GOVERNOR WARNS COMMON CARRIERS

West Serves Notice of Intention to Prosecute Shipments of Liquor Into Dry Territory.

Portland.-With District Attorney Cameron sustained in his office by the ruling of Judge McGinn, and H. M. Esterly, appointed by the governor to supplant Cameron, recognized as, a special prosecutor to handle the vice cases exclusively and independent of the district attorney's office, Governor West started a movement against the common carriers and the fiquor intorests of Portland, which was made public in an open letter to these interents given out by the governor.

The governor's letters to the common carriers and the liquor dealers declared that investigation had convinced him that liquor was being sold and shipped into "dry" territory, and notified them of his intention to take drastic steps against such procedure.

The plan which the governor has outlined relative to the shipment of liquor into dry territory, is applicable allke to both the breweries and the zailroads. Briefly, he will ask that all liquor shipped into dry territory be plainly labeled as to its contents. When received at its destination he asks that the railroads instruct their agents that on the day of its arrival a description of the shipment and the name of the consignee be posted in a conspicuous public place in the freight warehouse. This list to be open to the public and peace officers, and the railroads will hold such shipments for one day following their receipt, to give the officers an ample opportunity to determine to whom liquor is being shipped and to make an investigation as to what use the liquor is intended.

The governor has directed District Attorney Brown, of Roseburg, to start proceedings at once against the Roseburg Brewing & Ice company. "Officers of this company have been indicted for selling beer when the brewery is supposed to manufacture and sell near-beer, and I am asking the proseonfor to take immediate steps in relation to the brewery itself," said the executive.
