Mrs. N. P. Alley entertained the children of the neighborhood most delightfully Friday afternoon in honor of Ada Sears of Redmond, who was a house guest of Mildred and Edna Alley. At the close of an enjoyable session of games the guests were treated to a delicious luncheon consisting of sandwiches, cherries, cakes, home-made candies and lemonade.

Mrs. John Kinsler came out from Redmond Friday for a few days' visit at the home of her son, Geo. Kinsler.

Mrs. Guy Sears and daughter, Ada, returned to their home in Redmond Tuesday after a week's visit with Mr. and Mrs. D. A. Yates.

A double surprise party was pulled off at the Allen Wilcoxen home Saturday evening when Mr. and Mrs. E. A. Bussett accompanied by a crowd of young folks autoed out from Prineville ostensibly to participate in a surprise on their son, Ross, who was 22 years of age that day. While the parents and others were busy planning their party on Ross, the latter aided by some neighbors, planned a party on the elder Bussetts to take place at the same time and place. Consequences were that friends completely surprised Mr. and Mrs. Bussett, while

they were waiting expectantly for the crowd of young folks to come. A little later a young man came to the door asking to speak to Ross who on stepping into the yard was confronted by a crowd of about twenty young friends who handed him in no delicate manner for the next few minutes. The evening was spent very pleasantly with music and conversation, after which dainty refreshments, consisting of sherbert and cake were served. As the Bussetts were soon to leave on their auto trip through this and other states many regrets were heard that these good people were leaving our section. However, we hope they may return and locate among us again. As a token of good fellowship they were presented with a handsome carving set and brush and crumb tray, J. L. Foster making the presentation. Mrs. D. A. Yates and Mrs. Guy Sears visited in Prineville Friday.

PUBLIC OPINION IN AMERICA.

I know of no country in which there are so little independence of mind and real freedom of discussion as there are in America. In any political state in Europe every sort of religious and political theory may be freely preached and disseminated, for there is no country in Europe so subdued by any single authority as not to protect from the consequence of his hardihood the man who raises his voice in the cause of truth. If he is unfortunate enough to live under an absolute government the people are often on his side; if he inhabits a free country he can, if necessary, find shelter behind the throne. The aristocratic part of society supports him in some countries and the democracy in others. But in a nation where democratic institutions exist, like those in the United States, there is but one authority, one element of strength and success, with nothing behind it. In America the majority raises formidable barriers around the liberty of opinion. Within these barriers an author may write what he pleases, but woe to him if he goes beyond them. His political career is closed forever since he offended the only authority which is able to open it. Every sort of compensation, even that of celebrity, is denied him.—Alexis de Toqueville.

WRITING.

There is this good in a large library—that, it frightens the beholder. Two hundred thousand volumes are enough to discourage a man tempted to print a book. But unfortunately he very often says to himself, "Most of these books are not read, and perhaps mine will be." He compares to the drop of water that complained of being confounded and lost in the ocean. A genie took pity on it and made an oyster swallow it. It became one of the finest pearls of the ocean and in time the chief ornament of the great mogul's throne. Those who are mere compilers, imitators, commentators, pickers of phrases, critics by the weak—in short, those on whom no genie will take pity—will forever remain the drop of water. Our man then is working to become the pearl.—Voltaire.

Hampton

Hampton, Ore., June 17, 1913.

The annual school meeting was held yesterday at Hampton Store at 2 p. m. Officers for the coming year were elected as follows: J. N. Crow, chairman board; E. M. Peck, 2-year, and Rev. Burris, 1-year; Warren McConnell, clerk for one year. It was voted in favor of free text-books, and a tax levied for that purpose.

Mr. Bezona was severely hurt in the right hand last Thursday while greasing his wagon. In some way it came down on his hand running a bolt clear through the palm. It is hoped no bones were broken, but it is very painful.

Several are again pulling brush in this section, and every homesteader is working early and late plowing, harrowing or clearing.

Sunday school has been changed to meet at 10:30, to be immediately followed by preaching by Rev. Burris, who recently moved to his homestead here with his family.

His Wig In His Pocket.

Benjamin Franklin once wore his wig in his pocket at the court of Versailles. When he was about to present himself at the court for the first time he was informed that a wig was essential. Franklin's head was so large that no ordinary wig would begin to fit it. However, one was found sufficiently large to pass him through the ante-chambers, after which he was permitted to remove the ridiculous conventional appendage and place it in his ample pocket.

Shadeless Forests.

Large tracts of dense forests in Australia are practically shadeless. Many kinds of trees in that strange country turn their edges instead of the flat surface of the leaves to the sun, and thus one may stand under a tree of enormous size and be as fully exposed to the sun as though he were in the open plain. Travel through these forests is said to be exceedingly arduous work, as the trees, while they do not cut off the sun, prevent the breeze from reaching the ground, and thus the traveler experiences a stifling heat.
