

T.R. CONGRATULATES WILSON

In Good Humor, Colonel Takes Defeat by Democrats.

Oyster Bay, N. Y.—Colonel Roosevelt made the following statement: "The American people by a great plurality have decided in favor of Mr. Wilson and the Democratic party. Like all good citizens I accept the result with entire good humor and contentment."

At the same time he issued his statement Colonel Roosevelt sent the following to Governor Wilson:

"The American people by a great plurality have conferred upon you the highest honor in their gift. I congratulate you thereon."

"THEODORE ROOSEVELT."

Wilson Sweeps Wisconsin.

Milwaukee, Wis.—Complete returns from Milwaukee county and scattered precincts throughout the state indicate that Governor Wilson has swept Wisconsin by from 20,000 to 20,000 votes.

Roosevelt is running behind President Taft except in Winnebago county, which the Progressive candidate carried by a small margin over Wilson.

Marshall Gets Returns at Capital

Indianapolis.—Governor Marshall, democratic vice presidential candidate received the returns in the state capital. A wire was strung into the office of his secretary and from there the returns were carried into the governor's private office.

Wilson Ahead in Nevada.

Reno, Nev.—Early returns indicate that Wilson will carry Nevada by a safe majority; Roosevelt probably will be second.

Boston Goes Two to One for Wilson.

Boston.—Governor Wilson's strength in Boston exceeded that of Colonel Roosevelt and President Taft combined. The latter two almost evenly divided the vote received by Taft four years ago. The Democratic nominee made a slight gain over the vote of Bryan in 1908. Complete returns from the city showed: Roosevelt, 21,548; Taft, 21,177; Wilson, 43,706.

Governor Foss, the Democratic nominee for re-election, polled almost as many votes in Boston as he did last year in spite of the third candidate. The Republican vote for governor last year was 28,752.

Killed at Polls in Kentucky

Lexington, Ky.—Two men were killed in quarrels at election booths in Kentucky. In Lee county, Constable Thomas Campbell was killed, and John and James Caudill were arrested charged with having shot him.

In Anderson county, Green Bowen was killed by County Magistrate Harding Satterlee, it is charged.

Utah Seems to be for Taft.

Salt Lake City.—Scattering returns indicate that Taft has carried Utah by a safe plurality and that Governor Spry has been elected.

Bryan Felicitates Wilson.

Lincoln, Neb.—William J. Bryan sent the following telegram to Governor Wilson:

"I most heartily congratulate you and the country upon your election. Your splendid campaign has borne fruit in a great victory. I am sure your administration will prove a blessing to the nation and a source of strength to our party."

Cannon Believed to be Defeated.

Danville, Ill.—Meager returns indicate the defeat of ex-Speaker Cannon by Frank T. O'Hair by about 1200 plurality in the eighteenth district.

HARVESTER PROFIT LARGE

Witness Says McCormick Company Made \$25,000,000 in Five Years

Chicago.—William N. Raey, controller of the International Harvester company, recalled to the stand in the government's dissolution suit against the alleged combination, to submit reports of the appraisals made of the property of the consolidated companies before the merger, stated the physical value of the plants as reported by the appraisers were as follows:

McCormick Harvesting Machine company, \$39,688,157; Deering Harvester company, \$27,237,197; Warder, Bushnell & Glessner, \$4,637,498; Plano company, \$3,468,567.

The figures showed that the profits of the McCormick Harvesting Machine company for the five years prior to the consolidation aggregated \$25,000,000, or 1000 per cent on a capitalization of \$2,500,000. The profits of the Deering Harvester company were shown to be nearly as large.

Six Born in 13 Months

Franklin, Pa.—Six children in a little over 13 months is the remarkable birth record in the family of Stephen Nagotte, of Frenchtown. Mrs. Nagotte has borne 15 children in 12 years and 13 of them are living.

On September 10, 1911, she gave birth to triplets, two girls and a boy, and this week three sturdy boys arrived, 13 months and three weeks after the other trio.

CAR SHORTAGE IS MENACE TO NATION

Washington.—A serious car shortage threatens the country and so alarming is the outlook that the interstate commerce commission has thought it wise to serve notice upon both the railroads and the shippers that drastic measures will be adopted unless there is co-operation all along the line to render an available car supply effective in meeting the demands of trade. Coal famine is one of the menacing conditions.

The commission announces to those railroads which have fallen into the practice of "renting" cars to connecting lines, instead of maintaining an adequate supply of their own, that the daily rental price of cars will be materially advanced unless cars are promptly returned to the lines owning them.

The commission has served warning upon the shippers that a higher rate of demurrage will be imposed if it develops in these times of car shortage that cars are being used for storage purposes.

Bumper crops and general prosperity in practically all lines of business, with no slowing up of trade for political, economic or other reasons have created enormous traffic.

A HYDROMOTOR CYCLE.

Ingenious Machine That Can Be Driven on Land or Water.

A motorcycle boat or hydromotor-cycle, which can be used on land as well as on water, has been invented by a Californian, says Popular Mechanics. The boat part of the machine, with the three bladed screw propeller which drives it through the water, may be attached to any type of motorcycle by means of the special framework, drive transmissions and other attachments provided. The machine makes a speed of twenty miles an hour on land and fifteen miles on water, and but little time is required to make the change from land to water craft.

The hydromotorcycle comprises two canoe shaped metal floats fourteen

MACHINE USED AS A VEHICLE.

feet long by about sixteen inches wide, each containing three air tight compartments, fastened by means of four hinges to a light frame of steel tubing. The front end of this frame is attached to the motorcycle frame just back of the handle bars without interfering with the steering, while the rear of the frame is fastened to the axle of the rear wheel by means of an ordinary tandem nut.

When the hydromotorcycle is to be converted from a land vehicle to a water craft the floats, which are carried bottom side up for road work, are dropped down on their hinges and are solidly clamped in operative position

MOTORCYCLE AS A WATER CRAFT.

by means of two steel tubes. The screw propeller, having three twelve-inch blades and attached to a three foot shaft, is dropped from its inoperative position behind the seat. The propeller is driven direct from the engine, and steering is effected by means of two small rudders, one at the back of each float. The rudders are connected to the handle bars by flexible wire cords. The complete machine weighs 425 pounds, the hydro attachments weighing 225 pounds. The weight of the floats is carried by two small rubber tired wheels at the back of the frame when the machine is running on land.

School of Telegraphy.

With the completion of a double track system of railroad in its school of telegraphy at Bedford, Pa., the Pennsylvania railroad is to send out notices calling attention to the opportunity offered young men who desire to enter the railroad field.

The Bedford school of telegraphy has the same equipment as a station on a double track road. In addition to the miniature railroad, engines and cars, a regular system of manual block signals, with crossovers and sidings, has been installed. Dispatching trains by telegraph and telephone is taught in the school, while the students are also given a full course in agent's work, such as filing of tariffs, keeping reports, filling out standard blanks and keeping the necessary records.

Causes of Aeroplane Accidents.

It is very difficult to determine the cause of most aeroplane accidents, but during the investigation which followed the fatal accident to Lieutenant Seville recently in France an important discovery is said to have been made by eye witnesses. This was that the wing of his Bleriot broke downward instead of upward, indicating that there was an extreme downward pressure as he started to volplane. Experiments lately made in France are said to have confirmed this, and it is now believed to be necessary to guy the wings substantially above as below.

Wireless Clocks in Germany.

All public clocks in the German empire will hereafter be synchronized by means of wireless telegraphy. A master clock in a new station now being constructed at the town of Fulda will actuate the radiotransmitter every minute. The tower over the station will be 200 feet high. A census recently taken of the public clocks in London shows the importance of such a project, because a total variation was found of twenty-one minutes, from slow to fast. Only 3 1/2 per cent of the timepieces gave the correct Greenwich time.

How to Clean a Cistern.

An easy and effective way to clean a cistern is as follows: Procure a hose long enough to reach from the top to the bottom of the cistern and use it as an siphon, the top end being placed in a tub or large vessel of water. The lower end of the hose is used as an ordinary hose nozzle under pressure for washing the dirt and sediment from the walls.

LOCAL MENTION.

Otto Gray is in town from Bonnyview.

Frank Johnson has charge of the office of the Oregon & Western Colonization Co. during the absence of John R. Stinson.

You can't afford to miss chicken sandwiches the 15th. Look for location in next week's paper Every body come.

The La Pine Commercial Club filed articles of incorporation with the county clerk Saturday. Capital stock \$1500. The incorporators are D. L. Peterson, A. A. Aya, J. I. Benson, Fred Lafollette, J. E. Morrison, G. L. Peterson and J. G. Redmond.

A revival meeting under the leadership of Rev. L. I. Root will commence in the Baptist church this evening at 7:30 and will continue indefinitely. A cordial invitation is extended to all to help the minister in his work of reaching the lost. The pastor will be away the first part of the meetings as he will supply the pulpit for Rev. Root at Dayton, Wash.—C. P. Bailey.
