Rainbow Trout for Paulina Country

La Pine, Or.—The La Pine Commercial club, which has been interesting itself in stocking with rainbow trout East lake, which lies in the Paulina mountains, about 15 miles east of La Pine, has just completed the planting of 25 10 gallon cans of rainbow fry in that lake. This last planting is regarded as one of the most successful undertaken in the state, as only about 200 out of the entire shipment were lost, although they were carried by team and pack animals over 47 miles after leaving the railroad at Bend.

Owing to the fact that East lake has no visible outlet, it has been impossible for fish to enter it. One of the deputy state fish commissioners who accompanied the first shipment planted by the commercial club here about the middle of July last, stated that it was an ideal lake for fish, and that there is sufficient natural food there for millions of trout.

The territory surrounding East lake is replete with natural wonders, and is regarded as the scene of one of the most recent volcanic disturbances in the northwestern states. The lake is situated on the apex of the Paulina range, being an extinct crater of unknown depth. A group of hot springs have been discovered on the shore of this lake, the water of which has been pronounced by experts to be equal to any in the United States as to remedial quality.

Although the bathing facilities are crude at the present time, some remarkable cures of malignant cases of inflammatory rheumatism have been effected there. Plans have been perfected to establish a resort at the site of the hot springs, and the forestry department is cooperating with the La Pine Commercial club to build an automobile road from La Pine to the south shore of East lake.

RAMBLER

For Sheriff

Notwithstanding the persecution going on at present in the county and state, I am still a candidate for the office of Sheriff of Crook County

T. N. Balfour

Democratic Nominee and present Incumbent

Announcement

As the regular Republican Candidate for the office of County Judge of Crook County, selected as such candidate at the Primary election by a popular vote of the people from a field of four live contenders for the honor, I beg to announce that I am still in the race and quite healthy, and confident of election. At the primary election I received 105 out of 110 Republican votes cast in my precinct (the city of Redmond) for County Judge. This, of course, was largely due to the fact that I am a resident of Redmond, but is also some indication that those who have been my immediate associates during the past two years have faith in me. If the people of Crook County believe that I merit their support I shall be pleased to serve them in the capacity of County Judge in a fair and impartial manner to the best of my ability as a man and a lawyer.
