### Junior Day at the Crook County High

The class of 1914 of the Crook County High School has scored another triumph. The class is composed of wide-awake students and all expected average good time when the Juniors had matters in hand.

Following the custom that was established years ago, May 2 was turned over to the Juniors. The morning was given over to tennis, the afternoon to track events, and in the evening the class presented at the Club Hall an excellent play entitled "College Chums." This furnished a fitting climax for a most delightful day.

The tennis tournament was the most hotly contested ever held on the local courts. Lee Belknap has a clear title to first place, but second place is still in doubt, the honors being divided equally between Hobart Belknap and Norris Bixby. The most interesting set of the day was between Morris Bixby and Harry Farnsworth. They were so evenly matched that thirty-four games were necessary to decide the winner. Hobart and Norris will play off the tie some time in the next few days to decide who will be second man on the high school team. The team will meet some of the nearby schools soon.

The track meet was a decidedly interesting one. It was well planned and executed. In view of the approaching meet of all-schools of Central Oregon at Redmond, Saturday, May 10, interest was at fever heat and rivalry was keen. The Seniors-Sophomores won from the Juniors-Freshmen by a score of 61 to 72.

The "Story of the Cadillac," is one of that mechanical and commercial advancement which makes for permanency. The Cadillac Company has never yielded to clamor by producing that which catered merely to fancy, nor that which took advantage of the uninformed. On the contrary it has produced only that which it knew would give to the purchaser "value received" in abundant measure. The Cadillac Company has never been obliged to resort to exaggeration and over-drawn claims to dispose of all the cars that it could make—and more. Its policy has ever been to under-claim rather than over-claim. It is gratified that the public accepts its representations at their full worth; because the public has never been misled and because the public could always expect and has always received more than was offered.
