## Railroad Officials

### Visit Prineville

President J. D. Farrell, Vice-President and General Manager J. P. O'Brien, and Traffic Manager R. B. Miller, of the O. W. R. & N. Company, accompanied by Colonel Young, of Vancouver Barracks, Drake C. O'Reilly, W. H. Hurlburt, P. A. O'Farrell, Addison Bennett, of the Oregonian, and F. L. Stanley arrived in Prineville Monday morning on a tour of inspection of Central Oregon.

Shortly after their arrival here the party made a trip up the Ochoco as far as George Russell's place. On their return to town a number of business men met them at Hotel Prineville.

The officials expressed themselves as well pleased with the looks of this section. After dinner the party left for Bend and from there will go to Burns and Vale. The journey will end at Prairie City, where the private car will await the party at the end of the week.

We do not know whether or not there was any connection between the visit of the railroad men and a cloudburst that struck just this side of Russell's place late in the afternoon. There wasn't enough "hot air" turned loose in Prineville to change atmospheric conditions, but we do not know what took place at the Russell ranch. The cloudburst did little damage beyond washing out some bridges and culverts.

## Work Has Not Stopped on Mitchell Road

When the teams at work on the Prineville-Mitchell road were laid off recently the impression got abroad that work on the road had stopped for lack of funds. Supervisor Ross informs us that this is not the case. The teams were laid off during harvest but will begin work about September 1st. A small crew of men are now at work clearing the right-of-way of all trees and stumps and rock on the north side preparatory to grading in the early fall.

Wheeler county has paid its share of the contribution to the funds appropriated for the road and there is nothing now in the way of eventually connecting Prineville and the Mitchell country with a good highway.

## Benham Falls Dam Operations Continue

Oregon Journal: Work will be continued by the United States reclamation service this summer at Benham Falls, twelve miles south of Bend, Oregon, for the purpose of determining the practicability of constructing a big dam there for irrigation purposes.

Diamond drill operations have reached a depth of eighty feet. While bed rock has not yet been touched, those in charge of the work are hopeful of striking it soon.

The work is being carried on under state and federal appropriations of \$100,000 under the supervision of the federal reclamation service. Below Bend two crews of men are camped near Redmond and Opal City. They are surveying the river under the direction of Engineer John T. Whistler, of Portland.

### For Trade.

40 acres one mile from Oregon City to trade for irrigated land. See D. H. Proovles, Adamson bldg. 7-24-13

Oregon will be set in motion all over the world as a result of a visit to the state by Ralph R. Earle, representing Pathe's weekly, a motion picture record of events which is seen each week in picture houses throughout the United States and European countries by more than 20,000,000 people.

It was with the cooperation of Louis W. Hill, chairman of the board of directors of the Great Northern railway and William Hanley, of Burns, Oregon, that the motion picture man was enabled to secure some very remarkable views of Central Oregon agricultural and industrial scenes.

Making the trip into Bend over the Oregon Trunk railroad, the Hill line that has opened up the great Central Oregon country, the motion picture

man was taken to Burns, in Harney county, by automobile a distance of 150 miles. For a week the Pathe representative toured Harney county covering more than 1,000 miles by automobile to secure films that will show to the world the openings for homeseekers on the free government lands of Oregon.

While a visitor on the Double O ranch, owned by Hanley, more than 2,000 head of cattle were rounded up for the pictures. Motion picture panoramas will show the extent of the great valleys of Central Oregon and the Blitzen canal, just completed by Hanley through the Blitzen valley. This big irrigation ditch, formed by the waters of the Blitzen river, drains more than 100,000 acres of land and is forty miles long. The pictures will show the box and sheep indus-

try, homeseekers coming into the country, the sage brush land before and after the arrival of the homeseeker and generally give a truthful picture of the opportunities and possibilities of Central Oregon.

Louis W. Hill is one of the foremost Northwest developers and believes in the motion picture to give wide-spread publicity to what Oregon has to offer to newcomers.

The Pathe people have also secured a reel showing the scenery of the Deschutes canyon where the Hill lines expended an enormous sum of money to build the Oregon Trunk railroad into the Central part of the state. The pictures secured by the Pathe people are the first of the kind ever taken in Oregon and will be shown in the leading motion picture theaters all over the world.

## Prineville Enjoys

### Long Berry Season

Prineville enjoys the distinction of having the longest strawberry season of any town in Oregon. California berries found their way into this market in April. After they gave out the Valley berries commenced to come in. This was about the first of May. Then followed the Hood River and White Salmon berries. About the last of June Crook county berries dominated the local market. Powell Butte berries maturing a little earlier than those on the McKay.

The McKay berries are still coming into the market. They are grown on the ranch of J.A. Kurman, twelve miles north of Prineville on the Willow creek divide. He has five different varieties in bearing and will propagate only the best, probably two or three varieties. Mr. Kurman has had a very profitable trade this season in the berry business.

Baker, Sept. 15, to April 1; sage hens, Aug. 1 to Aug. 31; quail and doves, Sept. 1 to Oct. 31.

## Advertising Is The Strong Arm Of Business

By HOLLAND.

THE strong arm of business protects you and all the other ninety odd millions of inhabitants of the United States against fraud and deception. It enables you and all other buyers to buy intelligently and with the assurance of getting goods that are just what they seem to be, just what they should be.

### ADVERTISING IS THIS STRONG ARM OF BUSINESS.

Its tremendous power is exercised principally through the newspapers because in this way it reaches the greatest number, practically all of the people under Uncle Sam's flag. You can further the good work of this protective agency by reading the advertisements in this and in other newspapers regularly and closely. You owe it to yourself to do this because you thereby save time and money.

BEST GOODS ARE BEST ADVERTISED.

## Children's Cottage Home and Crook County League

Mrs. Holloway will be "at home" in her drawing room at Mr. Peterson's furniture shop opposite the Union church, every day from 10:30 to 11:30 a. m., and 4:30 to 5:30 p. m. Please call.

On Sunday morning, July 27th, at 11 o'clock, a mass meeting for children, parents and non-churchgoers, by Mrs. L. A. Holloway, M. A., at the Baptist church. No other services will be held at 11 a. m. at other churches on Sunday morning.

## Getting Ready for Delinquent List

Sheriff Elkins and Deputy Van Allen are sending out a final appeal to delated taxpayers before making up the delinquent tax list. They are not required by law to send out these statements, but do so in a final effort to save taxpayers every expense possible. Taxes will be collected under the operation of the old law until January 1, 1914, when the new law takes effect. Then the county treasurer becomes the tax gatherer.

Remittances are now being received from Hawaii, Sweden, Porto Rico, China, Philippine Islands, Canada, Alaska, and every state in the Union. The remittances cover small amounts for town lot assessments in different parts of the county.

## Forest Fire on Grizzly Mountain

About four hundred acres of yellow pine timber east of Grizzly on Coon creek was burned over last week. The fire got started on some logged-off land where tops and limbs burned like tinder. L. H. Hamilton, with five others, fought the blaze up to Friday morning, when Fire Warden Haner was notified. He got some men from the forest service and the fire was got under control. The fire warden has not yet turned in his report as to the extent of the damage.

## What Happened to Mary at the Lyric

During the last twelve months the Ladies' World Magazine and the Edison Film Company have published and produced in collaboration a series of stories and pictures, each installment complete in itself, entitled "What Happened to Mary," with Miss Mary Fuller, of the Edison Company, in the leading role.

The Lyric Theatre has arranged to show the entire complete series of twelve reels, one reel each week, the first chapter of which, entitled "The Escape from Bondage," will be shown next Monday and Tuesday. In this chapter we are introduced to "Mary," who, learning that her parentage is unknown, determines to leave the home of her cruel foster parents and make her own way in the world.

As this set of pictures has proven exceptionally interesting to ladies in other places, the management announces that a hot weather souvenir will be given to each lady attending the first of the "Mary" series next Monday and Tuesday evening.
