Grimes Valley.

Our valley is what was once known as "Poverty Flat" but we feel that it is anything but that now since it has been settled up by a prosperous and energetic people. The rabbits and coyotes have been mostly replaced by good cattle, horses, sheep and hogs and we have as good crops of hay and grain here as will be found in any part of Central Oregon.

The farmers have their first crop of alfalfa hay up and the second crop is growing nicely.

The dry land farmers are in the midst of haying.

The Grimes brothers have set up their new header and are ready for business in that line. They have purchased a large and complete threshing machine outfit, which they expect to make him as soon as the grain is ready.

We are planning on building a new church house in the center of our valley in the near future.

The contract is ready to let for the building of a \$1500 schoolhouse in the Lower Rye Grass school district to be ready for school by October 1.

We are all interested in the advance of the railroad into Prineville as we feel it will benefit us all. We are helping the cause along as much as we can.

Almost every farmer in this section has fenced with rabbit proof wire fences. John Grimes has put up about six miles this spring. "Tub" says this costs like sixty but he can't afford to feed his crop to outside stock.

The Williams and Slayton artesian wells are flowing freely which we consider quite a boon to our valley. There are several farmers hoping to get artesian water as soon as they can have the drilling done.

First Run on a Bank.

The first "run" on banking institutions in London was in 1907. Many Lombard street goldsmiths and bankers had lent out the money entrusted to them and, being called upon for payment, were unable to meet the demand. A crowd of creditors and others assembled, and a riot followed, in which four bankers were hanged at their own doors before order could be restored and the angry creditors persuaded that they were not being swindled.

A Wonderful Creature.

The polyp is the most remarkable creature on earth. If cut transversely or longitudinally into several parts, each will become a perfect animal. Tremblingly turned them inside out and they ate and enjoyed themselves as much as ever. He slit two longitudinally, placed the halves together and united them into two animals. He divided two transversely and created one with two heads. He pushed one down the throat of another, a third down the throat of the second, and thus formed a creature with three heads.

Effective Reflecting.

"It is so sudden!" exclaimed the fair haired girl, who had just received a proposal to merge her identity in that of a would be protector. "You must give me time to reflect."

"No, no!" retorted the diplomatic young man. "One whose dazzling beauty makes a mirror ashamed of itself should never go into the reflecting business. Let this solitary diamond do the reflecting."

And the records of the license clerk show that it was even so.

Bituminous Coal.

Shortly after the adoption of bituminous coal as a fuel in England a royal proclamation was used forbidding its use and authorizing the destruction of the furnaces of the users, who were characterized as evil doers. Scarcity of fuel, it seems, shortly compelled the resumption of its use. In the reign of Elizabeth bituminous coal was again prohibited during sessions of parliament lest the health of the members suffer thereby.—London Times.

The Cattle Market

Steady and Strong

North Portland, Ore., July 18.

Receipts for the week have been: Cattle, 1204; calves, 133; Hogs, 2256; sheep, 6372.

The cattle market last week was steady and strong. Improved beef outlook had a bullish effect on prices. Prime steer top \$8.00 to \$8.25, with the bulk of steer sales at \$7.75 and \$8.10. Eastern Oregon steers at \$8.60 and cows \$7.75 featured. There has been a keen

demand for choice butcher cattle, especially cows and heifers. Sales were made in small quantities as the supply was comparatively short. Best cows, \$7.75 to \$6.25; heifers, \$7.25 to \$7.50, choice bulls, \$5.50 to \$6.00, and choice light calves at \$9.00.

The hog market was steady to higher. One load of extra fine hogs

sold for \$9.40 Friday morning. The bulk of light swine sales, \$9.15 to \$9.50. Puget Sound packers have been liberal buyers on the market, and the light run was quickly absorbed. Swine prices are apparently on a heavy basis, at least for the present.

Sheep house business has been slow all week. The demand for

both mutton and lambs has been light, and the trade has shown no sign of improvement whatever over the previous week's market. A liberal top is 6c, as some very good stock sold at that price. Prime killing ewes at \$4.00, weathers at \$4.25 and yearlings at \$4.50 are extreme quotations in the mutton division.
