Irrigation Work is Finished.
Hood River.—The first of this week marked the completion of two big systems of irrigation in the Hood River valley. One, the ditch of the Hood River Irrigation company, furnishes water to the orchards and strawberry patches of the west side in a community comprising 5000 acres of the apple valley land, and the other will water a fertile area of 2000 acres west of Dee, between the west fork of the Hood river and the stream proper.

KLAMATH WORK GOES ON

Second Unit of Reclamation Project Starts.

Klamath Falls.—Work on the second unit of the Klamath reclamation project has begun in earnest. The second unit covers lands in Poe valley on both sides of Lost river, the lands lying east of Lost river in the Klamath valley, between Olene and Merrill.

The Klamath project, on which work began in 1906, was originally planned to irrigate about 290,000 acres of land. Of this, the first unit, covering about 30,000 acres of the best of land, is completed and has been under irrigation since 1907, in part, some lands being added each year. It is nearly all farmed now. This first unit is in the Klamath valley, extending to the south and southeast from Klamath Falls, and lies between Lost and Klamath rivers. Another unit designed was to cover the marsh lands and a portion of the bed of Lower Klamath Lake, and covers with some high lands about 6000 acres.

Bridge Collapses and 3 are Hurt.
Eugene.—Three workmen were injured when 450 feet of falsework for a new county bridge across the Willamette river at Jasper, suddenly collapsed. The bents for the falsework were framed and set on the surface of the river bed, as bedrock was too near to allow of the driving of piling. As the next to the last bent was being raised, they slid forward and collapsed.
