Good Fruit Crop

This Season

The fruit crop this year in Crook county has not been a failure by any means. The apple crop falls short of the bumper yield of last season, but plums, prunes, apricots, crab apples, etc. will be a good crop.

At the Gibson ranch, nine miles north of Prineville, the lessee, F. F. Bowlin, says that while his apple crop will not be as large as last year it is of better flavor and brings a higher price. His trees are pretty well loaded. His plums, crabs, prunes, apricots, etc. have to be propped up to save the trees.

At the Williams place there is a good crop of everything except apples.

William Pitcher, on the McKay, has a good crop of apples, pears, plums, apricots and crab apples.

The fruit crop is good in the Powell Butte country. The apple crop is not so heavy this year as last but that is owing to the unusually heavy yield last season. Peaches, plums, pears, cherries, apricots, etc. are fully up to the Powell Butte standard.

Council Awards

Sidewalk Contract

The city council awarded the cement sidewalk contract to Wheelwright & Phipps Saturday evening. The re-advertising for bids saved the city at least \$1400. "As a matter of fact," said Mayor Clifton, "it was City Engineer Kelley that made the saving." Six blocks on Main street and a few other places will have the new walks. Work is to begin right away.

Rich Powell Loses

Threshing Outfit

Rich Powell's threshing outfit was destroyed by fire Monday night sometime between 11 and 1 o'clock. The origin of the fire is not known. It is thought a carelessly thrown cigarette stub set fire to the building in which it was stored. The blacksmith shop was in the same building. Partially insured. Loss about \$1500.

Cadillac

The "Story of the Cadillac," is one of that mechanical and commercial advancement which makes for permanency. The Cadillac Company has never yielded to clamor by producing that which catered merely to fancy, nor that which took advantage of the uninformed. On the contrary it has produced only that which it knew would give to the purchaser "value received" in abundant measure. The Cadillac Company has never been obliged to resort to exaggeration and over-drawn claims to dispose of all the cars that it could make—and more. Its policy has ever been to under-claim rather than over-claim. It is gratified that the public accepts its representations at their full worth; because the public has never been misled and because the public could always expect and has always received more than was offered.
