

Oregon's Products--- Wonderful Showing

Portland Or., Aug. 27. (Special).—In 1911 the wool crop of Oregon weighed 16,000,000 pounds, was shorn from 2,000,000 sheep and was sold for about \$3,000,000.

During the same period the state produced 600,000 pounds of mohair, worth \$240,000. Goats have been found nearly as valuable for clearing brush land as for producing mohair.

In 1911 Oregon produced 72,000 bales of hops, worth \$4,000,000. The production was only half that of a few years ago, but prices have been extremely good.

In 1911 Oregon produced poultry to the extent of 9,000,000 birds, having a value of \$7,000,000.

During the same year the state produced 32,000,000 dozen eggs, valued at \$9,500,000. The poultry business is still an infant industry.

In 1911 the Oregon potato crop was the greatest ever known, very nearly approaching the 6,000,000 bushel mark, with a value to the growers of over \$4,000,000.

In the same year onions to the amount of about 175,000 bushels were grown, worth \$212,000. The bulk of this crop is produced within a small area, being grown almost exclusively on what is known as "beaver dam" land.

In 1911 Oregon produced \$3,400,000 worth of butter, but in order to supply the demand, at least three times this amount was shipped into state from other sections.

In 1911 Oregon produced 17,000,000 gallons of milk and cream, valued at \$4,000,000. The product is said to be the cleanest and most wholesome of that of any state.

In 1911 Oregon produced 5,000,000 pounds of cheese, valued at \$758,000. The quality is of the very best. Los Angeles uses more Oregon cheese in feeding its tourists than of all other kinds combined.

The standing timber of Oregon is estimated at 454,000,000,000 feet, worth on the stump \$680,000,000, and when manufactured into lumber it will be worth \$6,500,000,000. The timber covers approximately 25,000,000 acres. About one-half is in national forests and the balance under private ownership.

In 1911 4,123,000 head of livestock was raised in Oregon, valued at \$87,854,000. Among meat animals the production of hogs has increased faster than cattle or sheep, due for the most part to the extremely high prices that have prevailed for the past two years in the Coast markets.

The fruit crop in Oregon in 1911 was worth over \$4,000,000 in cash. The greater part of this sum was received for apples, this staple commanding the highest prices both at home and abroad. Next to apples peaches are the most important fruit in the state, last year's crop selling at \$523,000. Pears were sold to the value of \$300,000, being an average of nearly \$1.50 a box. Cherries, prunes, grapes, strawberries, loganberries, etc., helped to swell the sum paid to farmers and orchardists during the year. About 300,000 pounds of English walnuts were produced, valued at \$45,000.

Hints for Farmers

enstien. Other hardy varieties are Wealthy, McIntosh Red and possibly Rome Beauty. This gives a succession of fruit trees from the earliest till winter. The crabs do well, also. The Bartlett and Flemish Beauty have proven desirable varieties of pears. Of the peaches the early varieties, as Crawford and Triumph, have given best results. The sour pie cherry is hardy and well adapted to our conditions. The early Richmond and large Montgomery are desirable varieties.

Of the bush fruits Turner and Red Antwerp are two good varieties of red raspberry. Cumberland is a blackberry that will be found suitable to grow. Of the currants both red and white do well. Red Cherry and Red Dutch and White Grape and White Dutch are all do-

ing splendidly in the county. Of the gooseberries two varieties known to do well here are Downing and Oregon Champion.

Next, "Cindirella" At The Lyric.

Another three-reel film of merit will be shown Friday and Saturday evening at the Lyric this week, namely, that oft repeated fairy tale of "Cindirella and the silver slipper.

These pictures containing ninety-nine separate scenes will be the delight of every child who has the good fortune to see them, and will interest the old as well as the young.

Curious and fascinated indeed will be the eyes of the little tots when the sweetest little fairy godmother imaginable is seen to appear and disappear in the gloomy kitchen, where she makes a beautiful coach out of a pumpkin and prancing little horses out of white mice.

Many other scenes just as interesting will form an hour's pleasant entertainment. Children, bring your parents; parents bring your children.

"Not Guilty."

"Not guilty" was the verdict of the jury in the case of the State vs. Jack Brogan and Ed McFadden, tried in justice court here Monday on charge of trespass preferred during the course of the trial that Reilly had fenced up the county road and that the defendants had thereupon cut the fence and drove through the premises claimed by Reilly. All the parties of the suit live near Ashwood, where the alleged offense was committed. The case was conducted by Deputy District Attorney Wirtz and T. E. J. Duffy and defended by M. E. Brink.

Powell Butte Wins From Dry Creek

In one of the most interesting ball games of the season the Powell-Butte boys won last Sunday from Dry Creek 10 to 5. Sammy Johnson, the Butte pitcher, was given good support, which with his speedy shoots and splendid control kept hits scattered. Only in the third inning did the visitors bunch bingles, which together with errors by most every one, gave the Creekers their only tallies. The line-up was as follows:

75c for Wheat.

Seventy-five cents a bushel for an entire crop which will amount to possibly 5000 bushels of Turkey Red wheat is the essence of the contract signed last week by Chas. T. McCall and A. H. Parkey of Madras and the W. A. Gordon Co. of Portland. As far as investigation is disclosed this is the highest price paid for wheat this season. The wheat covered by the contract was raised on the McCall homestead on the Agency Plains four miles north of Madras, and is being threshed at present by Parkey Bros., with their new combine harvester. Local handlers of the grain say that this wheat is the best that has been shown in Madras this year. With ideal weather the threshing crews over the northern Crook county are busy this week, and no report has been received at this office in any contradicting prophecies of the largest yields ever recorded in this section.—Pioneer.

Prineville Boys Go to Burns

Prineville's champion baseball team leaves for Burns early Friday morning for a three-game series with the Burns aggregation commencing Saturday. That Burns has a fast team is generally conceded and our boys will probably have three of the liveliest encounters of their careers. They are hardly up to last season's form due to lack of practice. The Burns boys are making great preparations to entertain the delegation from Prineville, one of the features being a grand ball Friday evening. Our lineup: R. Lister, c.; Jesse Tetherow and Jesse Scott, p.; Belkntp, 1b; Ellis, 2b; Dobrey, ss.; Bechtell, 3b; Bowman, cf.; McCall, lf.; L. Lister, rf. A return series with Burns will probably be played here later in the season.

Her Misfortune.

A local clubwoman who loves a joke on herself was telling a story apropos of temperance before a gathering the other night. It was about a fire which destroyed a distillery in the little country town where she lived and taught school twenty years ago.

"We thought it was providential," she said, "until the next day. Then it appeared that in their effort to save as much of the stock as possible the good people had climbed to the second floor, let down a chute and rolled barrel after barrel of whisky into the river. The vast crowd which had assembled saw the barrels floating away and immediately dispersed. And the next day every man, woman and child in that entire community was drunk as a lord." At this point some one interrupted. "Oh, Mrs. Blank," called a voice quivering with laughter, "you lived in that community, didn't you?" "I did," was the prompt rejoinder, "but I was the exception. My people were living up stream."—Kansas City Journal.
