## President and Congress to Work in Harmony on Tariff Legislation

Washington.—Committee meetings and conferences will be held during the week with a view to getting the congressional bill in good running shape for the tariff grid that is soon to commence.

The house, the senate and President Wilson have come together informally on the preliminaries of tariff revision. As a result Chairman Underwood of the house ways and means committee states that the two houses practically will be agreed upon details of tariff revision before the bills reach the house, and that the opinions and desires of the president have been considered.

Encouraged by the rapid progress already made in the preparation of a tariff revision bill, close friends of President Wilson predict that currently reform measures would be brought before the extra session of congress.

While members of the Democratic majority of the ways and means committee differ on what the income tax should be, it is indicated they will agree on a tax of from 1 to 1½ per cent on incomes upward of \$5000 a year and might agree to make the tax applicable to incomes as low as \$3500.

**President Has Wage Material Now.**  
A movement for a nation-wide campaign for a minimum wage law for girls and women took definite shape here when Lieutenant Governor O'Hara, heading the Illinois "starvation wages" committee, put the result of the Illinois investigation before President Wilson.

O'Hara explained the close relationship between low wages and the white slave traffic and urged the president to call a national conference of anti-vice commissioners from various states to meet in Washington with the object of starting a national campaign for a minimum wage for women. President Wilson was told that 32 states already had signified willingness to participate in such a conference.

Following his stand that the power and influence of the government of the United States shall not be capitalized by financial institutions seeking to make loans to China or other nations in need of money, President Wilson was asked what the attitude of the administration would be toward enterprises in China or elsewhere in dependent of government aid.

The matter came up in connection with a visit of George Bronson Rea, a confidential representative of Dr. Sun Yat Sen. Mr. Rea said he knew the president's attitude regarding the six powers loan project was approved by the officials of the new Chinese republic.

Mr. Wilson indicated that the development of the administration's policy toward China would be gradual and that there was no intention of withdrawing the potential influence for protection which the government has exerted in respect of China, and that the administration would make a vigorous effort to promote American trade interests in the orient.

The president's viewpoint was that the United States would be in a far better position to help preserve the integrity of China by remaining outside of any particular agreements which might have for their object a voice in China's political future than by actual participation.

**Equal Suffrage May be Considered.**  
There is a strong probability that congress will very soon submit a suffrage amendment to the constitution to the people of the country for their approval. This action is foreshadowed by the vitalizing of the senate committee on woman suffrage. This committee has long been one of those which existed solely for the purpose of giving a chairmanship to some senator who otherwise would not enjoy that honor. The senate has now enlarged the committee from five members to nine, making it an active committee.

Most of the members came from suffrage states, and the chairman, Senator Charles S. Thomas of Colorado, took that office on the understanding that congress would take steps at the coming session to submit the suffrage amendment.

**National Capital Brevities.**  
Willis L. Moore, chief of the weather bureau, has resigned.

Dr. Charles Elliot, president emeritus of Harvard university, has been offered the ambassadorship to Great Britain.

President Wilson is giving much serious consideration to the question of formal recognition of the new Chinese republic.

That the budget plan for running Uncle Sam's affairs will be adopted by the Wilson administration was indicated in a white house statement.

Led by Senators Shafroth of Colorado and Brady of Idaho, a group of United States senators expect soon to attack the conservation policy established by Gifford Pinchot and maintained by former Secretary of the Interior Fisher.

Samson of Spokane as assistant, to work out selling agency and control of other matters such as pack and grade.

The executive committee will draw up a contract and at once visit various organizations of the northwest to ascertain what fruit they will pledge, the desire being to get as large a percentage as possible pledged and then build up the machinery for handling it.

Fruit is to be made the primary object of attention but organization will be available for distribution and selling of any products of the soil.

### Mothers' Pension Law in Utah.

Salt Lake City.—Mothers' pensions are now effective in Utah. Mothers compelled to work for a living will receive \$10 per month to support one child and \$5 for every other child. The idea of the law is to have mothers remain at home with their children to raise them properly.

### POWERS INTERCEDE FOR TURKEY

Sofia.—If the great powers of Europe have their way, Turkey, when conquered, will be left with more than double the amount of territory in Europe than the Balkan allies would have allowed the Ottoman empire to retain.

This became known when the foreign office gave out the text of the note, delivered to Bulgaria from the ambassadors of the powers in London, through the ministers here, setting forth the conditions under which the powers will consent to mediate in the Balkan war.

First, the powers demand that the new Turkish frontier shall extend from Enos on the Aegean, by way of Maritz and the Erkens' river to Media on the Black sea. The allies would be given all the rest of Turkey in Europe except Albania, which is to be given autonomy. The division of allotted territory would be settled by the allies themselves and the powers would settle the limitations of the Albanian boundary. The powers also demand to be allowed to settle the possession of the Aegean islands.

In addition, they regard with disfavor the indemnity demands of the allies, and propose an international conference to be held in Paris.

### Trust Makes Girl's Lowest Wage \$8.

Chicago.—Following the agitation against low wages for women in the state, President McCormick, of the International Harvester company, has announced here that his concern will raise its minimum wage for girls and women from \$5 to \$8 in its plants throughout the country. The new rule will go into effect Monday. About 800 are affected.

## FATAL TORNADO SWEEPS OMAHA

### Nebraska, Kansas, Iowa and Indiana All Suffer from the Elements

Omaha.—Omaha and vicinity was swept by two distinct windstorms late Sunday afternoon, both of cyclonic intensity, which spread death and destruction in their wake. Fire which broke out in many of the wrecked buildings added to the horrors.

The best available figures placed the number of dead between 100 and 200, with not less than 1000 more or less seriously injured.

The first and main storm struck Ralston, three miles west of South Omaha, shortly before 6 o'clock, and moved in a northeasterly direction through the city of Omaha, leaving a wake of death and destruction eight miles long and from four to six blocks wide. The path of the storm lay just north of the business district, and included two of the fashionable residence sections, known as West Farnam and Bemis Park. Practically all the buildings in this district were demolished.

The well-defined path of the storm ended at Crater Lake, near the Missouri river, north of the city.

To add to the horrors, fire broke out in many of the wrecked buildings. The streets, littered with debris, were practically impassable for the fire apparatus, and the fires burned themselves out except in instances where the flames were brought under control by volunteer "bucket brigades."

The second storm swept across the Missouri river about 6:20 P. M., doing considerable damage in Council Bluffs.

Figures compiled early place the number of known dead in Council Bluffs at nine and a score injured.

The police were unable properly to protect the stricken district, and soldiers from Fort Omaha were called out. The town was practically under martial law.

Omaha's suburbs suffered heavily. Ralston, southwest of Omaha, was razed to the ground and a half score or more are dead.

The worst damage was done and the heaviest toll of lives exacted in the western part of Omaha, in the vicinity of Twenty-fourth and Lake streets, and from there northeast to Sixteenth and Blinney streets. This was the residence district, and the destruction wrought was well-nigh appalling. Whole blocks of homes were picked up and dashed into a shapeless mass. Streetcars were hurled from the track and demolished.

Chicago.—A terrific wind storm, causing widespread destruction and loss of life and property, wrecking the already demoralized telegraph service, raged over the central west and middle states. Reports from Nebraska, Kansas, Iowa and Indiana indicate heavy damage.

Omaha, Berlin, Ashland, and Yutan, Neb., the latter town near Omaha; Marshalltown, Ackley, Woodbine and Carroll, Iowa; Terre Haute, Ind., and Abilene, Kan., are places from which messages carrying the news of grave destruction have been received.

Terre Haute, Ind.—With a known dead list of 16, reports brought by messengers on horseback from the south part of Vigo county, indicate that the toll of a tornado which struck here late Sunday night would reach 50. The property loss probably exceeds \$500,000.

In addition to destroying about 300 homes in the south portion of Terre Haute, Prairieton, a small town six miles south, was destroyed and the intervening territory devastated. The injured number at least 300 and many of these are in a serious condition. The hospitals are filled to their capacity.

### FRIEDMAN TO VISIT HOME

Laboratory Experiments May Cause Break in American Visit

New York.—Dr. F. F. Friedmann will sail for Berlin three weeks hence to complete laboratory tests unfinished when he came to this country a month ago to demonstrate his treatment for tuberculosis, but will come back to America again two weeks later. This was announced by his assistant, Dr. Maurice Sturm, who will accompany him.

Dr. Sturm said that on their return the government medical authorities at Washington probably would have completed their tests of Dr. Friedmann's vaccine and have made their report.

**Lister Ends Death Sentence.**  
Olympia, Wash.—Death penalty for murder will go out of the statute books in this state in 80 days unless a referendum petition is raised for Governor Lister appended his signature in approval of the Goss bill passed last session.
