "Three Blind Mice."

"The Spring Song," by seven girls was one of the best on the program. One seldom hears such sweet, strong voices in girls so young.

Miss Brobet was in especially good voice and sang in her usual gracious manner. The numbers given by the "Apollo" quartett

were especially good. We hope to hear them again.

The two recitations by Ruth Yancey and Ryla Sumner were excellent but the one by Alma Lippman, in which Bess entertained the new minister and his wife, convinced the audience by holding the mirror up to life.

The dainty young misses in the Japanese fan drill looked and acted the part. And the Indian maiden and maidens made such a hit with their song and drill that they were forced to respond to an encore.

The Topsy-Turvy song and drill made us wonder if we were not with "Alice in Wonderland" for their feet appeared to be where we usually see their heads yet each time they came right side up and smiling.

Miss Rideout's monologue made a pleasing change and showed careful preparation.

The Wand Drill with its dainty maidens marching in such perfect time and rhythm was a fitting climax to the best public school program rendered in Prineville.

The sum of \$79.10 was realized and the improving of the school grounds will begin at once.

## Commercial Club Elects Directors

The directors of the Prineville Commercial Club—Messrs. King, Stinson, Bowman and Wyldemet Monday evening and elected A. R. Bowman, president; Frank Wyld, secretary. Attorney Brink declined to qualify as a director, so his place will be filled later. The task before the new officials is a huge one. All books and records were burned at the Antlers' Club fire. Even the by-laws. So it is up to the new officials to begin all over again. In addition they will have to devise ways and means to pay off an indebtedness of \$1700.
