Last Sunday the excursion train from Seattle carrying 75 passengers to Bend was held up two miles north of that town by four business men of Bend. The usual procedure of lining the passengers up, etc., was carried out. Soon it was learned that it was all a joke and when the moving picture machine began making films everybody was glad to have been victims of the would-be desperadoes. The excursion party left for Portland and Seattle Monday.

Prof. W. L. Powers, general superintendent of the demonstration farms in Central Oregon, was in Crook county last week checking up results of what was done here this summer and getting things in condition to leave until such a time as our county court realizes the necessity of meeting the requirements of the state and makes the necessary appropriation for this work. The failure of the county to make this appropriation has resulted in loss to our farmers and it is to be hoped the court will now make the necessary provision for carrying on these demonstration farms.

### Government will Help Move Crops

Secretary McAdoo has prepared to distribute the promised \$25,000,000 to \$50,000 of government funds to the agricultural regions of the south and west. The secretary is receiving information as to the needs of districts where harvesting is now under way, and expects to have the money in banks in ample time for the movement of crops. It is expected that the secretary's plan would be a powerful factor in averting or relieving the prospective tightness of money characteristic of the crop-moving season. The money will be placed in the banks of the large cities in the agricultural regions of the south and west on the condition that they will distribute the money to the country banks at reasonable rates of interest.

The "Story of the Cadillac," is one of that mechanical and commercial advancement which makes for permanency. The Cadillac Company has never yielded to clamor by producing that which catered merely to fancy, nor that which took advantage of the uninformed. On the contrary it has produced only that which it knew would give to the purchaser "value received" in abundant measure. The Cadillac Company has never been obliged to resort to exaggeration and over-drawn claims to dispose of all the cars that it could make—and more. Its policy has ever been to under-claim rather than over-claim. It is gratified that the public accepts its representations at their full worth; because the public has never been misled and because the public could always expect and has always received more than was offered.
