## German Scientist Inoculates 7 Under Supervision of Federal Officials

New York.—In a 30-minute clinic Dr. Friederich F. Friedmann's vaccine which he asserted is a cure for tuberculosis, was tested in the presence of United States government officials. The seven cases treated are to remain under government inspection and upon their development will depend the official report.

It was announced that Dr. Friedmann had furnished the federal representatives with specimens of his bacilli culture and that the clinical observations would continue to be made by them.

The inoculation followed a long consultation between Dr. Friedmann and the government surgeons and more than an hour of study of the history of the prospective patients.

The seven persons to be treated, all adults, were brought in from various wards of the hospital where they were patients, and one by one given injections of the vaccine. Two of them were suffering from pulmonary tuberculosis and the others, respectively, from tuberculosis of the knee, elbow, the ribs, the urinary tract and the kidney. Each gave his consent to the inoculation.

### 116 Saved at Sea

Key West, Fla.—One hundred and sixteen passengers, all of whom were immigrants bound from Spain to Cuba, with the exception of two first class passengers, were taken off the British steamer Lugano, ashore on the Ajax reef off the Florida coast by the tug Rescue.

### GOMEZ WILL VETO BILL

President Changes Mind Regarding Amnesty Measure.

Havana.—After a long conference with members of his cabinet, congressmen and lawyers, President Gomez decided to veto the amnesty bill, to the passage of which the American government has declared its strong opposition.

President Gomez had previously signed the bill in spite of the protest of the American minister, but he now holds that his signature is ineffective until the publication of the bill in the official gazette, and that therefore he still retains the right to use the power of veto.

The general amnesty bill provides for the liberation of more than 3000 convicts, including negroes who took part in the rebellion last year.

### White House to Be "Dry"

Washington.—It is said that the Wilson-Marshall administration will be a "white-ribbon" affair, with no wines or liquors served at any entertainment. Not only do the president and Mrs. Wilson and their daughters bar the sparkling cup, but so also do vice president and Mrs. Marshall, Mr. and Mrs. Bryan and other members of the cabinet.

### HILL SCORES DEPARTMENT

Railway Man Says Management of Irrigation Work Stupid.

Charleston, S. C.—Discussing advisability of applying for government aid in drainage work on the south Atlantic coast, James J. Hill, railroad magnate, criticized what he termed the "stupid management" of the department of the interior in federal irrigation work. Mr. Hill's remarks were made in an address before members of a local advertising club.

The speaker declared that government irrigation work cost twice as much as it should have cost and twice as much as the same work would have cost in Canada. Mr. Hill declared as Franklin K. Lane, the new secretary of the interior, is a Canadian by birth, he probably would inaugurate a more economical programme.

### Cannot Agree on Darrow's Guilt

Los Angeles.—Clarence S. Darrow's second trial on a jury-bribery charge ended here in a disagreement of the jury. Eight of the jurors stood for conviction and four held out for acquittal. Darrow immediately demanded a new trial and District Attorney Fredericks said he certainly would have one. Judge Conley, of Modern county, who presided, set March 31 as the date for the beginning of the re-trial.

### Dynamite Cargo Explodes

Baltimore.—Three hundred tons of dynamite being loaded on the British tramp steamer Alum Chine in the lower harbor, off Fort Carroll, exploded instantly killing 30 men, wounding and maiming three-score more, some of whom may die, and destroying about \$300,000 worth of property.

The general theory of the cause of the explosion is that the coal in the vessel's bunkers was set afire by spontaneous combustion and the flames were communicated to the dynamite.

## NEWS FROM OUR NATIONAL CAPITAL

### President Favors Confining the Special Session to Tariff Legislation

### NO OFFICES FOR RELATIVES

Washington.—President Wilson has settled deep enough in office to indicate pretty clearly some of the things that may be expected of him in the near future. He has made no public announcements of policy, but there were a few developments that seemed to show the trend of the first days of his administration.

The president told visitors that he was inclined to favor the plan of house leaders to confine the special session of congress to tariff revision.

He indicated that while he did not look forward to the passage of a currency reform measure at the special session, such a bill might be whipped into shape in the house while the senate was wrestling with the tariff and could be brought up immediately after congress convened in regular session in December.

Office Not For Wilson Relations. President Wilson has passed the word along the line that it is his wish that no member of the Wilson family and no relative have a position in the present administration.

His wishes became known in rather startling fashion to Captain A. M. Wilson, a cousin who lives in Portland, Or. Captain Wilson aspired to be a member of the Philippine commission. He went to see Mr. Garrison, secretary of war, to talk the subject over with him. Secretary Garrison shocked him by saying that President Wilson had sent out word that no relative of the president should have a position in the new administration.

Civil Service Bars Up. President Wilson has let it be known there was no immediate prospect of letting down the civil service bars to the thousands of Democratic office-seekers. The president told Senator Pomeroy that so far he and the cabinet had formulated no policy as to appointments for minor positions in the government service.

There had been a report that President Wilson might revoke the recent order of Mr. Taft, which put 35,000 fourth-class postmasters under the civil service.

18 States Favor Direct Elections. The secretary of state has received notice of the action of the legislatures of 18 states upon the proposed constitutional amendment providing for the direct election of senators by the people. So far not a single state has acted adversely. The amendment has been approved by Massachusetts, Minnesota, New York, Arizona, North Carolina, Oregon, Mississippi, Colorado, Wyoming, Idaho, Texas, Montana, Illinois, Maine, Nevada, New Hampshire, Wisconsin and Vermont.

Cabinet is Merely Sieve. Though office-seekers have been requested to address themselves to the heads of the various departments, the members of the cabinet will act merely as sifters of the mass of applicants and their decisions will not be final. This was made clear at the white house.

Published statements that the announcement of the administration's policy about office-seekers might result in a situation whereby the attorney general, for instance, made appointments of federal judges before whom the government's case might be tried, brought forth the explanation that such an impression was erroneous.

National Capital Brevities. Several congressional leaders are prepared to introduce bills for the repeal of the Canadian reciprocity act at the coming extra session of congress.

Secretary of the Navy Daniels announced that in future a large part of the coal supply needed for the American war vessels will come from Alaska.

Postmaster-General Burleson stated that no appointments of postmasters probably would be made before April 1 except possibly in cases of emergency.

President Wilson is reported to have offered to Richard Olney, of Boston, secretary of state in President Cleveland's cabinet, the post of ambassador to Great Britain.

J. M. Baker, of South Carolina, assistant librarian of the senate, was nominated by the Democratic caucus for secretary. It is equivalent to an election. He received 25 votes to 23 which were scattered among Joseph L. Wilson, the president's brother, former Senator Gardner of Maine.

Speaker Clark was renominated, Representative Underwood, of Alabama, again chosen chairman of the ways and means committee, the entire Democratic personnel of that tariff-making body named and all the house officers renominated at a harmonious six-hour caucus of the Democrats of the house of the Sixty-third congress.

## Why Salves Can't Cure Eczema

Since the old-fashioned theory of curing eczema through the blood has been given up by scientists, many different salves have been tried for skin diseases. But it has been found that these salves only clog the pores and cannot penetrate to the inner skin below the epidermis where the eczema germs are lodged.

This—the quality of penetrating—probably explains the tremendous success of the well known liquid eczema remedy, oil of wintergreen, thymol, glycerine, etc., as compounded in D.D.D. Prescription.

We have sold other remedies for skin troubles but none that we can recommend as highly as this for we know that D.D.D. stops the itch at once. We just want you to give D.D.D. a trial. That will be enough to prove it.

Of course all other druggists have D.D.D. Prescription—go to them if you can't come to us—but don't accept some big profit substitute.

But if you come to our store, we are so certain of what D.D.D. will do for you that we offer you a full size bottle on this guarantee—if you do not find that it takes away the itch AT ONCE, it costs you not a cent.
