Steel and Iron Raw Materials Are Placed on Free List in Tariff Bill.

Washington.—The transfer to the free list of the tariff bill of iron and steel raw materials, with an estimated dutiable value of more than \$900,000 a year, was approved by the majority members of the senate finance committee. This increased the senate's additions to the Underwood free list to an aggregate annual loss of \$2,000,000 in revenue, making the total estimated annual revenue loss from the free list about \$27,000,000.

All structural steel, which was made dutiable at 12 per cent in the Underwood bill, has been reduced as a compensation for the placing of raw materials on the free list. The raw materials were placed on the free list, largely because they are controlled by the United States Steel Corporation.

Among the articles which the senate sub-committees have added to the free list are: Pig iron, ferro-manganese and spiegelisen, hemp, livestock, wheat, photographic films, cedarwood, coal tar dyes.

Print Paper Provision Changed.

Amending the section of the Underwood tariff bill which would place on the free list all print paper valued at not more than 2½ cents a pound, the majority members of the senate finance committee voted to incorporate in the bill the provisions of the Canadian reciprocity act passed in 1911.

This action would extend the free list to include all print paper valued at not more than 4 cents a pound, on condition "that no export duty, export license fee or other export charge of any kind whatsoever, or any prohibition or restriction in any way of the exportation, shall have been imposed upon such paper, board or wood pulp, or the wood pulp used in the manufacture of such paper or board."

Free Postage Big Aid to Sugar Men.

How the government printing office and the postoffice department helped in the fight against free sugar and the congressional frank sent tons of anti-free sugar literature circulating throughout the land, was brought out by the senate lobby investigation. Truman G. Palmer, Washington representative of the United States beet sugar industry, testified that more than 1,500,000 copies of arguments in behalf of beet sugar had been turned out by the government printing office, made public documents by order of congress, and had ridden on the franks of senators and representatives, postage free.

"Sugar at a Glance," prepared by him, he said, had attained a circulation of 320,000 copies under the frank of Senator Lodge. "Report of the Finance Committee," by the same senator, had beaten the pamphlet by 80,000 copies.

Suffrage Gets Favorable Report.

Senator Ashurst, of Arizona, presented the report of the senate suffrage committee, recommending the passage of Senator Chamberlain's resolution for a constitutional amendment enfranchising women. The report vigorously urged votes for women. It declared suffrage was justified "by every test the students of government had set down" for enfranchisement of any class of citizens.

National Capital Brevities.

President Wilson has informed Colonel Goethals that he will visit the Panama canal as soon as congress adjourns.

Majority members of the senate finance committee declare that they expect to have the tariff bill in shape for consideration by the Democratic caucus this week.

Secretary of the Interior Lane holds that assignees of reclamation homesteads on which final proof has been made need not be qualified homesteaders.

Secretary Lane submitted a resolution to congress for a law authorizing the drainage and reclamation by the United States of public swamp and overflowed lands in any state or territory.

Representative Henry has introduced a resolution in the house giving congress visitorial powers over national banks in seeking a record of the currency system. He asserts that the Pujo money trust probe "barely scratched the surface."

Instructions to postmasters were issued for handling C. O. D. parcel post packages. The regulations will be in effect July 1. Charges on packages will be collected from addresses on and after that date, provided the amount on a single parcel does not exceed \$100.

PREPAY FREIGHT ON FRUIT

Railroads Take No Chance on Cars That Cannot Be Sold.

Seattle.—Fruitgrowers throughout the northwest are being notified by transportation companies that hereafter no fruit shipments will be forwarded unless the freight is paid in advance or guaranteed by some responsible person or bank.

The action of the railroad companies is brought about, it is said, by the fact that during the past season large amounts of fruit did not bring enough on the market to pay the expense of transportation.

The grower did not feel like digging down into his pockets for the amount of the freight bill, in view of the fact that he had received nothing for his fruit, and the commission men felt no obligation toward the railroad companies, so the roads lost out all around. They will take no chances the coming season.

"Bridgie" Webber Stabbed in Back.

New York.—Bridgie Webber, the New York gunman whose testimony aided in sending Police Lieutenant Charles Becker to the death house at Sing Sing, gave a new evidence of the grim spirit of the east side thug Saturday when he absolutely refused to give the name of a man who stabbed him in the back about 1 o'clock in the morning, probably in revenge for his turning informer.

Nebraska Farmers Give Pledge.

Lincoln, Neb.—To do their part in reducing the high cost of living, 200 Nebraska farmers have pledged themselves to devote their time, talents and energies to increasing the production of beef cattle in this state, and to follow the instructions of the university experiment station, which for several years has made a special study of raising cattle for beef by the best methods.

ADMITS OFFERING BRIBE TO SENATOR

Santa Barbara, Cal.—C. H. Ercanbrach was arrested by a deputy United States marshal on a federal indictment charging him with an attempt to bribe United States Senator Works. Ercanbrach wanted the appointment of postmaster here, and is alleged to have written a letter to Senator Works offering \$1000 if the appointment were procured for him.

Ercanbrach's letter was turned over to the department of justice at Washington by Senator Works. The department sent the letter to United States District Attorney McCormick here. The latter presented the matter to the grand jury and an indictment was returned.

Ercanbrach is a carpenter who is considered fairly well to do. No one knew he had political aspirations. He was surprised when the warrant of arrest was served on him. He admitted that he had written the letter to Senator Works, and added:

"I did not know it was a crime to offer to pay a man for getting a political job for you."

DEFENSE OF MINE OPERATORS STARTS

Will Endeavor to Overcome the Testimony of West Virginia Miners.

Charleston, W. Va.—The coal mine operators of West Virginia began presentation of their case Monday before the senate mine strike investigating committee.

Much of the activity of the mine operators' lawyers was directed toward breaking down the story of Lee Calvin, an ex-mine guard and star witness for the miners, who told the committee of his experiences on the armored train which shot up the camp of the miners at Holly Grove.

Calvin accused Quinn Morton, a miner operator, of urging that the train return and fire again on the tented enemy after the fire from the cars once had raked the little village and after Cisco Estep had been killed beside his home.

Martial law, which for months has ground the inhabitants of West Virginia's still convulsed coal fields, ceased by proclamation of Governor Hatfield.

The senate sub-committee viewed Hatfield's action as an admission that the constitutional rights of the miners have been violated. The investigators expect to report that the state authorities did not safeguard the rights of the miners, although the charge that the miners interfered with getting food at the company stores was substantiated.

Charges of peonage, which have been made against the operators, apparently have not been sustained, and this phase of the inquiry will probably be abandoned.

GOVERNMENT LOSES SUIT

Titles of Settlers Between Two Proclamations Confirmed.

Cheyenne, Wyo.—The government suit against the Midwest Oil company—a test case involving the title to millions of dollars' worth of oil lands in California and Wyoming—was dismissed by Judge Riner, of the United States district court. While the government sought to recover only 4000 acres of land in this suit, the issue involved covers thousands of other acres of California and Wyoming lands included in President Taft's sweeping order, designed to conserve the country's resources and to afford the government a supply of fuel oil for the United States navy.

California Gets Batch of New Laws.

Sacramento, Cal.—A mother's pension act, a minimum wage commission act and a so-called "blue sky" act, the latter seeking to prevent wildcatting by promoters, were among a big batch of progressive measures signed here by Governor Hiram Johnson. A pipe line law, making oil ducts now owned by big corporations common carriers, and an eight hour law for women, to include student nurses and employes of lodging houses and places of amusement, also were signed.

HAWAIIAN VOLCANO TO BE FORTRESS

Boston.—American troops in the Hawaiian Islands have taken possession of the crater of a large extinct volcano situated on the coast, and are working night and day to convert it into a fortress capable of withstanding a long siege. Ammunition and food supplies are being stored within it, guns are being mounted, a water supply has been arranged for and gardens have been planted on the slopes of the crater to provide food and thus render the place self-sustaining in case it is besieged for any great length of time.

This information reached Boston from an authentic source in Honolulu, and the communication further said that Americans residing in the Hawaiian Islands, including troops, are much exercised over the Japanese situation.

The communication says that Americans have moved into the crater bag and baggage; that living quarters are being prepared within, and that guns are being mounted all around the rim so that a fortress capable of resisting an attack either from land or sea will confront any forces that may try to attack the place.

FRISCO GRAFTER SENTENCED

Policeman Who Sold Protection to Bunco Men Gets Five Years.

San Francisco.—Frank Esola, for 16 years an officer of the San Francisco police department, was sentenced by Judge Dunne in the superior court to serve five years in Folsom penitentiary.

He had been found guilty of selling protection to bunco men. The specific conviction was on the charge that he had been an accomplice of Michael Gallo, now in San Quentin, in fleeing John Folds, a Modesto farmer, out of \$900 in December, 1910. The maximum penalty possible was 10 years.

Trade at Home

"Every time you go to town
And start to throw your money around,
Say 'Home-made goods are the stuff for me,
Because they spell Pros-per-i-ty.'
The dollar you send to the Eastern Store
Says 'Good-bye Bill' for evermore.
But the dollar you spend with the Home-made sound
Keeps a'comin' and a'comin' and a'comin' around."
