

MEXICAN REBELS CAPTURE CAPITAL

Felix Diaz Released from Prison Leads Revolt Ousting Madero

Mexico City, Mex.—The army rose in revolt Sunday in Mexico City, took possession of the public buildings, shot down federal adherents in the streets, released General Felix Diaz, leader of the Vera Cruz revolt, and General Bernardo Reyes, from prison, and, falling into line under the Diaz banner, virtually captured the Mexican capital.

It is believed that not fewer than 250 persons were killed in the fighting. Among the number was General Bernardo Reyes.

The mutinous troops were led by students of the military school at Tlalpam, a suburb. They marched to the prison to which General Felix Diaz had been transferred for safe keeping and released him. General Bernardo Reyes also was freed from Santiago military prison, there being no resistance in either quarter.

Francisco Madero, president of the republic, led the loyal troops for a time. Later, with members of his Cabinet, he took refuge in the national palace, where they were besieged.

It was reported that President Madero and his family had fled from the capital toward the eastern coast.

90 Per Cent Vote Strike

New York.—The ballots of the 30,000 firemen employed on 64 Eastern railroads, it was announced unofficially, show that 90 per cent of the men favor an immediate strike unless the conference committee of managers agree to arbitration under the Erdman act.

Rockefeller in Pitiful Condition

Jekyl Island, Ga.—A spasm of the throat that left William Rockefeller a straggling, trembling old man, on the verge of nervous collapse, abruptly terminated his examination by Chairman Fujo and Counsel Samuel Untermeyer of the house money trust committee here.

NEW YORK POLICE GRAFT \$2,400,000

New York.—Two million four hundred thousand dollars graft from gamblers, poolroom men and illegal resort keepers—\$1,200,000 for the captains and their collectors, \$500,000 for inspectors, \$600,000 into the hands of one man and then cut again, divided into three parts, one for a hotel man, one for a man who represents an office holder, and the third for a man who presented himself for another official.

That is the "graft system" as District Attorney Whitman understands it and that is the "system" upon which he begins his first actual legal battle. He hopes to have made his first inroad by indictments against Police Inspectors Dennis, F. Sweeney and Police Captain Thomas W. Walsh.

Through the confession of Captain Walsh it has been learned, the amount alleged to have been collected for police protection in his precinct was about \$1400 a month. This amount, it is alleged, Captain Walsh paid a patrolman \$70 for collecting, and divided the remainder with an inspector.

American Minister Demands Redress

Havana.—Arthur M. Beaupre, the American minister to Cuba, acting under direction of the state department at Washington, D. C., has presented to Secretary of State Sanguly, a peremptory note insisting that immediate measures be taken for the prosecution and exemplary punishment of the persons responsible for the recent attacks on the American legation by the newspaper Cuba.

TURKISH REPULSE REPORTED

Bulgarians Also Thwart Attempt to Make Landing From Ships

Sofia.—An official statement says the Turks have taken the offensive against the Bulgarians before Bulair, in the Gallipoli Peninsula. After a fierce engagement the Bulgarians repulsed the Turks, pursuing them to the Bulair forts. Many wounded were left on the field.

Turkish prisoners say six divisions took part in the movement. At nightfall the Turks made another attempt down the coast, where 20 vessels had made their appearance. The landing parties' ships were attacked by the Bulgarians, who inflicted heavy loss. The Turkish vessels thereupon sailed away.

Women Destroy Valuable Plants.

London.—Militant suffragettes destroyed many valuable plants and did other damage, reaching a total of \$5000 in the hothouses of the Kew Horticultural Gardens here. Thus they developed another part of their plan or campaign to force the government to give the vote to women.

Brief News of the week

The Missouri state senate passed a bill allowing traveling men to vote wherever they may be on election day. As the result of a rate war, it was announced in Hamburg that \$30 will be the steerage rate to New York on Germany's Dutch steamers.

Clubwomen who recently conducted an egg sale went into the apple business at Chicago and it was announced that about 20,000 barrels had been disposed of at a much less price than asked by retailers.

A silver dollar sent by parcel post was received at the St. Louis post-office. The stamp was placed on one side of the coin and the address, written on a piece of paper, was glued on the other side.

The two houses of congress met in joint session in the hall of the house on Monday for the purpose of counting the electoral votes and formally declaring the election of Woodrow Wilson and Thomas R. Marshall as president and vice-president, respectively.

What is claimed to be one of the strangest resolutions passed by any responsible body was adopted at a general meeting of the Christchurch Labor Union when the citizens of New Zealand were urged to do all in their power to lessen the birth rate. The compulsory defense act is being bitterly opposed and it is hoped thus to lessen the number of youths who must take compulsory training.

If the federal prosecutors do not insist on too severe a penalty it is possible that the 15 Portland commission men indicted by the United States grand jury for unlawful combination in violation of the Sherman anti-trust law, will come into court within a few days and plead guilty, pay whatever fine the court sees fit to impose and agree to "unmerge."

Fourteen members of a hobo party stopped a passenger train on the desert, overawed the crew, terrorized the passengers and took possession of the train for the ride to Los Angeles. When the train arrived at San Bernardino a posse of constables covered the tramps with revolvers. Six surrendered, but eight managed to get away.

Three negroes who were employed in his millionaire father's wood-working establishment at Evansville, Ind., were shot and instantly killed by Allen Von Behren, aged 22. Then the young man drove to the police station in his automobile and surrendered.

NEWS FROM OUR NATIONAL CAPITAL

House Passes Bill Prohibiting Liquor Shipments Into Dry Territory

Washington.—By a vote of 240 to 65, the house passed the Webb bill prohibiting the shipment of intoxicating liquor from "wet" into "dry" states, after several hours of bitter debate in which the bill was characterized as "an anti-saloon measure, meant to force congressional approval of prohibition."

The vote was taken only after a flood of amendment had been submitted, both by enemies of the bill, to invalidate it, and by friends of the measure, who wished to broaden its scope. Humor and bitterness marked the debate on the measure.

Democratic and Republican ranks were split in the fight. Ollie James, of Kentucky, being one of the leaders against the measure. Representative Clayton, of Alabama, chairman of the judiciary committee and a prominent Democratic member, led the fight for the bill, and Representative Hammel, of New Jersey, headed the opposition.

Under the provisions of the Webb bill, no intoxicating liquor may be shipped by interstate commerce into dry territory for the purpose of selling it. The measure does not attempt to regulate the shipment of intoxicants for private consumption. Disposition of all violations of the law is left to the states or the county regulations in the territory in which the offense occurs.

Democrats Split Over Battleships.

House Democratic economists, or at least 75 of them, who attempted to pledge their party on the battleship question, failed to secure a quorum in caucus and were compelled to adjourn. The Democrats who favor a one or no battleship appropriation were present in full strength. The two battleship advocates, a few of whom were present, declared that they were in the majority this year when they cared to be present and that the naval appropriation bill when reported to congress will provide for two dreadnaughts.

House Begins to Hurry.

With seven appropriation bills, aggregating over \$1,000,000,000, to pass, in 10 working days, Democratic leaders announced that, beginning early this week, the house would burn the midnight incandescents—also starting work at 10 o'clock in the morning.

Should the senate hold up these bills, Democrats declared that the special session might be called immediately after March 4, so that the few weeks might be used in clearing up unfinished business before the ways and means committee's draft of the tariff bill was ready to be submitted. Chairman Underwood, of the ways and means committee, declared that, from present indications, though the committee was working all day and part of the night formulating its report, he feared that it would not be ready before March 15.

Federal Railways for Alaska Urged.

Alaska's vast resources can best be brought within reach of the world, in the opinion of President Taft, by the construction, with government assistance, of two railway lines from the Alaskan coast to the interior, ownership of which shall be vested in the government, but which shall be operated by private parties under lease.

In a special message transmitting to congress the report of the Alaskan Railway Commission, the president strongly urged legislation along these lines, asking that the government either guarantee the principal and interest on bonds necessary to build the roads, or construct them.

National Capital Brevities.

President Taft vetoed the bill to authorize the commissioners of the District of Columbia to supervise the exhibition of moving pictures. The president held that it encroached upon existing laws.

A fight is being framed up among the Wilson Democrats here to oust Senator Turner, of Washington, from his \$7500 job as a member of the International Waterways Commission, and to secure the appointment of Charles Helfner, of Seattle, in his place.

Compulsory adoption by all interstate railroads of the block signal system is the most important recommendation for the block signal and train control board made in its final report to the interstate commerce commission.

The soaring price of crude oil is being investigated by the department of justice in connection with its inquiry to determine whether the decree dissolving the Standard Oil company has been violated.

The majority of the house committee on ways and means, who are framing tariff legislation for the coming extra session of congress, agreed upon radical reductions in the customs duties on mica, asphalt and various kinds of chinaware and glassware of the cheaper varieties.
