

## MADERO AND SUAREZ KILLED

### Shot While Being Taken From The Palace To Prison Under Guard

Mexico City.—Francisco I. Madero and Jose Pino Suarez were shot and killed in a midnight ride under guard from the national palace to the penitentiary.

The circumstances surrounding the death of the deposed president and vice president of the republic are unknown, except as given in official accounts, which do not conform in all cases. The only witnesses were those actually concerned in the killing.

The provisional president, General Victoriano Huerta, says the killing of the two men was incidental to a fight between their guard and a party attempting to liberate them.

Two of those said to have been in the party that attacked the automobile were killed in the exchange of shots.

The minister of foreign relations, Francisco de la Barra, adds that the prisoners attempted to escape. Neither makes a definite statement as to which side fired the fatal shots. It is possible that neither knows. An official investigation has been ordered and solemn promises have been made that the guilty will be punished.

Not unnaturally a great part of the public regards the official versions with doubt, having in mind the use for centuries of the notorious "Ley Fuga," the unwritten law which is invoked when the death of a prisoner is desired. After its application there is written "Prisoner shot trying to escape."

Washington.—The killing of Francisco I. Madero and Pino Suarez, deposed president and vice president of Mexico, after Provisional President General Huerta had assured American Ambassador Wilson of the safety of his prisoners from just such attacks created a serious impression in administration circles here.

When the first feeling of surprise had passed, it was realized by officials that this last tragic event had added greatly to the gravity of the situation and undoubtedly had placed an additional strain upon the already tense relations between this government and that in the Mexican capital. Still, as President Taft himself declared, the event in itself was not regarded as sufficient to demand any departure from the policy of strict non-intervention which so far has governed his administration.

### Portland Produce Dealers Plead Guilty

Portland.—Fifteen front street wholesalers pleaded guilty of violating the Sherman anti-trust law before Judge Bean in the federal court, promised to dissolve the Produce Merchant association, to refrain from further violating the law under penalty of a heavier sentence, and were fined an aggregate of \$8,450, on the recommendation of Assistant United States Attorney Johns.

### TAFT DEDICATES MEMORIAL

#### National Memorial to Redman at New York Harbor Entrance

New York.—Standing beside a group of Indian chiefs, in full war paint, President Taft dug the first spade full of earth on the top of the hill at Fort Wadsworth, at the entrance to New York harbor, for a memorial to the American Indian, which will tower 165 feet above the highest point of this section of the Atlantic coast.

President Taft's turning of the first sod was followed by Chief Hollow Horn Bear, one of the Sioux leaders in the Custer massacre on the Little Big Horn, digging the earth with the thigh bone of a buffalo, the ancient Indian excavating instrument.

In addressing the Indians, President Taft reviewed their history and spoke with much feeling of the gradual passing of the race. Hollow Horn Bear responded to the address.

### Bulgar Aeroplane Hit by Turks' Shell

Constantinople.—While aeroplane over the fortress of Adrianople a Bulgarian military aeroplane, piloted by Lieutenant Nikola, a Russian officer, was struck by a Turkish shell and fell inside the lines. The officer was made a prisoner, but the dispatch did not state whether he suffered injury.

### Single Term for Governor

Lincoln, Neb.—The Nebraska house, by a vote of 80 to 12, passed a bill providing for a constitutional amendment limiting the governor of the state to a single term of four years.

### Wilson Confer With Cabinet Members

Washington, D. C.—President-elect Wilson is to familiarize himself with the status of the Mexican and the Panama canal conditions at a conference with some of President Taft's cabinet at a meeting arranged for this week.

### TURKS DELAY ACTION

#### Offensive Tactics Abandoned and Efforts Concentrated on Lines

London.—The mission to London of Hakkı Pasha, the Turkish ex-grand vizier, thus far has had no definite result and the position between Turkey and the Balkan allies remains unchanged.

Bulgaria has refused to consent to the formation of a neutral zone at Adrianople. Therefore the consuls and foreigners must remain inside the city.

An uncensored dispatch from Constantinople received here brings the interesting news that the Porte has abandoned the idea of making an offensive or flanking movement and will confine the operations of its troops to defending the Tchatalja and Bulai lines, hoping that time will operate in Turkey's favor either by bringing about complications in Europe or the exhaustion of the allies.

### Women's Prison in Charge of Women

Chicago.—Members of the Illinois Women's Democratic league have started a movement for the establishment in this state of a penitentiary for women. The institution, as proposed, would be entirely governed by women, and would be separated entirely from the other state prisons.

### MIDDLE WEST IN GRIP OF BLIZZARD

Chicago.—Middle western states are in the grip of a belated winter storm that is doing vast damage because of its unseasonableness and the fact that it was almost wholly unexpected. Violent steel storms are being followed by high winds and blizzards which are snapping telegraph and telephone wires, blocking elevated and other roads using the third rail electrical power and freezing interlocking switches, thus blocking steam traffic. Fierce blizzards are prevailing in Minnesota, Wisconsin and portions of Michigan, Nebraska, Illinois and Iowa. Northern Indiana also is a heavy sufferer from the storm. Over the territories west of the Mississippi and Missouri rivers a heavy storm is raging, sufficient in some instances to block all railway traffic.

Snow is falling in Michigan, Illinois, Ohio, Indiana, Wisconsin, Minnesota, Iowa, Colorado and Canada, and rain is reported in New York, Massachusetts, Florida, Louisiana and Alabama.

### Telephone Probe to Be Two-Sided

Seattle.—Investigation of telephone companies on the Pacific coast, begun in this city by a federal grand jury under direction of Attorney-General Wickersham, will be absolutely impartial and will cover the entire coast. Employees of the Bell system, known as the Pacific Telephone & Telegraph company, will be examined by the inquisitors just as freely as officers of the independent lines.

## NEWS FROM OUR NATIONAL CAPITAL

### Non-Intervention Plan Adhered To But Precautions Are Taken

Washington.—The war department has ordered the mobilization of the Fifth brigade of the army at Galveston for possible embarkation on transports. The order is the result of a conference between President Taft and Secretary of War Stimson.

Although it was emphasized that the government contemplated no change in its non-intervention policy, it was admitted that nearly 5000 troops would be held in Galveston, in case of untoward developments.

Despite assurances from various American consuls in Mexico that the governors of Mexican states are rapidly declaring their loyalty to Provisional President Huerta, Secretary of State Knox believes the present quiet is only the calm before a storm.

### Net Weight Bill Passed.

Plain labeling of food packages with the net weight and contents before they are sold to the public is required by a bill passed by the senate, which already had passed the house. Slight changes made by the senate will require a conference committee of the two houses before the measure is sent to President Taft for signature.

The proposed law would require the net weight and measure of the food product to be conspicuously displayed on the outside of each package.

### Webb Bill Not to Affect Individual.

The right of an individual residing in a "dry" state to import liquor for his own use will not be restrained or interfered with if President Taft approves the Webb liquor-shipment bill which recently passed both houses of congress. According to the advocates of the bill, the individual citizen living in "dry" territory will have all the privileges he had prior to the passage of this bill, so long as he does not attempt to import liquor for sale contrary to the law of the state within which he lives. This being true, as the friends of the bill assert, this measure has been greatly misunderstood.

### Women Worry Congressmen.

It is a serious job to be a member of congress these days, according to complaints that are resounding throughout the capitol. The burden of the legislators' trouble is the suffragist and the anti-suffragist controversy.

All congressmen have been invited to march with the votes for women advocates on March 3. All have likewise been quietly informed by the anti that close watch will be kept on their suffrage activity. The situation does not bother members from equal suffrage states, but it is giving those from other commonwealths a lot of trouble to decide which camps they will favor.

The anti-suffragists are conducting a "lobbying" campaign at the capitol which adds to the woes of the legislators.

### Deficiency is Biggest in Many Years.

Preparation of the biggest general deficiency appropriation bill in many years was begun by the house appropriations committee. It will carry about \$25,000,000, against \$7,000,000 last year.

Deficits in appropriations of pensions of \$15,000,000 will be included in the forthcoming bill. This deficit is caused by the operations of the new Sherwood \$1-a-day service pension law. Another huge deficit is in the preliminary operation of the parcel post.

### National Capital Brevities.

Both houses listened to the reading of Washington's farewell message on Washington's birthday.

The death of the commerce court March 4th was decreed by the conference report on the legislative bill.

High officers of the navy department have recommended to Secretary Meyer that the battleship Oregon be "scrapped," or sold for junk.

Intervention of the United States government to secure justice or at least a fair trial for fallen President Madero, of Mexico, is announced by Secretary Knox.

The senate interstate commerce committee voted to report favorably the La Follette-Adamson bill for the physical valuation of railroads and all interstate commerce carriers.

Laurence O. Murray, controller of the currency, has announced that he intended to stop the practice by national banks of paying dividends when their earnings did not warrant it.

Judiciary committee favorably reported a bill making it a prison offense to destroy irrigation ditches and another increasing bonds of U. S. marshals from \$40,000 to \$100,000.

Daniel J. Keefe's resignation from his post as commissioner general of immigration has been demanded by Secretary of Commerce and Labor Nagel, in a report submitted to President Taft, based on complaints of official misconduct.

## Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

Dr. Holmes, the well known skin specialist writes: "I am convinced that the D.D.D. Prescription is as much a specific for eczema as quinine for malaria. I have been prescribing the D.D.D. remedy for years. It will take away the itch the instant you apply it. In fact, we are so sure of what D.D.D. will do for you that we will be glad to let you have a \$1 bottle on our guarantee that it will cost you nothing unless you find that it does the work."
