

## ASSASSIN SHOTS AT KING ALPHONSO

King's Presence of Mind Saves Him From Death in Madrid

Madrid.—For the third time in his reign, King Alfonso narrowly escaped being the victim of an anarchistic attempt against his life. Three shots were fired at the king in the streets of the capital by a native of Barcelona, Rafael Sanchez Allegro, who was immediately overpowered.

King Alfonso owes his escape to his courage, quickness and skilled horsemanship. Accompanied by his staff he was riding along the Calle de Alcala, returning from the ceremony of swearing in recruits, when a man sprang from the sidewalk and seized the bridle of the king's horse with one hand, pointing a revolver point blank with the other. The king, realizing the situation with lightning rapidity, dug his spurs into his horse, which reared violently.

His quickness saved his life. The bullet, instead of burying itself in the king's breast, struck the horse. So close was the range that the king's left glove was blackened by the powder discharge.

Before the assailant was able to pull the trigger again a secret service man sprang upon him. The two men fell to the ground locked in each other's arms, struggling furiously. The assassin freed his revolver arm and fired two more shots in rapid succession, but the officer knocked his arm aside and the bullets flew harmlessly through the air.

**Montenegro Left to Battle Alone**  
Cettinje, Montenegro.—Pucky little Montenegro has been left to fight its battle with the powers alone. The Servian army that has been assisting the Montenegrins in the siege of Scutari has been withdrawn and is marching back to Servia. Much bitterness is felt throughout Montenegro.

**May Hear President's Daughter**  
Richmon, Va.—Miss Jessie Woodrow Wilson, daughter of President Wilson, addressed two audiences here in connection with the Young Women's Christian Association's biennial convention.

Miss Wilson, taking for her subject, "What the Association Means to the College Girl," made a strong plea for women of means and education to assist in the uplift work for womankind throughout the world.

## 500,000 WORKERS STRIKE IN BRUSSELS

Brussels.—Belgium will be the scene of one of the greatest general strikes the world ever has witnessed. It is expected to affect every branch of industry within the kingdom. At least 500,000 men—possibly 500,000—will cease work. This movement is not for an increase in wages, nor betterment of working conditions; it is in protest against the refusal of the government to grant the workers manhood suffrage.

If the commands of the organizers of the agitation are heeded, the men will refrain from acts of violence. Indeed, the workers have promised that men will be furnished to pump the mines, keep the blast furnaces going and otherwise protect property so that when the strike is ended an immediate resumption of work can be begun. The government, however, is taking no chances, and, as a precaution against possible disorders, has stationed troops at strategic points in case of need.

Thousands of women and children have been sent out of the country by the workmen so that they may not suffer. The strike leaders say they have \$3,000,000 with which to carry on the movement.

**Allies' Quarrels Are Hope of Turks**  
Vienna.—Peace in the Balkans is apparently as far away as ever.

Bulgaria and Greece are quarreling over Salonika, which means that the allies are neglecting their war with Turkey. In the meantime, the Moslem empire is reported to be preparing a desperate resistance of any assault on the Tchatalja forts.

## PERMIT DENIED FRIEDMANN

Surgeon-General Blue Says Claims for Serum Must First Be Upheld.

Washington.—Surgeon-General Blue, of the public health bureau, told Dr. Frederick Franz Friedmann that until the exact nature of his tuberculosis vaccine and the method of its preparation had been revealed and the claims made for it substantiated by official tests and investigations, a license for its sale in interstate commerce could not be issued. This was the surgeon-general's answer when the Berlin scientist asked what steps would be necessary for him to take to obtain such a license.

Pope Pius X, whose condition was reported improved, suffered a relapse, due to reluctance to submit to strict medical regime.

## ONE IN EVERY EIGHT IS HURT

Of 145,000 Engaged in Hazardous Work 19,226 Injured.

Olympia.—In the state of Washington one man in every eight who are engaged in hazardous or extra hazardous occupations, as defined by the industrial insurance law, is injured, and one in every 50 who are injured is injured fatally. These astounding figures are discovered in the report of the state commission for the first 17 months of its work.

During that period 145,000 persons were engaged in hazardous work. The accidents brought before the commission totaled 19,226, and the deaths resulting 406.

An average of \$2000 per day is paid by the industries of the state to injured workers or their heirs.

## I. W. W. Take Train.

Colorado Springs.—Commandeering a Rock Island freight train that left Pueblo Sunday night, 102 Industrial Workers of the World recently ordered out of Grand Junction, Colo., obtained transportation to this city, where they were met by the entire police department. They were herded to the police station for the night and, after being supplied with breakfast, were escorted from the city.

## STATE TROOPS CAPTURE NACO

Naco, Ariz.—General Pedro Ojeda, commanding the remnants of his federal garrison of 300 troopers at Naco, Sonora, surrendered to the United States troops on border patrol here, after having withstood a siege of state troops which lasted for five days, and in which more than half his troopers were killed.

The surrender was hastened by the attack on the federal garrison by the band of Yaqui Indians under General Alvaro Obregon, commanding state troops. The dead on both sides has been estimated at 200, and the fortifications at Naco, Sonora, are veritable slaughter pens. About the buildings are strewn more than 100 bodies, shot, cut and horribly mutilated.

General Ojeda, true to his promise, refused to surrender. While the fighting was at its height he attempted to march across the border with his small band. The fire from the enemy was demoralizing, and Ojeda and his men ran and became scattered.

Captain H. A. Sievert, Company A, Ninth United States cavalry, ran alone to Ojeda's assistance.

The American officer grasped the Mexican general by the arm. Together they ran in a hail of lead to where an automobile was awaiting.

## NEWS FROM OUR NATIONAL CAPITAL

### President Forces Sugar Schedule Through House Caucus

Washington.—President Wilson scored his first tariff victory when the house democratic caucus, by a vote of 155 to 39, adopted the tentative sugar schedule, making that commodity free after three years of 1 per cent duty.

The vote was taken after Chairman of Ways and Means Committee Underwood had warned the house that the adoption of any of the many amendments placed before it would be a direct affront to the president, who had specifically asked the adoption of the sugar tariff schedule, and would seriously imperil the passage of the bill in the senate.

"The sugar schedule in this bill was not reported from the committee as I personally would have reported it," he said. "It represents, however, the wishes of the president."

The final adoption of the sugar schedule, which Underwood declared meant an ultimate saving to the consumer of \$115,000,000 yearly, followed a day of stormy debate.

**Senate Reserves Rights on Tariff**  
The attitude of the senate toward President Wilson's tariff plans, as embodied in the new house tariff bill, became fairly well defined after a meeting of the democratic members of the finance committee.

Briefly the senate committee will agree to the view of the president and house as to free wool and one cent sugar, with the "free sugar in three years" attachment, but it will exercise its right to amend other schedules and provisions of the tariff bill as it thinks best.

**Wool Fight Becomes Critical**  
The fight against free wool has become more acute at both ends of the capitol, and several state delegations in the house are appealing to senators for support in the fight to retain some duty.

Stubborn opposition to the administration's wool program developed when 40 democratic congressmen from wool growing states met and decided to vote with republicans against the house wool schedule which bears President Wilson's stamp of approval.

**Republicans Plan Tariff Contest**  
In a caucus the republican members of the house laid plans for a vigorous organized opposition to the Underwood tariff bill. The caucus ordered the preparation of amendments to the Underwood bill providing for a non-partisan tariff board and for provisions of the cotton and wool schedules of the tariff.

Republican members of the house ways and means committee were instructed to prepare amendments next Thursday.

**Pure Clothing Wanted**  
Representative Murdock, progressive leader in the house, wants clothing manufacturers who mark goods "nil wool" when they are not, fined and put in jail. He put in a bill proposing a series of labels ranging from "pure wool," to "mixed goods," which would hold manufacturers responsible for proper labeling of their goods.

The penalties range from \$500 to \$1000 fine and a year in prison.

**House Progressives Assign Work**  
The progressive conference of the house parceled out the work of preparing the measures that will form a part of the progressive legislative plan. The house members will work in conjunction with the legislative committee of the national progressive party, of which Gifford Pinchot, Jane Addams, Dean Lewis, of Pennsylvania University, Walter Weyl and other prominent persons are members.

Ten legislative subjects were assigned to them, and they will form the basis for the legislative campaign of the progressives in the present congress.

**National Capital Brevities**  
A bill to authorize national banks to lend money on real estate was introduced by Senator Nelson.

Plans for opening Alaskan resources to development as quickly as possible are being considered by President Wilson.

Primary elections for nomination of presidential and vice-presidential candidates is proposed in a bill by Senator Cummins.

The naturalization of a stepfather bestows American citizenship on his minor stepchildren, according to a decision by Controller of the Treasury Tracewell.

"Corporal" James Tanner, lifelong republican and past commander of the Grand Army of the Republic, will not have to surrender his job in Washington as register of wills to a democrat. At the White House it is said he would be retained in office.

The net earnings of corporations of the United States for the calendar year 1912 were \$3,000,000,000, and increase of \$250,000 over 1911. This amount will yield an income to the federal government under the corporation tax law of \$30,000,000.

## IHC Wagons Are Tough

Did you ever notice when one of the wheels of your loaded wagon dropped into a rut or bumped over a stone how the seat springs gave and rebounded, almost throwing you off? That is an indication of the shock and strain that the rigid spokes and axles have to stand whenever the wagon is traveling over a rough road or through a field. The IHC wagons your local dealer sells

## Weber New Bettendorf Columbus or Steel King

take these stresses and strains as a matter of course. From neckyoke to tail board they are built of selected, air-dried lumber, strong and tough, bending to strains but coming back as straight and true as ever when the load is removed. Besides being tough, IHC wagons are light running. The wheels have just the right pitch and gather, and run true. All skains and skein boxes are paired. The running gear is assembled by skilled workmen whose wages depend as much on the quality as on the quantity of the work they turn out. Consequently, IHC wagons are practically all of the same high standard of quality throughout.

Weber and Columbus wagons have wood gears; New Bettendorf and Steel King have steel gears. IHC local dealers sell the wagon best suited to your work and conditions. Get catalogues and literature from them, or, address your request to
