

# GOVERNOR DENIES MISUSE OF FUNDS

### Accounts Carried With Stock Brokers Not Gambling, Says Sulzer.

Albany.—After a long conference with some of his close political advisers, Governor Sulzer issued a short statement, denying absolutely that he ever used campaign funds for speculative purposes. He says he never heard of the stock brokerage firms of Fuller & Gray and Boyer & Griswold, alleged transactions with which figured largely in the testimony before the Frawley legislative committee until these names were brought out before the committee.

The governor admits he did apply certain campaign contributions to his personal use, but adds that he made the amount good. He also admits having transacted with the stock firm of Harris & Fuller, but insists that his accounts with this firm was not speculative and consisted of a loan on stock and collateral. He denies that he ever speculated in Wall street.

The report of the Frawley legislative committee, charging Governor Sulzer with having diverted campaign contributions to his own private use, was adopted by the legislature and a resolution to impeach him for "wilful and corrupt conduct in office and for high crimes and misdemeanors" was offered in the assembly by Majority Leader Levy.

The conclusions of the Frawley committee, embodied in its report to the legislature are that Governor Sulzer falsified under oath his campaign contributions account, diverted some of these contributions to the purchase of stock, speculated in stock at the time that as governor he was earnestly pressing legislation against the New York Stock Exchange.

# JAPS EVADE RESTRICTIONS

### Oriental Cross Pacific and Are Captured on California Coast.

Point Arena, Cal.—Following the report sent by wireless by the steamer Henry T. Scott that a Japanese junk had been sighted off the coast near here, Constable Ketchum arrested 15 Japanese as they were unking their way through the woods. This is the second capture of the sort that has been made on the coast line north of San Francisco within the past two weeks and it leads immigration officials to believe that venturesome Japanese have hit on a new method of evading immigration restrictions, a method that consists of crossing the Pacific ocean in flimsy fishing boats. One of these vessels is being held at Eureka now, a craft 50 feet long by 12 feet beam, and held together by ancient wooden clamps.

The Japanese held here have been unwilling to give an account of themselves.

# JOHN LIND REACHES MEXICAN CAPITAL

Mexico City.—John Lind, President Wilson's personal representative, who arrived here safely late Sunday night and after spending the night at the Hotel Laseurain moved to the American embassy. Lack of interest in Lind's coming, and consequent absence of disturbance, was due largely to the fact that a great demonstration in favor of Huerta was in progress when Lind reached the city.

Nelson O'Shaughnessy, the American charge d'affaires, acting under instructions of Secretary of State Bryan, delivered a note to the foreign office expressing the appreciation of the United States for the courtesies thus far shown to Mr. Lind. These courtesies consisted of a call on President Wilson's personal representative by the commander of the garrison at Vera Cruz and a large display of police about the station when he arrived in the capital.

Oregon Printing Secretary Named. Salem, Or.—W. M. Plimpton, for three years superintendent of the state printing plant under the late W. S. Dunaway, was made secretary of the department by the state printing board. Mr. Plimpton will receive a salary of \$2000 a year and the flat salary bill under which the appointment was made gives the secretary as much power as the state printer, if not more.

Stevens' Firm is Pressed. New York.—The John P. Stevens' Construction company, whose president, John P. Stevens, was appointed by Theodore Roosevelt, chief engineer of the Panama Canal and resigned under the Taft administration, filed a voluntary petition in bankruptcy.

Girl in Brief Attire Fined. Savannah, Ga.—Recorder John E. Scharz fined Bessie Carter \$50 for appearing on Savannah's main shopping thoroughfare in a short skirt and low-cut waist. Henry Smoak, her escort, paid \$25.

# CANADA OBJECTS TO HINDUS

### Plan to Land 100,000 Moves Government to Act.

Vancouver, B. C.—That a well-developed scheme has matured to bring upwards of 100,000 Hindu men and women to Canada by the direct line of steamers, which it has been rumored is to be started between India and British Columbia, is the report that has been received from confidential agents of the Canadian government immigration department.

The question was officially taken up in Ottawa, where the government has decided that, though they are British subjects, they cannot be allowed to land. It is alleged that so carefully have the plans been made that every newcomer will be provided with the \$25 imposed by the government on every prospective immigrant.

# Webb Liquor Bill Held Void.

Ottawa, Iowa.—Judge F. M. Hunter of the state district court ruled that the Webb-Kenyon law prohibiting the shipment of liquor from wet to dry states is unconstitutional "in that it is a delegation by congress to the states of power of regulating interstate commerce of intoxicating liquors, which power is vested in congress exclusively."

# Knights Templars in Denver.

Denver.—Knights Templars from all over the United States gathered in Denver for the 32d triennial convocation of the grand encampment, which opened its sessions in El Jebel Temple Tuesday afternoon. On the grand parade, on Tuesday, fully 30,000 Templars, in full uniform, were in line.

# SEVERE DROUGHT HITS MIDDLE WEST

Kansas City, Mo.—The great grain-growing states of the central west—Kansas, Missouri and Oklahoma—have been facing the greatest combined drought and heat wave since 1887.

Crops are withering under the burning rays of the sun, whole herds of livestock are reported to be in danger of dying because of lack of water, citizens are sending out appeals for water to replenish empty wells and cisterns, and fire departments in nearly every city of the three states have issued warnings of the grave results that may follow even a small fire.

The heat wave is amazing. For five consecutive days the government thermometer in Fort Riley showed maximum temperatures of 100 degrees. For five days and four nights the mercury did not drop below the 70 mark in Topeka, and the heat has reached the 100 mark every day. Practically the entire region within the three states has been engulfed in temperatures in excess of 100.

Heavy rains, which were general from Nebraska to western New York Sunday finally broke the heat in portions, at least, of the east central and west central states and will be of great benefit to what remains of the corn crop.

# NEWS FROM OUR NATIONAL CAPITAL

### Administration Positively Refuses to Recognize the Huerta Regime.

Washington.—A two hours conference between President Wilson, Secretary Bryan and the senate foreign relations committee brought about no change in the attitude of the administration toward Mexico.

The president took the senators into his confidence far enough to outline the following:

That John Lind, his special envoy to Mexico City, does not bear any solution of the present situation, but goes to continue this government's effort to induce Provisional President Huerta to redeem his promises for free and constitutional elections.

That under no circumstances does the administration propose to recognize the Huerta government.

That Mr. Lind has gone to Mexico City to be the "eyes and ears" of the Washington administration on the ground and to explain the attitude of this government when he had fully familiarized himself with the situation.

That by withdrawing Ambassador Wilson and sending Mr. Lind, the president planned to have a man on the ground who was in sympathy with the administration here and was in no sense a factor in the situation in Mexico City.

The meeting was entirely friendly. The president did most of the talking and Secretary Bryan and members of the committee added a word here and there.

While the president disclosed no definite plan for the pacification of Mexico, the implication remained that on Lind's reports would depend to a large extent the future policy of this country.

# Mexican Situation is Much Relieved.

Distinct relief is apparent in official circles here over the course of events in Mexico. The statement of Frederic Gamboa, the new Mexican minister of foreign relations, that he had "great faith in the reasonableness of the judgment of the United States," holding the conviction that the difficulties between the two countries "soon would be adjusted," produced a very favorable impression in administration circles.

President Wilson pointed out to callers what seemed to him conspicuous efforts on the part of persons unknown to him through published misrepresentations to involve the United States in intervention. He reiterated that the attitude of his government toward Mexico in the present situation was one of peace and friendliness solely.

With the air cleared of rumors of hostility in the Mexican capital to Mr. Lind's presence there officials were disposed to believe the programme of the American government would be carried out quietly and in such manner as seemed most expedient to Mr. Lind and the embassy at Mexico City.

# Espionage Over Judges Charged.

Replying to a senate resolution demanding the information, Attorney-General McKeenolds admitted and defended the course of the department of justice in conducting investigations into certain judges. He refused, however, to say which judges were subject to inquiry, declaring it "incompatible with the public interest" to make the information public.

This report aroused a storm of protest, which Senator Borah, of Idaho, led.

"I know this is a very serious charge," said he, "but I am so reliably informed that I make the statement that within the last four or five years special agents have carried on such investigations with a view to influencing judges."

# National Capital Brevities.

The death of Senator Johnston, of Alabama, has reduced the Democratic majority on the bill to one vote.

The first of the international peace treaties embodying Secretary Bryan's plans has actually been signed. It was between the United States and Salvador, and soon will be sent to the senate for ratification.

The end of the senate lobby committee's investigation is not in sight, according to Senator Reed, a member of the committee.

Senator Williams, of Mississippi, in debate stated that he was convinced there was an "organized and syndicated effort" to bring about war between the United States and Mexico.

Senators are divided on the question whether Governor O'Neal, of Alabama, can call an election to name a successor to Senator Johnston without first calling a session of the legislature to provide election machinery under the new federal amendment.

Following a conference of treasury officials and bankers from the middle west, regarding the distribution of government funds to assist in moving crops, Assistant Secretary of the Treasury Williams declared that the government was prepared to deposit \$100,000,000 if necessary.
