Desire to Talk Will Prolong the Passage of Currency Bill at Special Session.

Washington.—There is no reason to doubt that congress will pass a currency bill, in a form acceptable to President Wilson, but there will be a great deal of surprise if the currency bill passes as soon as the president wishes; that is, at the present special session. The president unquestionably has the democratic majority in both senate and house working in complete harmony with his legislative plans, and from that majority he can get exactly what he wants in the way of legislation. The majority, however, cannot fix the time for voting in the senate, and for that reason the president is likely to be disappointed over the delay in completing the Glass-Owen bill.

Under the rules of the senate, debate in that body cannot be limited, even by the party in power, and a vote cannot be forced except by unanimous consent.

From present indications a great many democrats, as well as most republicans in the senate, will desire to speak on the currency bill. With the general desire to talk it will be difficult to get a vote of the currency bill within two months, and there will not be two months remaining after the currency bill is reported to the senate.

Tariff Bill May Bring Trade War.

Apprehension lest the Democratic tariff bill lead foreign nations to impose tariff penalties against the United States as soon as the new law goes into effect caused administration and senate leaders to plan the introduction of a joint resolution in congress making specific provision for the continuation of existing relations with all countries until President Wilson has time to negotiate new trade agreements.

The seriousness of the situation was impressed on Chairman Simmons, of the senate finance committee, by state department officials. It was pointed out that the trade relations established by President Taft's proclamations under the Payne-Aldrich law of 1909 would terminate as soon as the new law becomes effective, and that the United States then would face the possibility of having higher tariff rates applied against its exports by many countries.

Alcohol Duty Favored.

The tariff conference have agreed to Senator Lane's proposal to make more liberal the regulations concerning the manufacture of denatured alcohol, with a view to facilitate its manufacture by farmers from their waste products.

It is also possible that a small duty, for which Senator Lane has contended, may also be assessed. If this is done, Senator Lane believes importations will provide a material amount of revenue and considerably aid farmers and other domestic manufacturers of the product.

Slavery Common in Philippines.

Secretary Garrison had before him a Philippine slavery report by W. H. Phipps, auditor for the islands, backing up the startling charges of Dean Worcester. It cites details of many cases of boys and girls sold into slavery at prices ranging from \$50 to \$100 and says that heads of savage families sell their daughters and regard the practice as right.

"I have no hesitancy in saying that I think the charges of Secretary Worcester that slavery exists in the Philippines are sustained," says Mr. Phipps.

National Capital Brevities.

Navies of the world will be invited to join in a great demonstration at Hampton Roads to celebrate the opening of the Panama canal.

Coinage changes in the new nickel have led many people to believe that the coins are counterfeit. The United States treasury department gives assurance that the new nickel is genuine.

The currency bill has passed the house by a vote of 286 to 84. The measure goes to the senate with President Wilson's endorsement. All amendments offered by the minority are rejected.

A campaign to raise the Progressive party strength in the house has been started. Nineteen progressives of the house and Senator Miles Poin-dexter were named on the committee, with Representative Rinebaugh as chairman.

Exhibits intended for the Panama-Pacific exposition of 1915 may now enter the United States duty free. President Wilson signed the bill enacting into law this exception to the existing tariff law.

The war department has been asked by financial interests of Wall street to increase the number of soldiers on Governor's Island. It is feared that violence may result from mobs and foreign uprisings. The island is near the financial center.

GOVERNOR SULZER MUST STAND TRIAL

Motion of Counsel to Dismiss Proceedings Overruled by a Vote of 51 to 1.

Albany, N. Y.—Governor William Sulzer must go to trial. This was decided by the high court of impeachment when, by a vote of 51 to 1, its members overruled the motion of the governor's counsel to dismiss the proceedings on the ground that he was unconstitutionally impeached by the assembly because that body was in extra session when the impeachment was brought.

The governor's defeat was the second that has marked the battle waged by his attorneys to annihilate, as far as possible, the impeachment proceedings. Last week the court thwarted their attempt to prevent four senators from sitting as members. Their remaining ammunition consists of arguments to prove that certain of the offenses charged against the governor are not impeachable.

The opinion in substance was that the provision of the constitution which limited the acts of the legislature in extra session to such subjects as were recommended to it by the governor should be given a reasonable construction.

MRS. WILSON CONTESTANT

Error in Publication of Entry is Discovered.

Los Angeles.—Mrs. Woodrow Wilson, wife of the president of the United States, was a desert entryman for a part of the date lands in the Salton Sea basin of the Imperial valley, until she was notified by the local land office that the entry had been cancelled.

An error in publication of first entry was discovered, and a correction was ordered by the land office, but again instructions were not followed, and, in the course of time, Mrs. Wilson was notified that the homestead had been cancelled.

In her petition filed here the first lady of the land seeks to gain possession of her date acreage through proper publication.

COLOMBIA DEALS WITH GREAT BRITAIN

Washington.—The report that Pearson & Son, the great English firm of contractors and exploiters, with its significant relations to the British government itself, had obtained a gigantic concession for the exploitations of Colombia's natural resources, involving the right to construct docks, quays, railways and canals, arouses intense interest, not to say keen concern, here.

The matter involves the acquisition by English concessionaries of tracts of land and harbor works in the Gulf of Darien, a stone's throw from the Panama canal, and special interests along the Atrato river, a waterway which forms a part of the site of the Colombian route for an isthmian canal.

The question would not be so significant were it not for the fact that the concession also includes the construction of railways, docks, quays and "canals," the last named being of the greatest significance. That feature of the concession might be considered England's answer to the Panama canal tolls question, the American attitude concerning which has caused keen dissatisfaction in Great Britain.

15 INJURED IN TRAIN WRECK

Baggageman Dies After Accident on Great Northern.

Everett, Wash.—Fifteen persons were injured, one fatally, when an axle of the locomotive tender of Great Northern eastbound overland train No. 4 broke while the train was near Mukilteo, a few miles south of Everett.

A. W. Smith, a baggage man and express messenger of the eastbound overland train, who was injured internally, died. His family lives in Whitefish, Mont.

The collapse of the axle was followed by the ditching of the locomotive, tender and baggage car. Before a flagman could be sent back to post a warning signal, westbound overland No. 3 came along at full speed on the other track. Some of the wreckage of the locomotive and baggage car lay on the other track and the Seattle-bound train crashed into it. Most of the damage was in the eastbound train.
