## Ladies' Annex Begins Work

The first regular meeting of the Ladies' Annex was held Tuesday afternoon in the ladies' parlors.

Several plans and suggestions were discussed for improvement and growth along various lines. A committee of five was appointed to establish and plan for a civic improvement department. This committee is to work in connection with the city council for a cleaner and more beautiful town.

Ten dollars was set aside for this committee to use in purchasing suitable bulbs for fall planting. These bulbs are to be distributed among the boys and girls who are willing to work to help beautify Prineville.

A committee consisting of Mesdames Morse, Hyde, Rosenberz, Clifton and Lucile Cook was appointed to make arrangements for the annual teachers' reception which this club tenders to all who come to the Institute each year.

It was decided that each one present should make an extra effort to secure new members. It was voted to suspend the membership fee of \$2.50 from now until the first of the new year, thus allowing all new members the full privileges of the club, including the library, tennis courts and other social privileges for the yearly dues only.

The club meets regularly on the first Tuesday afternoon in each month. All members are requested to be present at the next meeting to suggest and further discuss plans for the coming year's work.

## Miss Blanche Wilson Breaks Her Arm

Miss Blanche Wilson, while cranking her little runabout Sunday in front of Mrs. John Wigle's home on First street, had her arm broken at the wrist from a backfire. The accident, of course, was not the fault of the car. Instructions are positive to retard the spark and if you fail to do so you must accept the responsibility. Miss Wilson could handle her auto like an expert but familiarity makes one careless and this time she got caught. Dr. Rosenberg attended the injured young woman and reports his patient doing well.

The "Story of the Cadillac," is one of that mechanical and commercial advancement which makes for permanency. The Cadillac Company has never yielded to clamor by producing that which catered merely to fancy, nor that which took advantage of the uninformed. On the contrary it has produced only that which it knew would give to the purchaser "value received" in abundant measure. The Cadillac Company has never been obliged to resort to exaggeration and over-drawn claims to dispose of all the cars that it could make—and more. Its policy has ever been to under-claim rather than over-claim. It is gratified that the public accepts its representations at their full worth; because the public has never been misled and because the public could always expect and has always received more than was offered.
