

## Killing at Bend Tuesday Night

Sheriff Balfour, Deputy Lucas, Attorney Wirtz and Coroner Hyde returned from Bend last night where they had been to investigate the shooting of Carrie Patterson, Tuesday night. They found the woman dead, and her slayer, Carl Lawson, a discarded paramour, shot in the face.

At the examination it was brought out that the shooting followed a carousal. Gladys, as she was known to her associates, was standing in the door of the room in which Lawson was and when she was shot fell into the hall. The ball entered the head just back of the ear and she died within two hours.

A man by the name of Jones was in a room across the hall and rushed out at the report of the pistol and opened fire on Lawson. One of the bullets took effect in Lawson's right cheek. He then ran from the room and down the back stairs and while fleeing received a shot in the shoulder.

Coroner Hyde swore out warrants charging Lawson with murder and Jones with assault with a dangerous weapon. Both waived examination and were held to the grand jury on \$1000 bonds.

As a result of the killing, Bend has ordered a clean-up of the town. Prostitutes will have to get out and all gambling must stop.

### Presbyterian Church Notes.

The Presbyterian church has received a very nice gift this week which will be made known to the congregation the fourth Sabbath in June.

The music at the Presbyterian church was very fine last Sabbath. Mr. Strong's solo was superb and highly appreciated.

Regular service at the Presbyterian church Sunday morning, subject: "Overcoming Difficulties in Church Work." Good music.

M. A. PRATER, Pastor.

## Do You Know The Fire Wards?

We don't believe you do and for this reason have copied them from the diagram at the electric light plant. When the signals are not sent in right or when the person is excited and does not make himself understood, of course it is impossible to sound the correct number of blasts on the whistle until the fire is located. The fire wards are as follows:

One blast—West of Main street, from Third north to Ochoco bridge.

Two blasts—West of Main, south from Third street.

Three blasts—East of Main from Third south.

Four blasts—East of Main from Third to Ochoco.

Five blasts—East of Main, north of Ochoco.

Six blasts—West of Main, north of Ochoco. Put this under your hat and get to the fire as soon as you can.

## Endeavor Meets at Prineville Next Time

The Christian Endeavor rally at Terrebonne last Sunday was a great success, say the members of the Prineville delegation that were present. Endeavorers were also there from Redmond, Culver, Metolius, Madras, Vanora, and Frog Springs.

Among the things discussed was the question of a Fourth of July celebration. It was decided to hold it at the Agency.

After the morning session a bountiful lunch of chicken pie, cakes and other good things were served. The day was a busy one for the Endeavorers.

The next rally will be held at Prineville sometime in September.

## Shumias Close Annual Work

The Shumia Literary Club closed its year's work with a social meeting at the home of Mrs. Collins Elkins last week. The guests and members, about forty in number, were received by the hostess, assisted by Mrs. Mason Brink. The games for the afternoon were based on flower lore and were both unique and interesting.

Miss Conway sang and responded to a hearty encore.

Mrs. John Wigle and Miss Gitchel each favored the guests with interesting and humorous readings.

The program committee, consisting of Mrs. Elkins, Mrs. Wigle and Mrs. Clifton outlined an excellent program for the coming year.

At the close of the afternoon, the hostess assisted by Mesdames Edwards, Clifton, Wigle and Brink served delicious refreshments.

## Rainfall in Prineville

According to statistics gathered by the Prineville weather man, Jack Summers, more rain has fallen this month than for the same period in the past seven years. And perhaps for a much longer time but there are no authenticated records to prove it. Since 1905 the precipitation for May has been as follows:

1905	.....	.98
1906	.....	1.23
1907	.....	.81
1908	.....	.99
1909	.....	.42
1910	.....	1.33
1911	.....	.20
1912 up to May 29	.....	2.00

The moisture record for Prineville since the first of January beats anything heretofore recorded by a large margin. Nearly eight inches of rain have fallen. The government records are as follows:

January, 1912	.....	2.36
February	.....	1.17
March	.....	.73
April	.....	1.63
May, up to 29th	.....	2.00
Total	.....	7.89
