

This monogram stands for all you can ask in a motor car

20,000 Miles

What car will carry you that distance in greater comfort and safety, and with less trouble and expense than a Chalmers "Thirty-Six"?

It's a pretty poor car indeed that won't make a good showing in a salesman's demonstration.

But it takes a pretty good car to travel 20,000 miles and please you as well at the end as it did in the beginning.

Chalmers cars stand this test. Hundreds are driven this far every year. Some have been driven as high as 140,000 miles, and are still in daily service.

You can pay almost any price for a motor car, but even the highest priced won't carry you 20,000 miles in more comfort with greater economy, or with less mechanical attention than the medium priced Chalmers "Thirty-Six."

No lower priced car will give you equal comfort, economy and reliability.

Long stroke motor, four-forward

speed transmission, nickel steel axles, extra large brakes—these and many other features of design secure the mechanical excellence of the Chalmers.

Large valves, new style Chalmers piston rings, improved carburetor, Timkin bearings throughout the running gear—these are some of the Chalmers features which make for economy.

Turkish cushions, 11-inch upholstery, long wheel base, large wheels and tires, long flexible springs—these are the things which make your Chalmers "Thirty-Six" comfortable. None more so.

Try the Chalmers "Thirty-Six" for 20,000 miles. By that time you will be agreed with us that no car at any price offers as much real automobile value for the money.

Let us give you your first Chalmers ride at your convenience.

A FISH FEAST

is really a dish for an epicure—especially if you buy the "finney" from us. All our fish have the habit of coming straight here from their native element without hanging around elsewhere, losing their freshness and flavor. Shell-Fish a specialty in the season, but we keep nothing out of season, so you are always sure of a sweet smell here. Moderate prices, too.
