

Children's Corner

Crook County League

DEAR MEMBERS:—Do not forget to cut this letter out and put it into your Bible each week until your league cards arrive; and then be sure to read your daily portion:

Sunday, August 17—Luke 19, 25-38
Monday, " 18— " 21, 1-13
Tuesday, " 19— " 22, 14-23
Wednesday, " 20— " 22, 24-38
Thursday, " 21— " 22, 39-53
Friday, " 22— " 22, 54-71
Saturday, " 23— " 23, 1-12

Mothers, please choose one verse and read it to your little ones as their daily creed. See Matthew IV, 4.

Memorize (to be ready for prizes at fair time): "Life is short, and we have never too much time for gladdening the hearts of those who are traveling the dark journey with us. Oh, be swift to love, make haste to be kind!" Sincerely,
L. A. HOLLOWAY, M. A.

Hadleigh College, School and Kindergarten

Opens Sept. 1 in Jordan Building

Principal, Mrs. L. A. Holloway, M. A., Honorary Scholar of Melbourne University, Australia, for eight years principal of a large college in Melbourne. Assisted by a trained kindergarten teacher and later on by other teachers.

Piano Music, Miss B. Williams, Violin, Mrs. Edwards.

Fees, \$5.00, \$4.00 and \$3.00 per month according to grades. When members increase fees will be reduced.

Scholars can be enrolled at 11:30 a. m. and 5:00 p. m., at Mr. Peterson's furniture exchange, opposite the Union Church.

HADLEIGH

Jordan Building, Prineville

College Home for the Public School Girls

DEAR FRIENDS:—Here is our Cottage Boarding Home under a new name.

We are now ready to receive applications for senior girls attending the high school or for junior girls attending the grammar school. I, myself, promise each and every girl a warm loving welcome, a mother's care and a tutor's help as a university graduate. We hope to have French and German spoken in the home and free conversation classes in both languages. Pianos will be available and Miss Williams of Oberlin Conservatory will attend the college for music pupils. Healthy amusements and social evenings will be arranged for our students and their friends. The charges are merely to meet bare expenses. Prof. Myers says he is ready and willing to give our College Home his moral support. Students may enter the College Home under one of three propositions:

1. If students are willing to take their share in the general home work the charges are 75 cents per week for the Home accommodations with all its comforts and privileges. \$2 per week for food.

2. If students do not wish to do any house work or are too young to do so, an extra charge of \$2 per week will be made to pay another student to work for them.

3. Students can earn their own fees by working for juniors or extra payment students.

All students are required to supply bed, bedding, house linen, crockery for self, and one chair for common dining hall, and to conform to a few necessary home rules.

The success of the College Home depends, dear friends, upon your appreciation of our efforts on behalf of your girls.

Please send in applications for admittance to the College Home at once if possible or not later than September 1.

Address all letters to Mrs. Holloway, Prineville, or call and see me at Furniture Exchange, opposite Union church, at 11:30 a. m. or 5 p. m.

Yours sincerely,
L. A. HOLLOWAY, M. A.

Campaign is Begun on Jackrabbit Pest

This paper has received and printed several communications concerning the jack rabbit pest in Crook county and since we are not mentioned in the following article it is time this county got busy and brought the attention of this commission to the extermination of rabbits in Crook county.

First definite steps on the part of the state of Oregon to exterminate the pest of jackrabbits which has been on the increase in eastern Oregon for years were taken yesterday by the commission recently appointed by Governor Oswald West. A meeting of the commission was held at which the ways and means of giving relief to the farmers of Malheur, Harney, Lake and Umatilla counties were discussed. The consensus of opinion was that the concerted "drive" is the most efficient method.

Present at the meeting were Game Warden William L. Finley, State Veterinarian W. H. Lytle, L. A. Lewis and Professor H. W. Henshaw of Washington, D. C., chief of the biological survey of the department of agriculture. Mr. Henshaw happened to be in the city and was called upon to give his expert advice and suggestions. He pledged the cooperation of the survey, and said the department might send a man to Oregon to assist the commission in planning the crusade.

Mr. Henshaw has made a life study of animals, particularly the wild species of the United States. His studies have taken him all over the world, and he has made particular study of the rabbit pest in Australia. He told of the inefficacy of inoculation as a remedy, declaring the injection of disease germs into rabbits, which were afterward turned loose among their kind, had suown little if any real result.

The commission decided that it would encourage the killing and marketing of jack rabbits in larger numbers than hitherto. It will insist, however, that the animals shipped to the cities for food must be properly dressed, just as are chickens or turkeys, so the flesh will be wholesome and the display in the markets attractive.

The commission also will encourage the use of the fur or hide of the jack rabbit to a more extensive degree. Information secured from Australia tells of the value of these skins, the whole idea in the southern continent being to exterminate the rabbits wherever possible and to commercialize all the others.

"The value of the rabbit drive is proven in eastern Oregon, where between 16,000 and 18,000 were killed in three drives," said Mr. Finley after the conference. "The virus method is regarded as worthless; the surrounding of land with rabbit proof fencing brings only fair results. However, we are gathering all the data we can and will get the aid of the biological survey to help us out."

The increase in the number of rabbits is due to the killing off of the coyotes, which are the natural enemies of the bunnies. With the coyotes less numerous, the rabbits have had a chance to multiply faster than the casual hunter can pot them, until they have caused immense damage to the crops and gardens.—Oregonian.

Will Exchange for Wood.

If you have wood and want a sewing Machine, don't wait any longer. We have the New Home, the New Royal and Bonita that we will trade you. All first-class machines. M. Kanatra, the Jeweler, Prineville. 6-26

Wanted

Reliable woman or girl for permanent position in small family in country. Inquire this office. 7-24tf

To Exchange

Will trade timber claim for automobile. Address P., Journal office. 7-19-1m

Signal Code and Suggestions for Hunters

The newspapers have already reported several deaths resulting from hunters shooting at moving objects in the brush. Every season the papers are full of these sad stories and only too late does the hunter learn that he has snuffed out a precious life.

The State Board of Fish and Game Commissioners have devised a system whereby much of this accidental shooting may be prevented and the lost or distressed hunter found.

State Game Warden William L. Finley has sent these suggestions and regulations to every gun club in the state as well as to newspapers and other organizations. He asks every man who invades the woods to observe these regulations. The observance of these rules and the memorizing of the distress signals that follow, may be the means of saving some life:

To prevent accidental shooting, every hunter should wear a red cap, shirt, or sweater, or some other article of clothing that can easily be identified from game birds and animals, especially when hunting deer in the forests. Since there is a contrast between red and the color of any bird or animal that is being hunted, this color will serve the best purpose.

Hunters should never shoot at moving brush, leaves or grass with the expectation of killing game. It is dangerous, for the moving object is likely to be a man. Never shoot at any object until you are absolutely positive of identification.

To prepare for an emergency every hunter and angler should carry in his pocket a piece of candle and matches in a water tight match safe. In case of becoming lost or injured, one can readily start a camp fire.

Lost or distress signal: When a man is lost or injured and needs help, a signal by shooting should be given. This signal will be the firing of a gun once, with an intermission of sixty seconds before the second shot, then an intermission of sixty seconds, then a third shot. If no answer is received, this signal should be repeated after an intermission of five minutes. The answer to this signal would be a single shot from the rescuing party, followed by one recognition shot from the lost man.

Care should be taken to get the time between shots as accurately as possible. Hunters should keep in mind this signal and if possible avoid giving it when shooting game. In the absence of a watch the time can be judged with sufficient accuracy by counting ten between the first and second shots and sixty between the second and third shots. Whenever a shot is heard in the mountains a hunter should count ten to determine whether it is a distress signal or not.

The person who is lost should, after hearing an answer to his signal, remain in the place where he gave the signal until the rescuing party arrives, otherwise he may take the opposite direction and not be found at all.

Lumber for Sale

Rough lumber of all kinds, good quality, for sale at the Russell Saw Mill on Vezie Creek. Also 16-inch wood at \$1.25 a load. A load means all that two horses can pull. Don't forget the place. 7-17

Laundry

Leave Your Laundry at Dick Darling's barber shop. Sent to Bend every Monday. Luckey Bonny, local agent. Notify him and he will call for it. 7-3 J. EDWARD LAMBSON.

For Sale Cheap

Six lots with good house, barn and outbuilding, all under fence and improved. Also has shade trees and a good garden. Address lock box 444 or inquire at this office. 7-31

Lost.

On the stage road between Sisters and Prineville, Tuesday, July 15, one lady's small handbag. Leave with C. L. Shattuck, Prineville, and get reward 7-17

Timber Claim for Sale

Timber claim, 10 miles from Prineville for sale cheap for cash. Apply to S. A. Prose, Prineville, Ore. 6-29 Impd

For Trade.

40 acres one mile from Oregon City to trade for irrigated land. See D. H. Peoples, Adamson bldg. 7-24tf

Melville Sewing Machines for rent. J. E. Stewart & Co. 5-1

The Forest Insect Ravages Stopped

The department at Washington is using the Ochoeco National Forest near Prineville as an experiment to demonstrate whether or not the pine bark beetle can be destroyed, and has the following to say concerning this experiment:

By a prompt campaign against a flourishing colony of bark beetles on the Ochoeco National Forest in Central Oregon, the government is eliminating a danger which threatened to destroy millions of feet of timber.

Some authorities claim that the amount of timber killed each year by insects is equalled only by the annual loss from forest fires. Among the most destructive of these insect enemies are the bark beetles, one of which, the mountain pine beetle, is responsible for most of the damage on the Ochoeco forest. This deadly little beetle is less than a quarter of an inch in length, but bears the ponderous scientific name of Dendroctonus Monticola Hopk., which, being interpreted, signifies killer of the mountain pine tree, discovered by Hopkins.

Its methods of operation are interesting. The mature beetle bores through the bark of the tree and excavates a gallery in the inner living bark and in the outer surface of the wood in which it lays its eggs. When hatched each young larva or beetle grub, channels into the growing portion of the trunk, feeding upon the inner bark. When fully grown, the larvae, after passing through a dormant or pupal stage, becomes a beetle. This beetle then drills out through the bark in July, and emerging into the world seeks a fresh tree and starts a new generation. With this "chain letter" method it soon infests a large area. The galleries or channels of the larvae girdle the tree and kill it, and the beetle's presence is usually discovered, as it was in the Ochoeco forest, by a patch of red-brown dead pine trees in the midst of a mountain-side of green.

In fighting this forest scourge, the method recommended by the Bureau of Entomology is followed. The simple removal of the bark of infested trees between October and July, while the larvae are still in the tree, is sufficient to kill them. The lumber may then be sold while it is yet sound. On the Ochoeco forest, however, there was no market, and the forest officers found that the cheaper and more effective method of control was to cut the trees and burn them before the new broods of beetles could emerge. In 1912 the infestation was given a decided check by the cutting of 3,500 trees. This summer the attack on the insects was resumed with renewed vigor, and 42 laborers, in charge of a forest officer, cut more than 13,000 trees. As a result of these vigorous measures, the government apparently has the beetles under control.

For Sale.

One header and three leaderbeds, 2 plows, 3 wagons, 1 single buggy, 2 work horses. Prineville. Feed & Livery Stable, opposite postoffice. 7-17

For Sale.

Two houses on north side; one finished, 5 rooms; the other has 10 rooms, not all completed; good garden, chicken park, etc. Price, if taken at once, \$3000. Address A. W. White, Prineville. 6-26-1m

Header for Sale

One 10-foot Deering header and three header boxes, to be had at a bargain. Phone or address L. D. Lafolette, Prineville, Ore. 7-31-1

For Sale.

A 45-horse power Case traction engine and log trucks. Will sell on reasonable terms. R. E. Jones & Co., Howard, Ore. 7-3

Wood for Sale.

Wood for sale at \$4.75 and \$5 a cord at the yard; 50c extra per cord delivered. P. L. & W. Co. 1-16

Lost.

One Airedale terrier dog and one Airedale puppy. Answer to names of Bob and Zip. Return to Thos. Sharp Jr., and receive reward of \$5. 8-7-1f

For Sale

A match team of black horses, 5 and 6 years old. See Chas. F. Conard. 8-7-1f

Lots for Sale Cheap

Residence lots, close in, near public school. Inquire of Wade Houston. 7-3

Notice of Assessment for Street Improvement.

Notice is hereby given that a special meeting of the city council of the city of Prineville, Crook county, Oregon, called for that purpose and held on the 25th day of July, 1913, pursuant to ordinance No. 204 of said city, providing for the laying and constructing of cement sidewalks and crosswalks on both sides of "A" street between Second street and Fifth street in Prineville, Oregon, the council proceeded to ascertain and determine the probable cost of making such improvements, and did at this time assess upon each lot and part of lot and parcel of adjoining land liable therefor, its proportionate share of such costs as follows, to-wit:

On the East Side of "A" Street.
