Memorize: "Have good will to all that lives, letting kindness die, and greed and wrath, so that your lives may be made like soft airs (of music) passing by."—Buddha.

Buddha founded one of the heathen religions of India, but yet he taught us this! Do we followers of Jesus put away unkindness, greed of money and anger? See Colossians III, L. 12.

College Home for the Public School Girls

DEAR FRIENDS:—Here is our Cottage Boarding Home under a new name.

We are now ready to receive applications for senior girls attending the high school or for junior girls attending the grammar school. I, myself, promise each and every girl a warm loving welcome, a mother's care and a tutor's help as a university graduate. We hope to have French and German spoken in the home and free conversation classes in both languages. Pianos will be available and Miss Williams of Oberlin Conservatory will attend the college for music pupils. Healthy amusements and social evenings will be arranged for our students and their friends. The charges are merely to meet bare expenses. Prof. Myers says he is ready and willing to give our College Home his moral support. Students may enter the College Home under one of three propositions:

- 1. If students are willing to take their share in the general home work the charges are 75 cents per week for the Home accommodations with all its comforts and privileges. \$2 per week for food.
- 2. If students do not wish to do any house work or are too young to do so, an extra charge of \$2 per week will be made to pay another student to work for them.
- 3. Students can earn their own fees by working for juniors or extra payment students. All students are required to supply bed, bedding, house linen, crockery for self, and one chair for common dining hall.

To conform to a few necessary home rules. The success of the College Home depends, dear friends, upon your appreciation of our efforts on behalf of your girls.

Please send in applications for admittance to the College Home at once if possible or not later than September 1.

Address all letters to Mrs. Holloway, Prineville, or call and see me at Furniture Exchange, opposite Union church, at 11:30 a. m. or 5 p. m. Yours sincerely, L. A. HOLLOWAY, M. A.

Weather Conditions at Prineville

July 31 to August 6, 1913

Prineville and immediate vicinity has experienced the hottest weather of the season during the past week. While the official thermometer has registered higher than in many places in the state, the heat has done comparatively no damage in this section. The occasional showers and cloudy weather have afforded much relief. We understand the hay and harvest hands have not been delayed because of the hot weather. Mrs. T. M. Baldwin gives the following official report:

Thursday, July 31	98	.8
Friday, Aug. 1	101	Trace
Saturday, " 2	94	.4
Sunday, " 3	90	.1
Monday, " 4	92	.0
Tuesday, " 5	90	.0
Wednesday, " 6	85	.0

July 31st was the hottest day in that month.

Forbes Appointed to Celilo Commission

C. N. Arthur, speaker of the house in the recent legislature, has announced the appointment of Vernon A. Forbes, of Bend, as one of the two house members of the Celilo commission. Mr. Forbes was a representative from this district in the legislature. James D. Abbott, of Portland, Multnomah representative, is the other house appointee.

President Dan J. Malarkey, of the senate, has not yet announced the names of the two appointees from his body. The commission is empowered to act with the state engineer in investigating the power possibilities of the Celilo Falls on the Columbia River for which work \$15,000 was appropriated. It is also authorized to enter into contract with the state of Washington or with the Federal government, should co-operative development of the project seem advisable.

The appointment of a Bend man to this important post is regarded as a feather in the political cap of Central Oregon.—Bend Bulletin.

Another Fire at Bend

A two-story rooming house at Bend owned by H. D. Brown was destroyed by fire yesterday morning. The loss is \$4500 with insurance of \$4200. No lives were lost but many of the guests lost all their personal belongings. The fire is supposed to have originated from a stove in one of the vacant rooms. Mr. Brown expects to rebuild with stone or brick.

Laidlaw Experiences Electrical Storm

A few days ago Laidlaw had one of the worst rain and lightning storms it has had for years. The total rainfall was 1.75 inches and is said to have done much good to the crops.

The only damage done by the lightning was where a heavy bolt struck the Bell Company's line where it crosses the Laidlaw-Bend road at the top of the grade. Several poles were splintered and a lot of wire was melted, thus putting the phone lines out of commission for a short time.

The Fire Bug and the East Wind.

"No, I'll not burn my slash this spring"
The moss-back logger said,
"I'll trust to God and luck again;
Expense is what I dread."

"It's time to hit the trail again."
The careless camper said,
And he left his little fire ablaze
Within its leafy bed.

"I'll light another cigarette,"
The idle loafer said,
And chucked his old snipe in the
brush,
One end still glowing red.

"Let's punch the screen out of the
stack,"
The donkey fireman said,
And so he did and all the sparks
Sailed blittnely overhead.

"Come on, we'll dump our ashes
now,"
The railroad trimmen said.
The train soon fanned them far and
wide
As on its way it sped.

"Good time to fire my slashing
now,"
The thrifty rancher said,
And touched it off without a thought
Of how far it might spread.

"Millions in lives and timber lost,"
The newspapers next said,
What made those fires all start at
once,
We wondered as we read.

"It wasn't us; it was the wind,"
The fools in chorus said,
So they're alive and loose this year,
We hope the wind is dead.

A Steady Stock Market

Owing to heavy receipts of cattle here this week the market has taken a drop of from 25c to 50c and the demand being somewhat slack, it has been a little hard to dispose of anything but strictly choice stuff at last week's prices. However it will be readily seen by the following sales made by us that prices on real choice stuff have remained steady.—50 steers averaging 1190 pounds @ \$8.50, 61 steers averaging 1173 pounds @ \$8.15, others at \$8.25 and \$8.05. Fancy heifers at \$7.75, and cows at \$7.50 and \$7.25. Calves and bulls steady with last week, and strong.

The majority of this week's shipments have been half-fat stock, and it is on this class of stuff that prices have decidedly dropped, also buyers are discriminating particularly against horned cows which have not had their horns cut or tipped before shipping, as they have arrived on this market in a badly bruised condition. If receipts continue to be heavy, prospects are for a slightly weak market, except on extra prime grades.

The Hog market has also dropped from 25c to 50c, and today's market stands around \$9.55. However, for the class of hogs selling today at \$9.55, this is a better price than the 10c mark of last week. As long as hogs continue to be scarce, we look for the market to remain around present prices.

The sheep and lamb situation remains about the same as last week, receipts continue heavy, and prices are practically unchanged.

Herculaneum and Pompeii.

Pompeii was buried in ashes or light scoria, while Herculaneum was entombed in lava, which, after cooling, hardened into a material of the consistency of marble, and we thus have the explanation of the fact that while the first city has long been unearthed the latter is still largely covered with its ancient lava shroud. Excavations are constantly going on at Herculaneum, and the work will in all probability continue to the finish, but it is not likely that any especially important results will accrue, since the life of the two cities was practically the same.—New York American.

Rational Love. "The rational rather than the romantic view of marriage is the one most in favor with the young people of the twentieth century," said a well known eugenic expert in an address in Cleveland. "The rational view will make for happier marriages. And this rational view is beautifully illustrated in two questions—a little dialogue—running thus: "Will you always love me?" "Will you always be lovable?"—New York Tribune.

Antiquity of the Census. The idea of the census is almost as old as history itself. King Amasis of Egypt took a census of his people 500 years before Christ. The Athenian solon established a census for the purpose of facilitating taxation. We learn that about 443 B. C. Servius Julius took a census of Rome. During the chaos of the dark ages the census dropped into oblivion, but was revived again about the beginning of the eighteenth century.

"Eh?"
"Do you object to that?"
"Not altogether. There's some of 'em I might as well forgive. I ain't big enough to lick 'em."—Louisville Courier-Journal.
