## GRASS WALKS AND STEPS ADD TO ANY CITY OR PARK

Sloping Ground Terraces Necessary  
For the Best Results.

Many gardens in England owe their beauty in no small measure to the velvet grass steps and walks that link together one feature of the garden with another. Grass walks are pleasant to walk upon and are pleasing to the eye. Moreover they enter into perfect har-

GRASS STEPS IN ENGLAND.

mony with the surroundings, whether it be trees, shrubs or herbaceous flowers.

A flower fringed grass walk is always a pleasant feature, but such a walk must be laid with care. Unlike gravel walks, which should have a concave surface, grass walks and steps must be level, and this means perfect drainage—a most important item, for if badly drained a walk of this kind would be a source of inconvenience after heavy rains. On sloping ground terraces are necessary. They require the same care that one would devote to a well kept lawn, but no more, once the effect is secured.

There are few steps of this kind in America, but they abound in English gardens. There is no reason why they would not remain green throughout the entire year in some sections of this country, and they can be easily substituted for the unsightly stone steps or ragged dirt steps which are common.

## LIGHTING YARDS ADDS TO THE BEAUTY OF SUBURBS

Illuminating Conveniences For the  
Home Should Be Picturesque.

The use of kerosene, gasoline, home-made electricity and acetylene gas are being carefully tested on many farms and suburban estates, out of reach of public service corporations, for supplying lights. The common use of gasoline generators, which have now reached a high state of perfection, has brought them into prominence for outdoor lighting, as well as providing brilliant lights for the house and for cooking purposes. Gasoline lamps for the entrance gate posts, for lanterns set permanently on stable walls and for use within the stables and dairy barns may be enjoyed at little cost when one of these practical gasoline gas generators has been established for illuminating the home and the grounds. Without this plant for general use the plainest types of gasoline lamps, filled and lighted the same as coal oil lamps, may serve as the source of dependable lights for yards and stables.

Many practical and enterprising farmers who are blessed with streams on the home grounds that can be harnessed for the development of power are experimenting with home-made electricity with very satisfactory results. By damming up the stream for satisfactory water power an inexpensive electrical plant may be thoroughly practical wherever there is a stream of water of sufficient size and fall to turn a water wheel. One of the most interesting features in establishing this form of home illumination is the fact that the turbine used to furnish light will also provide power to run various sorts of farm machinery, including the feed mills, the wood saws, corn shellers, etc.

The subject of providing inexpensive and picturesque lanterns for yards and stables, however, need not depend upon the installation of extensive plants, or even the simplest of apparatus for home-made gas and electricity. The cheapest form of steady burning kerosene lamp, set within a lantern of good type, and with a good reflector, is within the reach of every farm owner and renter.

A picturesque setting will cost no more than a lantern position carelessly selected. An ugly post set close beside the driveway, at a dark turn in the garden leading to carriage sheds and stables, will doubtless give just as satisfactory results in the mere form of illuminating as the one set within a clump of flowering shrubs, or evergreen hedges, or dwarf spruces, but there will be no comparison in the decorative value.

# BEAUTIFUL

## BOYS AND GIRLS LEND HELP IN BEAUTIFYING CLEVELAND

Gardens Cared For by Boys and Girls  
Decrease Disease and Crime.

Fully 5,000 public school children of Cleveland, O., gave their help in the city beautiful movement there according to the school director. Under their system it is possible to show in definite terms the results obtained by the young gardeners, the efficiency of the work done, the results obtained and the amount of good accomplished. Statistics and data have been collected showing the decrease in flies and disease and the decrease in the number of juvenile offenders in neighborhoods well sprinkled with gardens.

Both the boys and girls take an active interest in these gardens and immediately after school is out in the afternoons the children gather for work. In Cleveland a temporary building was erected for the storing of the tools. Every Saturday morning during the summer the gardeners hold a flower and vegetable market when they sell their produce. The flowers and vegetables grown are the property of

### YOUTHFUL AMERICAN GARDENER

the children, and they may either sell them or take them home. Records are kept of skill in planting, cultivation, weeding and products. Courses in nature study regarding life processes of plants, insect pests and how to combat them, plant diseases and how to combat them are given in Cleveland and make the garden work of real value to the children.

The large gardens are radiating centers for the neighborhoods in which they are located. They make possible greater efficiency, intelligence and science in the home gardens. Interest in garden work is cumulative. When the children are properly directed their ambition is stimulated, and year after year they will extend their activities and acquire greater success.

### Beautify Your Back Yard.

It is a shame that the words "back yard" should so often call up a dismal picture of dilapidated fence, coal ashes, old furniture and garbage tin. Begin now to interest yourself and your children in the improvement of your back yard. Spend a dollar on tools and the same on flower seeds and make pleasant, healthful occupation for many summer hours. There are a number of hardy annuals that flower profusely and require no scientific care to give good results. Perennials sown at the proper time will give cut flowers every year after the first. It may be pleasant next July or August to sleep in your back yard than in your house under these conditions; also you will find that if the people living in a block get interested in gardening they will not tolerate a lot of useless cats and dogs about, whereby the peace of the neighborhood may be enhanced.

"Who loves a garden still his Eden keeps."—Texas Farm and Ranch.

### Uses of Lime.

Lime is seldom if ever applied to soils by reason of its value as a direct fertilizer. Its chief value lies in its unclotting, unavailable nitrogen, phosphoric acid and potash. We usually apply it to gardens in one of three forms—viz, quicklime, gypsum or land plaster and wood ashes. We would not advise applying it in any form to soil for lawn purposes. Better far to use it on the grass when it shows need of food. It is very beneficial to Kentucky blue grass.

### Climbing Nasturtiums.

Climbing nasturtiums can be combined with those of dwarf habit. Two climbing plants at each of the two corners of the box nearest the window can be trained over a cord or a trellis made of wood which follows the outline of the window frame. It is not well to train any plant on wire, as the wire heats quickly in hot sun, burns the stems twisted about it and ultimately causes the death of the plant.

Violin, Mrs. Edwards.  
Uniform charge of \$3 for all grades.  
Pupils enrolled every day during school hours.

## HADLEIGH

Jordan Building, Prineville

### College Home for the Public School Girls

DEAR FRIENDS:—Here is our Cottage Boarding Home under a new name.

We are now ready to receive applications for senior girls attending the high school or for junior girls attending the grammar school. I, myself, promise each and every girl a warm loving welcome, a mother's care and a tutor's help as a university graduate. We hope to have French and German spoken in the home and free conversation classes in both languages. Pianos will be available and Miss Williams of Oberlin Conservatory will attend the college for music pupils. Healthy amusements and social evenings will be arranged for our students and their friends. The charges are merely to meet bare expenses. Prof. Myers says he is ready and willing to give our College Home his moral support. Students may enter the College Home under one of three propositions:

1. If students are willing to take their share in the general home work the charges are 75 cents per week for the Home accommodations with all its comforts and privileges. \$2 per week for food.

2. If students do not wish to do any house work or are too young to do so, an extra charge of \$2 per week will be made to pay another student to work for them.

3. Students can earn their own fees by working for juniors or extra payment students.

All students are required to supply bed, bedding, house linen, crockery for self, and one chair for common dining hall, and to conform to a few necessary home rules.

The success of the College Home depends, dear friends, upon your appreciation of our efforts on behalf of your girls.

Please send in applications for admittance to the College Home at once if possible or not later than September 1.

L. A. HOLLOWAY, M. A.

## Ladies' Tailored Suits at Reduction.

Mrs. Wright, who represents the American Ladies Tailoring Company, has just received a fine line of samples for fall and winter suits. All who order before August 23d will get a ten per cent discount.

Fresh fruits and berries, ice cream and sodas can always be found at Mrs. Wright's Confectionery Store. 7-31H

## Boarding and Rooming House Opened

Mesdames Roberts and Proze have leased the Clark house and will open a rooming and boarding house September 1st. Teachers, students and others looking for accommodations should call before making other arrangements. 8-21

M. P. Elliott,  
Attorney-at-Law  
Prineville, Oregon.

# DINING ON SHIPBOARD.

Different Now From What It Was  
When Dickens Visited Us.

When Dickens came over to America some seventy odd years ago there was one large table in the dining room for the passengers. The first officer sat at the head, carving the turkey with all the grace he could command between lurches of the good ship, trusting to Providence that the gravy would not slop over. The passengers sent their plates along the line and waited for their belongings.

Today the dining room of a large ship looks like the dining room of a fine hotel. It is just as expensively appointed and has every good thing to eat that can be found on land. In fact, one of the new ships has a restaurant named after a famous one in New York, and the two kept in touch by wireless so that the menus, day by day, are the same. Think of having your dinner arranged by wireless—your macepool by Marconi!

The dining room is divided up into a number of small tables, so that you can have your own party, with only half a dozen of you, with your own waiter. Instead of sitting at a long table and passing your plate, as Dickens did.

The development of the wonders of cold storage has done more than any other one thing to make life on the ocean wave one long round of joy. Cold storage gives you the best in the world to eat and every day of the year. A world traveler was telling me the other day that he had eaten grapefruit every morning all around the world. The ship on which he sailed put in a large amount of ice cream made in New York, and 110 days later, when he arrived in San Francisco, he was still eating New York ice cream.—Harold Christie in Leslie's.

## ROBING THE BRIDE.

Early Saxon Customs and the Advent  
of the Flowing Veil.

In the old days, as now, the bride generally dressed in white. From early Saxon times down to the eighteenth century a bride of the poorer classes came to the wedding arrayed in a plain white robe as a public warning that since she brought nothing to the marriage her husband was not responsible for her debts.

Brides soon began to add some little touch of color. Blue was for constancy and green for youth, but in some places these might not be used because of feuds between families having these tints in their liveries. Yellow might not be worn, as it stood for jealousy; golden might not, as it meant avarice.

The Anglo-Saxon bride went to the wedding with her hair hanging loose as a sign of freedom, but upon reaching her new home immediately bound it up as a sign of submission. In the days of Shakespeare the veil began to take the place of the flowing tresses, but this, however, was not original with the British, for centuries earlier the Roman and Hebrew brides had worn yellow veils, while the early Christians of southern Europe had enveloped both man and wife in one large cloth.

Whatever was lacking, however, in gorgeousness of dress was compensated among all the nations by the profusion of flowers chosen for their significance.—Uncle Remus' Magazine.

## Team and Harness for Sale.

Team weighs about 1250; new harness. Apply to Pamela Barnes on Grater place, half mile east of town on Ochoco. 9-4-213

## Special Pullman to Pendleton

The O. W. R. & N. will send a special Pullman out of Central Oregon over the Des Chutes line for the Round-Up at Pendleton this year, September 11, 12 and 13. This special car will be parked in the local yards along with the other special trains which the road is running into Pendleton, giving the people the advantage of the dining car service which goes with the special trains. The management has made arrangements for taking care of the people who come on this car by reserving a section of the grand stand for them where they will be seated in a compact body.

## Notice for Publication.

Department of the Interior,  
U. S. Land Office at the Dalles, Oregon.

July 28, 1913.  
Notice is hereby given that Henry Grimes whose post office address is Prineville, Oregon, did, on the 6th day of March, 1913, file in this office, sworn statement and application No. 011377, to purchase the sw<sup>1</sup>/<sub>4</sub> sec. 10, township 13 south, range 15 east, Willamette meridian, and the timber thereon, under the provisions of the act of June 3, 1878, and acts amendatory, known as the "Timber and Stone Law," at such value as might be fixed by appraisal, and that, pursuant to such application, the land and timber thereon have been appraised, one hundred dollars the timber estimated at 100,000 board feet at 75 cents per M., and the land \$25.00; that said applicant will offer final proof in support of his application and sworn statement on the 10th day of October, 1913, before Timothy E. J. Duffy, U. S. Commissioner, at Prineville, Oregon.

Any person is at liberty to protest this purchase before entry, or initiate a contest at any time before patent issues, by filing a corroborated affidavit in this office, alleging facts which would defeat the entry.

## Notice of Contest

Department of the Interior,  
United States Land Office,  
The Dalles, Oregon, July 22, 1913.

To Mary Anderson, of Hampton, Oregon, contestee:

You are hereby notified that Mary A. Morgan, who gives Barnes, Oregon, as her post office address, did on July 1, 1913, file in this office her duly corroborated application to contest and secure the cancellation of your homestead, serial No. 06783, made December 21, 1911, for sw<sup>1</sup>/<sub>4</sub> sec. w<sup>1</sup>/<sub>2</sub> sec. 21, nw<sup>1</sup>/<sub>4</sub> sec. 22, township 18 south, range 21 east, Willamette meridian, and as grounds for her contest she alleges that said Mary Anderson has wholly failed to establish her residence on said tract, has totally failed to cultivate and improve the same as required by law and has abandoned the same for more than one year last past.

You are, therefore, further notified that the said allegations will be taken by this office as having been confessed by you, and your said entry will be canceled thereunder without your further right to be heard therein, either before this office or on appeal, if you fail to file in this office within twenty days after the FOURTH publication of this notice, as shown below, your answer, under oath, specifically meeting and responding to these allegations of contest, or if you fail within that time to file in this office due proof that you have served a copy of your answer on the said contestant either in person or by registered mail.

If this service is made by the delivery of a copy of your answer to the contestant in person, proof of such service must be either the said contestant's written acknowledgment of his receipt of the copy, showing the date of its receipt, or the affidavit of the person by whom the delivery was made, stating when and where the copy was delivered; if made by registered mail, proof of such service must consist of the affidavit of the person by whom the copy was mailed stating when and the post office to which it was mailed, and this affidavit must be accompanied by the postmaster's receipt for the letter.

You should state in your answer the name of the post office to which you desire future notices to be sent to you.
