To the Boys and Girls:

The earlier school fairs are already being held and at the end of another month most of them will be a matter of history. Every one connected with the work is anxious that that history read satisfactorily. This is about the last opportunity we shall have to call your attention to your exhibits for most of your work has already been done.
Just a word about exhibiting. The intrinsic value of the prize you are competing for is of little importance compared with the habits of industry you are forming and the experience you are gaining in learning how to do some practical thing well. If you borrow something to show or take something to the fair you have not raised or made, you will fail to get the value out of it that you should. Do not understand that you should take nothing to the fair that is not entirely the product of your own effort. Some of the fairs, especially those arranged for late in the season, do not require you to do all the work. Where this is the case I would urge you to take everything you can under the rules that will make a good showing. Take pride in assisting to make your fair a success. Where the rules require that you do all the work yourself, as they do at the state fair, do not try to evade them. We might deceive every one but ourselves, but a clean conscience is worth everything. If we never do the first little dishonest trick, we will avoid a lot of trouble in this life. This is on the same principle as never taking the first drink to avoid being a drunkard. It is a safe rule.
Do not overlook the county and district prizes at the state fair. It is a fine thing to cultivate local pride and patriotism. Team work aids in developing this spirit, so join with your fellows and do your part to help your district and your county to have the banner exhibits. Co-operation is becoming more essential every day, and you can not begin too early in life to practice it. Wishing you all success, and hoping to meet a great many of you at the fair, I remain,
Yours for better boys and girls,
C. N. MARIS,
Field Worker Industrial Fairs.

Powell Butte
