Good Time at Steins' Pillar the Fourth

The picnic at Steins Pillar, July 4th was a great success in every way. Those who attended returned elated over the good time they had had and every one bespeaks success.

The evening of the 31 found some 30 campers gathered and through the pines echoed the rejoicing of our Independence Day. At an early hour (July 4th) the crowd began gathering and by 10 o'clock some 300 people were present. The M. W. A. Banú furnished music throughout the day and for the dancing which began at 3 o'clock and continued until daylight. The afternoon was taken up in general good time, horse racing, merry-go-round and other sports. At an early hour, and very unexpected, to some, the Fincher Creek Band appeared on the scene. Though small in number the music it rendered was that of a "fall grown" band and very appropriate for the occasion. Some of the musical instruments being of the latest model, and for tone and beauty could not be excelled. The leader is deserving of much credit in the manner of generalship with which he led his band to victory.

The Coe Reception a Pleasant Affair

The reception given by the members of the Methodist church to Prof. and Mrs. Coe last Saturday evening was well attended. The following program was a pleasant feature of the evening:

Violin duet—Mrs. Edwards and Miss Frances Williams.
Vocal solo—Miss Williams.
Vocal solo—Mrs. Coe.
Reading—Mrs. Van Morse.
Vocal duet—Misses Ethel and Blanche Williams.

Rev. Williams gave a very amusing reproduction of the minister who forgot his lines, and made this the introduction to appropriate remarks in behalf of Prof. and Mrs. Coe. He reviewed briefly some of the good work they had done and at the close presented them with a token of remembrance. Mr. and Mrs. Coe responded in a most friendly and pleasant manner.

The remainder of the evening was spent in social intercourse during which refreshments were served.

The "Story of the Cadillac" is one of that mechanical and commercial advancement which makes for permanency. The Cadillac Company has never yielded to clamor by producing that which catered merely to fancy, nor that which took advantage of the uninformed. On the contrary it has produced only that which it knew would give to the purchaser "value received" in abundant measure. The Cadillac Company has never been obliged to resort to exaggeration and over-drawn claims to dispose of all the cars that it could make—and more. Its policy has ever been to under-claim rather than over-claim. It is gratified that the public accepts its representations at their full worth; because the public has never been misled and because the public could always expect and has always received more than was offered.
