

Three Hundred and Forty-three Satisfied Customers Left Our Store Saturday

Last Saturday was another "Banner Day" of Our Closing Out Sale, and by the way the people bought merchandise it was proof enough of satisfaction on every hand. The people were satisfied with their bargains and with the fact that everything was just as advertised. We were satisfied because we saw that confidence had been established and that all doubt as to the sincerity of our purpose to close out had disappeared and also the summing up of the grand total for the days business as well as the total sales for the whole week were entirely satisfactory.

Pennies and Dollars All Count

Out of the Three Hundred and Forty-three Customers Saturday, not a single one made a purchase but what saved money however small the amounts were and on the larger bills the savings realized ran considerably into the dollars.
