Surveying the Right-of-Way for Railroad

The engineers are at work on the survey for the Metolius-Prineville road.

F. M. von Planta, chief engineer for Contractor Scheel, arrived in Metolius last evening with his men to begin the work of locating the right-of-way. Judge Brink was 'phoned to send over additional help, which he did this morning by auto.

Railroad affairs will now develop rapidly. Just where the permanent line will be run will soon be decided. Of course the attitude of the farmers toward the road will be a large factor in making up the decision, but no serious obstacles are apprehended in that direction. Many of them will gladly donate the land required because of the increase in value and the convenience of transportation facilities.

When the right-of-way problem is taken care of dirt on construction work will soon commence to fly. Let 'er fly.

County Judge Explains About Cement

The following letter was mailed to D. W. Barnett of Madras in response to a letter from Mr. Barnett informing the county judge that a rumor was being circulated that the judge had paid the Oregon Trunk railroad some money to save himself the trouble of answering to a charge of swiping a carload, more or less, of cement. The letter reads:

Mr. D. W. Barnett, Madras, Ore.

Friend Barnett: As far as I am concerned, the yarn about the cement is the result of ignorance or maliciousness. There was some cement condemned by the contractor and left at or near the Crooked River bridge. I learned from S. S. Crawford, that the man in charge, the contractor I believe, a Mr. Lambrecht, allowed any one to take as much as he could use, and so I sent my teams and got some of it. I learned recently that there is some misunderstanding between the contractor and the cement company.

You are at liberty to publish this letter if you wish.

Yours very truly,
G. SPRINGER,
County judge of Crook county.

To official papers the county judge considers himself public property, and while he may not always take time to explain about a little thing like a carload or two of cement, if he steals a railroad and gets off with it as easily as he has so far with the cement deal, he promises to solve the problem of transportation for Prineville. Also it will not prevent him from investigating timber cruising deals or any other matter of interest to the taxpayers of Crook county.

G. SPRINGER,
County judge of Crook county.

The W. C. T. U. Mid-Year Convention

The second annual mid-year convention of the Crook County Woman's Christian Temperance Union was held at Prineville April 25, 26, 27, 1913.

Friday evening the first meeting was held in the Methodist church. Mrs. Wilda Belknap, county president, gave the address of welcome. Mrs. A. C. Thomson of Culver was to have given the response but was not present at that time. After a solo by Mrs. E. L. Coe, Mrs. Ada Wallace Unruh, state president, gave a lecture on the subject, "The New Voter and the State." After

County Finances in Good Shape

County Treasurer Jordan issues a statement of the county's financial standing that should set at rest some of the misleading statements that have found currency recently.

The county treasurer says that there was in the general fund January 1, 1913, the sum of \$1,046.36; cruising fund, \$11,812.16; that the registered warrants outstanding at that time were \$111,984.04.

Since January 1st, warrants to the amount of \$70,302.05 have been called in and that he has received \$35,486.90 from the sheriff in warrants, leaving a balance of \$6125.09 still remaining unpaid up to January 1. There have been registered since January 1st warrants to the sum of \$10,706.67, making a total of \$16,832.06 registered warrants still outstanding with no funds on hand to pay for same.

"If the next turnover from the sheriff is as large as I think it should be, (about \$20,000) the county will be out of debt once more, for a short time at least," said the county treasurer. "The

county is owing more than the amount mentioned above, as there is a large number of warrants issued which have not yet been presented for registration.

"The total assessed valuation of the county for 1912 was \$9,979,152, against \$9,531,013 for 1911, a gain in value of \$448,139."

The millage for this amount is divided as follows: State and county, 17.45 mills; general school, 3 1/2 mills; high school, 2 mills; road fund, 1 mill; library, 1-20 of a mill. Total 24 mills.

The total amount received from the sheriff since January 7th is as follows: General fund, \$99,114.71; school fund, 19,423.64; road fund, \$5214.52; high school, \$8866.70; cruising fund, \$130.29; library fund, \$277.51; special school fund, \$41,280.74. Total, \$174,308.11.

County Treasurer Jordan wishes it made known that if any further information is desired as to the financial condition of his office he will be pleased to furnish it at any time.
