## Opposite Hotel Prineville

### Judge Springer

#### Courts Investigation

County Judge Springer is not at all disconcerted over the action of W. G. Phoenix and F. W. McGaffery of Redmond, in enjoining the county officials from paying outstanding warrants totaling \$56,639.96 for bridge and road purposes. If there has been any sculduggery, the Judge wants to know and will aid in every way in finding out. "If material and labor has been furnished the county on the square, we should pay for it," said the Judge.

The injunction does not affect the other warrants. The case will come up at the May term of court.

The "Story of the Cadillac," is one of that mechanical and commercial advancement which makes for permanency. The Cadillac Company has never yielded to clamor by producing that which catered merely to fancy, nor that which took advantage of the uninformed. On the contrary it has produced only that which it knew would give to the purchaser "value received" in abundant measure. The Cadillac Company has never been obliged to resort to exaggeration and over-drawn claims to dispose of all the cars that it could make—and more. Its policy has ever been to under-claim rather than over-claim. It is gratified that the public accepts its representations at their full worth; because the public has never been misled and because the public could always expect and has always received more than was offered.
