Social Events.

The Ladies Annex of the Prineville Commercial Club entertained the Crook county teachers at a reception held in the club rooms, Monday evening. The affair was informal, the program consisting of addresses and vocal and instrumental music. The rooms were appropriately decorated with flowers and pennants. The committees in charge deserve great credit for the successful culmination of their plans.

The address of welcome was given by the president of the Annex, Mrs. John Wigle. In her gracious manner she bade the teachers welcome in behalf of the club and the city. She spoke of the good work the teachers had done in the past and said it was an augury for the future. She placed the teaching profession next to that of parenthood.

County Superintendent Myers voiced the sentiments of the teachers in his response. He stated the appreciation of the teachers for the courtesy and good will extended to them by the citizens of Prineville. He also stated the sentiments of the teachers of Crook county when he said that they realized that they were shaping the future citizenship of the best county in Oregon.

Miss Rosa B. Parrott gave an interesting talk on the necessity of developing the art of conversation. At the close of her address a number of her former pupils, led by Miss Conway, sang a toast in her honor.

The musical numbers of the program were especially fine and the evening will long be remembered by the teachers as a pleasant time of social diversion in their busy lives.

Mrs. Robert E. Gray entertained at dinner Monday evening in honor of State Superintendent Churchill. Those who enjoyed her hospitality were Misses Parrott and Conway, Mrs. Walker and Mr. Churchill.

Mrs. John Wigle served breakfast Monday morning to Misses Parrott and Conway, Mrs. Walker, Messrs. Churchill, Jones and Pittman.

Among those who entertained this week in honor of Miss Parrott of Monmouth were Mesdames Edwards, Brink and C. W. Elkins.

Cadillac

The "Story of the Cadillac," is one of that mechanical and commercial advancement which makes for permanency. The Cadillac Company has never yielded to clamor by producing that which catered merely to fancy, nor that which took advantage of the uninformed. On the contrary it has produced only that which it knew would give to the purchaser "value received" in abundant measure. The Cadillac Company has never been obliged to resort to exaggeration and over-drawn claims to dispose of all the cars that it could make—and more. Its policy has ever been to under-claim rather than over-claim. It is gratified that the public accepts its representations at their full worth; because the public has never been misled and because the public could always expect and has always received more than was offered.
