Girl Saved From Drowning Father Eugene .-- Rushing into the swift current of the Willamette river to her armplts, Mrs. E. C. Government Agent Finds 20,000 Have Been Fooled by Crooked Locators

Portland .- Investigation of fraudulent locators who located victims on tracts in the railroad land grant which was recently declared forfeited to the government will continue for several weeks. The fraud has been so extensive and there are so many victims and locators that the government authorities have a veritable mine of evidence.

During the time the government was preparing the bring suit for forfeiture of the many millions of acres in the land grant, the country was flooded with the advertisements of men who offered to locate people on choice sec tions which they could buy for \$2.50 an acre, either from the railroad or the government, depending which won the suit. Thousands of people became interested and accepted the offers. There then sprang up a crop of locators, who would locate a victim on a likely-looking tract of timber and charge a substantial fee for the trouble. There are instances where a dozen or even 20 people have been located on the same identical tract of timber. and the locators charged anything they could get.

As near as the officials have been able to learn, there have been 20,000 locations made.

Five Solid Reasons

FIVE solid reasons why each farm needs a manure spreader are these, in the words of a farmer who has TE devoted much time to correct soiland hard work. 2. It pulverizes and mixes the manure mass. 3. It distributes manure evenly over the field, insuring a good, even stand of grain. 4. It prevents loss of nitrogen through fermentation or leaching in the pile through fermentation or leaching in the pile when manure is hauled directly from the stable. Indirectly, the ease with which it can be handled encourages the owner to care for the manure and distribute it on the fields carefully instead of wasting it.
